MAYOR FLYNN ANNOUNCES HEALTH CARE AND HEALTH CAREER INITIATIVES

*Dimock Community Health Center
and Bunker Hill Community College*

*Among Participants in a Million Dollar Program
to Train Neighborhood Residents for Health Careers;
Expanded Efforts to Immunize Neighborhood Children*

Mayor Raymond L. Flynn joined public health and education officials last Wednesday at Boston City Hospital to announce two major health care and health careers initiatives.

The first is a new \$1 million program that will train more than 650 Boston residents for careers in the health field. The second is a stepped-up program to make Boston parents aware of the availability of vaccination services available for young children through Boston's system of community health centers.

"We are taking a lead in addressing the health concerns of our citizens and using our position in the national health care system as a way to create economic opportunity and careers for our residents. The surest way to build healthy families is not only to provide high quality health care, but also to build a foundation of economic opportunity," Mayor Raymond L. Flynn said.

The training program is the result of a grant from the Commonwealth of Massachusetts Department of Medical Security's Labor Shortage Initiative to set up 13 new educational and job training programs for Boston residents. Administered by the Economic Development and Industrial Corporation of Boston (EDIC) through eight medical and educational institutions — including Beth Israel Hospital, Brigham and Women's, the New England Medical Center, New England Deaconess, Children's Hospital, Bunker Hill Community College and Dimock Community Health Center — this program will target a range of Boston residents from current hospital employees to underemployed adults and high school students.

Noting that health care accounts for 12 percent of Boston's economy, Donald A. Gillis, Executive Director of EDIC says the program will increase career opportunities for Boston residents who want to pursue careers in the health care profession. "Currently, less than one percent of graduates from Boston Public Schools enter the health care fields," Gillis said. "This program will help ensure that those who choose to pursue careers in this area will receive the training they need and be able to share in the city's fastest growing industry, health care."

Piedad Robertson, President of Bunker Hill Community College, one of the educational institutions that will participate in the program, says this type of education is long overdue. "We've been hearing about the need to do exactly what this program is aimed at doing, tying education with work. When education reinforces work, where the two become one, the time and effort of education is worthwhile," she said.

Marilyn Inniss, a registered nurse from Trinidad, Tobago, recently completed a six-month nurse midwifery pre-certification program ad-

THE ADOPT-A-STATUE PROGRAM

The goal of Adopt-A-Statue is to achieve funding for the restoration of thirty-nine pieces of outdoor public art and to establish a permanent maintenance endowment which would provide for the annual cleaning and maintenance of sixty-nine pieces.

To invite individuals, groups of individuals or corporations to "adopt" a piece of Boston outdoor public art by either:

- incurring the total cost of restoring and maintaining a particular piece of art or
- making a donation toward a general restoration and maintenance fund.

Gifts are tax deductible to the extent limited by law.

For further information on how to adopt a statue please contact the Environment Department at 725-3850 (Paula Mierzejewski) or Office of Arts and Humanities at 725-3245 (Mary Shannon).

Each week the *City Record* will publish a statue for adoption.

ministered through EDIC at City Hospital. "I could not have done this without the support and finance from Boston City Hospital. I know that because of my training, I can make a big difference in preventing infant mortality," Inniss told officials.

Similar enthusiasm was expressed by Jackie Jenkins-Scott, Executive Director of Dimock Community Health Center in Roxbury. "These initiatives allow us to continue to train people as histology technicians. I am pleased to be able to work with the teaching hospitals, EDIC and the state on this effort," she said.

Mayor Flynn also announced an aggressive new door-to-door campaign by the Department of Health and Hospitals (DHH) to inform Boston parents about vaccination programs available at community health centers throughout the city. Despite a reported nationwide shortage of vaccines for measles, whooping cough and mumps at inner-city health centers, Boston's network of neighborhood-based health centers continues to maintain an excellent track record of providing vaccination services to protect young children throughout the city against preventable childhood diseases. The Department administered 22,440 doses of the measles, mumps and rubella vaccine in fiscal year '90. According to Mayor Flynn, health officials are expected to increase that figure by 50 percent for fiscal year '91, bringing the total number of vaccinations to more than 30,000.

NEW PRESIDENT OF UNITED WAY OF MASSACHUSETTS BAY ANNOUNCED

Richard C. Garrison, the volunteer Chairman of the Board of United Way of Massachusetts Bay, announced today the Marian Heard of Bridgeport, Connecticut, has been named to succeed Robert X. Chandler as President and Chief Professional Officer. Chandler, who has headed the nearly \$50 million organization for the past 18 years is scheduled to retire in January, 1992.

In announcing her appointment Garrison said, "We set out in this search with extremely high standards, but Ms. Heard managed to exceed them."

Marian Heard currently serves as the President and Chief Professional Officer of the United Way of Eastern Fairfield County in Bridgeport, Connecticut, and has been in the United Way

movement for the past seventeen years. She has had United Way executive responsibility in the areas of administration, fund raising, resource distribution, community problem solving and agency relations. "Ms. Heard has had extensive professional experience and success in working with business, labor, government, education and community groups to improve the quality of life for those in need," said Garrison.

Ms. Heard served as the acting President and Chief Executive Officer of President Bush's Points of Light Foundation from May to December of 1990. She currently serves as Vice Chairman of the Board of Directors of the Points of Light Foundation.

In addition to her experience as a United Way professional, Ms. Heard has held executive positions in not-for-profit human service agencies, and has worked in private business and electronic media. She holds a B.A. in Business and Management from the University of Massachusetts at Amherst and a M.Ed. from Springfield College, where she specialized in Community Leadership and Development. She was also an instructor at Housatonic Community College in Bridgeport and has served as a guest lecturer at the University of Bridgeport and Sacred Heart University.

Ms. Heard has been the recipient of numerous citations and awards including, Service Award — Business and Professional Women's Club of Bridgeport, Community Service Award — Bridgeport YWCA, Women of the Year Award — American Muslim Mission, and Woman of the Year — National Negro Business and Professional Club for Community Volunteer Service and Youth Development. She was the first recipient of the United Way of America John H. Garber Jr. Minority Development Award and was the first woman to receive the Service Award from the Stratford, Connecticut, Jaycees.

Commenting on her selection to be the new President of the United Way, Ms. Heard said, "I'm delighted with the news. I'm looking forward to working closely with people from throughout the Greater Boston community, the

exceptional staff, volunteers and Board of the United Way as well as the network of excellent providers. Together we can forge partnerships to expand and improve the quality of services to people in need.

"Boston is a wonderful community with rich traditions, and a vast reservoir of human talent. I want to become part of that community, and to serve it. I'm excited by the challenge, and can't wait to get started."

Gary Countryman, President and CEO of Liberty Mutual Insurance Company and Chairman of the Search Committee, said that the Committee solicited candidate nominations from over 1,500 business, labor, government, education and community leaders.

A total of thirty-three local candidates and candidates from across the country were interviewed for the position. Countryman said that he and the Search Committee had an enormously talented pool of candidates to choose from. "With such a diverse and skilled group of candidates to choose from, the process was exciting and exhausting; the decision was a difficult one to make." He went on to say that, "We feel we made an excellent choice because we believe we chose the person whose skills and experience best match the vigorous requirements for the Chief Professional Officer of United Way of Massachusetts Bay."

Ms. Heard will begin her duties as President of United Way of Massachusetts Bay in February of 1992. She is the first woman in the organization's fifty-five plus year history to assume the position of President and Chief Professional Officer.

Garrison congratulated Countryman and the Search Committee on their choice and thanked them for "hours of hard work and dedication." The following people served on the Search Committee.

PARKS AND RECREATION DEPARTMENT

Design Services

No. 7083-91
October 5, 1990

Dear Mr. Mayor:

In response to an advertisement published in the *City Record* on May 28 and June 4, for request for designers at proposed parks and playgrounds, I respectfully request your Honor's permission to award a contract to Goldenberg Associates, Inc., 24 Fairfax Road, Needham, MA 02192. Under the terms of the contract, the designer will assist the Parks and Recreation Department in providing Engineering services.

Four firms submitted design proposals which were received and numerically rated by the Department's Designer Selection Board, and a final list (see attached sheet) was produced. The firm of Goldenberg Associates, Inc., was the firm that was selected as the designer for the park project. Under the terms of the contract, the firm will produce contract documents for Rehabilitation of Floodlight Poles in City of Boston Parks during the period October 15, 1990 through October 15, 1991.

Goldenberg Associates, Inc. was the only firm that had experience in evaluation of the structural integrity of park floodlight poles.

The designers basic fee is 10.73% of the presently estimated cost of construction of \$170,000 shall not exceed \$18,241. In addition a sum of \$10,000 will be provided under supplementary services. The maximum liability of the City under the terms of the proposed contract shall not exceed \$28,241. The contract will be charged to 6S3-300-4356-0725.

Food Services

April 30, 1990

Dear Mr Mayor:

In response to an advertisement for complete food services at the Suffolk County House of Correction at Deer Island in the January 29, 1990 edition of the *City Record*, the following bid was publicly opened and read on March 30, 1990:

Szabo Correctional Services \$1.32 per meal

Division of ARA Services, Inc.
2000 Spring Road, Suite 300
Oakbrook, IL, 60521

Bids for these services were actively solicited from several correctional food services vendors in addition to Szabo Correctional Services, including Creative Food Management, Inc. of Toledo, Ohio, and Canteen Corporation of Chicago, Illinois. However, only Szabo Correctional Services submitted a bid.

Szabo Correctional Services is a responsible and qualified bidder providing similar food services at twenty-nine other correctional facilities in at least eighteen states. In addition, Szabo has provided similar food services at the Suffolk County House of Correction at Deer Island in previous fiscal years with most satisfactory results.

The bid submitted by Szabo is technically defective in that the duplicate bid filed with the City Auditor contained a bid price of \$1.37 per meal which is different from the \$1.32 bid price contained in the copy of the bid filed with the department. Inasmuch as Szabo's intended bid price was \$1.32 per meal, and inasmuch as it is in the best interest of the City to contract at that lower price, your Honor's permission is requested to reject all bids and award this contract without further advertising to Szabo Correctional Services at the price of \$1.32 per meal, which bid I have determined to be reasonable for the services to be performed, for the period of July 1, 1990 through June 30, 1991, and at a total cost not to exceed one million three hundred thousand dollars (\$1,300,000). Funding will be charged against appropriation 014-748-0813-PL03-0290 with an initial encumbrance of six hundred thousand dollars (\$600,000).

Very truly yours,

Robert G. Walsh, Jr.
Commissioner

MIS Services

September 28, 1990

Dear Mayor Flynn:

On June 25, 1990, your Honor approved the award of a contract, based on public advertising for bids, to Ilona Lappo, 42 Linnaean Street, Cambridge, Massachusetts 02138, for MIS consultation and interdepartmental liaison services for the Penal Institutions Department for the period of July 1, 1990 through June 30, 1991 at a cost not to exceed twenty thousand dollars (\$20,000.00).

The utilization of MIS services, currently provided under the terms of this contract, have increased dramatically from last Fiscal Year. This increase has been due to two pri-

mary factors: the effort to bring the Penal Institutions Department up to date with regard to the use of computer systems for storing, developing and using information, especially with regard to inmate records and various business and fiscal matters; and, second, the increased planning and development concerning both the construction of and transition to the new Suffolk County House of Correction in the South Bay section of Boston.

The Penal Institutions Department has requested that a payroll position be added to meet the MIS needs of the department and thereby eliminate the need for an MIS consultant contract. However, this position has not yet materialized, nor can any estimate be given when this position will be available to the Penal Institutions Department.

Therefore, in order to ensure that the MIS needs of this department can be met through the end of this Fiscal Year, and to ensure that the transition timetable continues to be met, your Honor's approval is hereby requested to amend this contract in the terms of compensation, increased by forty thousand dollars (\$40,000.00), making the total contract amount sixty thousand dollars (\$60,000.00).

Because the original contract was advertised, and because Ilona Lappo was the lowest bidder and has performed under this contract in a satisfactory manner, I believe that further public advertising would serve no useful purpose.

Sincerely,

Robert G. Walsh, Jr.

Automobile Repair

Dear Mayor Flynn:

On July 25, 1990, your Honor approved the award of contracts, following public advertising for applications, to competent firms interested in estimating periodically the cost of and thereafter, upon the lowest responsible estimate, performing the work of automotive repairs to the Boston Police Department vehicles.

On September 10, 1990, the Boston Police Department Fleet Management Division requested quotations from vendors in the body work category to repair vehicle number (VMS) 16747. The result of that bid process is as follows:

Muzi Motors, Inc.	\$2375.99
Conner Auto Body, Inc.	\$2450.00
Stadium Auto Body, Inc.	\$2572.24
Crosstown Auto Body, Inc.	\$2593.00
Parkway Towing, Inc.	\$2749.89
Quality Auto Painting, Inc.	\$2876.65

Spartan Automotive Engineering Corp. No Response

Northeast Auto & Truck Company No Response

New England Truck & Auto Body Repair, Inc. No Response

Maaco Auto Painting, Inc. No Response

Hicks Auto Body, Inc. No Response

Automotive Depot, Inc. No Response

A. Nicolai, Inc. No Response

Whereas this work order exceeds the \$2000.00 statutory limit for multi-vendor contracts, I request your Honor's approval to

award this job to Muzi Motors, Inc. for the bid amount of \$2375.99. I feel this cost is reasonable given the amount of repairs needed. As vehicle #16747 is a public safety vehicle, immediate repairs were needed, causing the effective date of this amendment to be September 12, 1990. This funding will be charged against the Police Department appropriation 011-211-0211-PD02-0270.

Given the fact that Muzi Motors, Inc. is a present vendor with the Police Department qualified to perform services in this category and given that Muzi Motors, Inc. was the lowest responsive bidder, I believe that further public advertising would serve no useful purpose. I respectfully request your approval at this time.

Respectfully,

The job was awarded to Muzi Motors, Inc., the low bidder; however, upon the repair of the vehicle, it was discovered that there was more frame damage than originally anticipated in the department's specifications. Project No. 4940

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on August 23, 1990, I respectfully request Your Honor's written permission to dispense with further public advertisement and award a contract to Lawrence J. Aiello, with offices at 160 Holland Street, Somerville, Massachusetts 02144, for on-site managing construction clerk services for renovations, demolition and new construction of the New Inpatient Facility at Boston City Hospital.

Compensation under this contract shall not exceed \$224,104, which is a negotiated fee based on daily rates for 210 work days per calendar year providing in year one \$255 per day, year two \$262 per day, year three \$270 per day, and year four \$279 per day, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be from September 15, 1990 to September 15, 1994.

Following the advertisement of this project in the Boston Globe on April 29, 1990 and receipt of 52 applications, a committee consisting of Public Facilities Department and Department of Health and Hospitals members reviewed the applicants qualifications. Six applicants met the minimum qualifications and were chosen for individual interviews. Of the six, three were selected for final interviews. The final three were unanimously ranked by the committee as follows:

Lawrence Aiello, 1.
William Baker, 2.
George Sarandis, 3.

In view of the technical and professional nature of the services required, and the selection process used, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with invited sealed bids in the City Record under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

Snow Removal

Dear Mr. Mayor:

On November 7, 1989, his Honor the Mayor approved the award of a contract based on public advertising for bids to Fred DeRoma & Son, 27 Grew Avenue, Roslindale, Massachusetts, for removing snow and furnishing labor and equipment for the purpose of supplementing the department forces and equipment in connection with the work of keeping the highways and streets open following snowstorms in District 6, SC-7407(90), at a cost not to exceed one hundred thousand dollars (\$100,000), for the period November 15, 1989 to April 30, 1990.

This contract contained an Option to Renew clause which allows the City to obtain the same services this year as last, at last years prices, plus a Consumer Price Index escalation factor of 5.4%, which I believe will result in a substantial savings to the City, and would be performed by a contractor well qualified and familiar with the area of work.

For the reasons stated above and since public advertising would serve no useful purpose, I respectfully request your Honors permission to dispense with public advertising and award a contract for the above services to Fred DeRoma & Son, 27 Grew Avenue, Roslindale, Massachusetts, in the amount of \$100,000 for the period November 15, 1990 to April 30, 1991.

Building Repairs

Dear Mr. Mayor:

I respectfully request your Honor's permission to award to North Brighton Iron, 29 Brayton Road, Brighton, MA 02135, the work of replacing the overhead garage door in the Heavy Maintenance Shop.

This door provides access to the shop for some of the Department's largest pieces of equipment. Its proper operation is vital to the safety and security of Public Works. It is, therefore, essential that it be repaired with a minimum amount of downtime.

The cost of replacement amount to \$6,950 which will be paid pursuant to the firm's existing contract (#7394-91) for multi-vendor repetitive service contract for various types of repair work to Public Works buildings. This contract requires the Mayor's approval for any single repair of \$2,000 or more.

Because the vendor is qualified to perform such repairs and the price quoted is reasonable, I believe public advertising would serve no useful purpose.

Dear Mr. Mayor:

There was no response to an advertisement in the July 16, 1990 issue of the *City Record* for

Floor Replacement at Hyde Park High School. Although nine (9) vendors collected plans and specifications, which were available on July 19, there were "No Bidders" on the opening bid date of August 2.

Therefore, because of the necessity to complete the job before school opening, it was necessary to rebid the job, which was accomplished through the Invitational Bid System.

As a result of this, the bids listed below were received and publicly opened and read on Friday, August 17, 1990:

Petrucelli Corporation, \$6,999.

Faletta Bros., Inc., \$8,775.

John Palumbo Company, \$11,900.

Therefore, I request your approval of my action in awarding a contract without further advertising to the Petrucelli Corporation, P. O. Box 271/41 Carolyn Road, Lynn, MA 01903, the lowest responsible and eligible bidder in the amount of six thousand nine hundred ninety-nine dollars (\$6,999). Your approval is requested to amend this contract to provide for an increase in the yearly compensation which was not provided for in the terms of the original contract. Ms. Wheeler was originally hired on a part-time basis, but due to an increase in the workload in the Municipal Lien Section of the Collecting Division, I find it necessary to increase her hours to full time effective September 24, 1990. The total amount of this contract as amended will be increased to sixteen thousand, four hundred and forty dollars (\$16,440). Ms. Wheeler's hourly salary of \$8.40 will not change.

Contract No. 3784-91
October 10, 1990

Dear Mayor Flynn:

In response to an advertisement in the *City Record* on September 24, 1990, for clerical support services, Michelle Allix, 253 East Ninth Street, South Boston, MA 02127, was the only respondent, and has been qualified to perform clerical support services for the Trust Office of the Treasury Department.

Michelle Allix is specially qualified to perform these services because of her past secretarial ex-

periences, her knowledge of Trust Funds and financial terminology, and her ability to work productively and efficiently with little supervision. The contractor will be answering phones, typing memoranda and reports using Wang Word Processing and Lotus 123, filing and other related work as needed. Ms. Allix is also proficient in handling special projects when assigned.

Therefore, I request your authorization for the award of a contract to Michelle Allix in the amount not to exceed \$11,305, payable at an hourly rate of \$9.50, which is deemed to be reasonable, during the period October 22, 1990 through June 28, 1991. The appropriation for this contract is 017-780-8936-0000.

Ms. Allix has previously worked for the Treasury Department-Trust Office, and her previous contracts were F/90-\$15,743, F/89-\$9,800 and F/88-\$5,700.

Because of the professional nature of the services to be performed, I believe that further advertising would serve no useful purpose.

Under the terms of this contract, EDIC/Boston will provide staffing and administrative support in managing two (2) grants awarded to the City of Boston through the former Mayor's Office of Jobs and Community Services (JCS).

EDIC/Boston was selected as it recently merged with JCS, which has managed a variety of State and Federal grants on behalf of the City of Boston since its creation in 1985. Miscellaneous Supplies

Dear Mr. Mayor:

Your Honor's permission is requested to award a contract, without advertising, to Seagrave Fire Apparatus, Clintonville, WI for the purchase of Miscellaneous Parts and Supplies (CC: 070-99) for the ten (10) Seagrave Ladder Trucks presently used by the Boston Fire Department.

Seagrave Fire Apparatus Inc. is the sole supplier of these parts. The Fire Department has been very satisfied with the apparatus, parts, and service rendered by this firm.

The Fire Department Maintenance Division projects a need for \$10,000 for parts through June 30, 1991.

Therefore, your Honor's permission is respectfully requested to award a contract, without advertising, to Seagrave Fire Apparatus, Inc., 103 East 12th Street, Clintonville, WI 54929-1590, in the amount of \$10,000 - net. For the reasons stated above, it is my opinion that public advertising would serve no useful purpose.

Very truly yours,

Mary T. Gale,
Asst. Purchasing Agent.

ASSESSING DEPARTMENT

Professional Services

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the Massachusetts Association of Assessing Officers, Inc., c/o Marion Fantucchio, 243 Water Street, Quincy, MA 02169 for professional services to the Assessing Department.

The Assessing Department is continuing in the process of professionalizing its evaluation unit by ongoing education of its staff, specifically for

professional assessor designation for Massachusetts (MAA Designation). Also, this training is part of the career growth plan for the department's assessors.

Under this contract, the Contractor will furnish course and examination materials for MAA Designation (Massachusetts Accredited Assessors). The Contractor will also furnish memberships, examinations, meetings, publications, and other incidentals related to the educational and training services approved by the Official.

The MAAO is a non profit organization formed to educate the Assessors of Massachusetts, to assist in creating efficient and uniform administration of local tax laws, to afford opportunity for discussions pertaining to local taxation and to provide methods for encouragement of desirable tax laws.

The terms of this contract shall be from October 15, 1990 through June 30, 1991, at a cost not to exceed six thousand dollars (\$6,000). I believe such a contract cost to be reasonable for the services to be performed.

This shall be the first contract between the City of Boston's Assessing Department and the Massachusetts Association of Assessing Officers (MAAO).

Because of the professional and technical nature of the services to be provided and the recognized expertise of the Contractor, I believe that public advertising at this time would serve no useful purpose.

Sincerely,

Thaddeus J. Jankowski, Jr.,
Commissioner.

Professional Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the Economic Development and Industrial Corporation of Boston (EDIC/Boston), a body corporate and politic created pursuant to Chapter 1097 of the Acts of 1971 of the Commonwealth of Massachusetts, and located at 38 Chauncy Street, Boston, Massachusetts, 02111. Under the terms of this contract, EDIC/Boston will provide programmatic and administrative support services in support of the City's Alternative Education Initiative (AEI).

EDIC/Boston was selected as it recently merged with the former Mayor's Office of Jobs and Community Services (JCS) which has provided these services for the past four (4) years. Within the newly created Jobs and Community Services Division of EDIC/Boston, EDIC staff will continue to fund and monitor community-based, non-profit organizations offering programs targeting out-of-school youths, in collaboration with the School Department and the Boston Community Schools and Recreation Centers.

Compensation under the terms of this contract shall not exceed sixty-three thousand (\$63,000) dollars, an amount representing ten (10) percent of the funds allocated to this portion of the FY 91 AEI program. The period of performance shall be from July 1, 1990 until June 30, 1991. The

submission of this letter has been delayed due to the time involved in finalizing the merger and the late notification of funding availability from the School Department. The School Department approved funding for the FY 91 AEI program on August 13, 1990.

As this contract is solely to establish a mechanism for payment to EDIC/Boston which has assumed certain responsibilities for the City's AEI program as part of its merger with JCS, I believe that public advertising would serve no useful or practical purpose.

Sincerely,

William P. Doherty,
Executive Director.

"STAND UP FOR AMERICA'S CITIES!"

Excerpts of Mayor Raymond L. Flynn's speech to United States Conference of Mayors, San Diego, California, June 19, 1991.

My friends, you've elected me to be your president because I believe you want someone who'll rock the boat, speak out, and put the cities of America on the national political map.

Well, with your help, I intend to do just that.

It is time to put an end to the hollow nonsense that passes for public policy today in our country — mindless domestic cuts, bogus budget agreements, and fraudulent savings and loan bailouts. We can do better than that.

hind a strong national economic recovery game plan which says that without strong competitive cities, we cannot be a strong competitive nation. And the resolutions we approved this morning form the shape of this plan.

Now, cities have been and must continue to be centers of civilization and commerce and ports of opportunity for our country. If we are to be a great nation in the twenty-first century, we must build great cities to move us forward.

How do we do this?

First of all, I believe we must begin by pushing for the repeal of the budget agreement that has stifled debate over an economic agenda for this country. When the Democratic and Republican budget resolutions differ by less than *one* percent of the total federal budget, it is time for America's mayors to step up and offer a better alternative.

Our economic recovery game plan must include new initiatives to rebuild our infrastructure and train our young people for the jobs of the future. And it must include support for the small and growing businesses that will create American jobs and keep them in America.

Most importantly, we must design programs that link economic growth with economic justice. We must reject the "*Politics of Scarcity*," which sets people against each other, and develop the "*Politics of Inclusion*." We must make the pie grow larger for everyone, and also reach out to make sure that no one is left behind.

We mayors must affirm a basic American premise — that the best

Mayor Flynn recently stopped by the Gallivan Community Center in Mattapan to announce over 3 million dollars in renovations to the housing units in the development and to join in a basketball game between Gallivan youth and the Boston Police Department's Anti-Gang Unit.

The Gallivan Community Center was recently re-opened in March after being closed for 12 years. The 2.2 million dollar renovation was part of Mayor Flynn's "Rebuilding Boston" program, a 1.03 billion dollar capital investment plan for the City of Boston. The Community Center is run by Boston Community Schools and Recreation Centers.

Pictured above with the Mayor are, from left to right, Marjorie Shirkey, Mary D'Rosa, Hazel Bennett, Chair of the Gallivan Tenant's Task Force, Jeanne Dever, Coordinator of the Gallivan Community Center, and Henry Sullivan.

We mayors have been criticized for going to Washington with a tin cup in hand. And every year we see the editorial cartoons which ridicule our efforts. But what you don't see are the lobbyists with the gold-plated cups, overflowing with political action

committee money, who get whatever they need from Congress — at our expense.

So it is time to put away the tin cups and time to bring out the artillery — when we go to Washington from now on, we will be united be-

America's Cities . . .

social program is a job, and the more jobs that pay a decent wage the better.

We can create jobs and put people back to work through a new "\$5 Billion Jobs Initiative" to invest in our infrastructure. We need \$5 billion beyond currently authorized levels to fix our bridges and roads, build new high speed rail connections, upgrade our ports and airports, and rebuild our parks and schools.

We need passage of a "Competitive Cities Act", which will require major federal contractors to give something back to the community in terms of apprenticeships, "Adopt A School" programs and similar educational initiatives.

This bill will also create a "Computer Corps", to give inner city young people the skills needed for the jobs of the new economy and it will establish a "Work To Learn" program, that will help families meet the rapidly rising cost of a college education.

We must challenge our representatives in Washington to work with us to enact these new initiatives. We've had enough of watered down education proposals, watered down economic policy, and watered down legislation for our children. The ship of state in Washington has taken on so much water, it's about to sink.

It's gotten to the point that when prominent Washington figures go on television and talk about our cities, it's laughable. They just have no feel anymore for our issues, our neighborhoods and our people. They might as well be speaking a foreign language.

We just can't accept it anymore when they tell us there's no money for America's cities. *Not* when the president asked the congress this year for 23,111 *NEW* federal employees. *Not* when our allies can share more of the burden for defending Europe. And *NOT* when we continue to have a tax system that is less and less fair.

It's time to tell the American people the truth — over the past decade, the vast majority of us — city and suburb, blue collar and white collar, White, Black, Hispanic and Asian — have gotten the shaft.

Our nation has become so complacent that we're willing to offer military aid, foreign aid, most favored nation status and free trade to virtually any country, but when it comes to taking care of needy children, hungry and homeless families, and dislocated workers in America, we're told we're broke.

It's not that Washington is broke, the truth is, they're just morally bankrupt.

Mayors hold the toughest jobs in America and we know the issues. It's time for our people — Democrats and Republicans — to be recognized for their leadership and their service to our country. So if any of you think you can offer this country more than the same old doubletalk we get out of Washington, I have one word of advice for you — run!

We must also develop a strong and positive message about cities which we can present to the American people. This year, we will take the message of America's cities to every section of the

country — building new partnerships and strengthening old ones. Mayors will be out front — speaking to chambers of commerce, to labor conferences, and to editorial boards and news programs. You will even see us out in rural America, seeking to forge new coalitions for a common economic and social agenda.

Because it's not just our cities that are hurting — our entire nation's economic future is at risk.

We must also be willing to take on new issues as times change. First among these issues is that of education — from making Headstart an entitlement to the issues of elementary and secondary school reform to the crisis that many of our families face in paying for a college education. We cannot have a skilled and competitive work force if half our kids drop out of high school, and the other half struggles to afford college.

We must put cities back on the map nationally as centers for educational accountability. Too many of our kids end up in our courts, our jails or our hospitals. In these lean times, we have to make sure that the job is done right, the first time, in our schools. And we must speak out for a renewal of values and responsibility — from a longer school day and school year to increased parental involvement in their children's education.

We should also continue our commitment to our basic issues — to end hunger and homelessness, to guarantee decent health care and nutrition and to promote jobs and economic development. We mayors do America's heavy lifting, taking on the tough issues no one else wants to address. But with all of us lending a hand and pulling together, much can be accomplished.

So finally, let me say this — you have given me your vote for this position — now I need your help. We need mayors from big cities and small cities, Democrats and Republicans, liberals and conservatives, who are willing to take our message to Washington and to the American people. We've been passive observers for too long — it's time to rock the boat.

The challenge is here and now. Let us band together in fighting for urban America. Let us make our cities competitive once again. Let us show the *fortitude*, the *creativity* and the *ingenuity* to pick up our cities and face the onset of the 21st century not with fear but with pride and a belief that we can win this battle.

Working together this year, we can make a difference. So let us go forward — *standing up for America's cities*, and striving for a *new vision of America* in which the cities of the twenty-first century become shining beacons of opportunity, enriching our nation and our citizens in the process.

In closing, my friends — we need more than a president of this organization — we need a team of fighters — not just raising issues, but raising hell. I come from a city that started a little hell raising a couple of hundred years ago — and all of the American patriots joined in. We need to light a few firecrackers under the seats of some of those Democrats and Republicans sitting in Washington today. Let us all join the effort not for a new party or a new Democratic party or a new Republican party, but a Boston Tea Party to shake things up and let our government officials in Washington, D.C., know that we mean business.

Thank you.

LOCAL ARCHITECTURAL FIRM TO DESIGN NEW POLICE HEADQUARTERS

Mayor Raymond L. Flynn, on June 16, announced that the City has chosen Stull and Lee, Incorporated, a local, nationally renowned, minority-owned, architectural firm, to design Boston's new Police Headquarters to be constructed along Roxbury's Southwest Corridor.

"Not only will the construction of a new Police Headquarters in Roxbury provide the Boston Police Department with a state-of-the-art facility and up-to-date public safety technology to better serve Boston residents, the new headquarters will

bring economic opportunity to the greater Roxbury area and stimulate new economic growth along the Southwest Corridor," said Mayor Flynn.

M. David Lee, Principal-In-Charge at Stull and Lee, said, "Stull and Lee, Incorporated is extremely pleased to have been selected to design this important building for the City of Boston. We have assembled an outstanding team of consultants. Our firm is committed to the highest civic design principles and we look forward to this opportunity to add to the City's legacy of fine public buildings."

Many of Stull and Lee's design contributions to the City are located in Roxbury, Dorchester and the South End. The firm has designed such notable projects as the Ruggles MBTA Station, Roxbury Community College, the New Dudley Post Office (currently under construction), and the Harriet Tubman House in the South End. The new Police Headquarters will be constructed immediately adjacent to the Ruggles Center Development Project, (the new home of the Motor Vehicles Registry) and the existing Ruggles MBTA Station.

"The programming phase, where we determine all of the space needs for the building inside and out, is nearly complete," said Charles Grigsby, the Project Director from the City's Public Facilities Department. "We would not have been able to get this far so quickly without the help of many members of the community who devoted weeks and weeks to identifying issues of concern to the neighborhood and to this designer selection process."

According to Mary Nee, the Director of the City's Capital Planning Office, designs for the project are anticipated to be completed by the fall of 1992 and construction should begin by the late winter of 1992 or early 1993.

"It has become increasingly apparent over the years that the Berkeley Street Headquarters must be replaced," said Nee. "The building has

a critical lack of space which has forced half a dozen central functions of the Police Department to be scattered across the City. Moreover, it has inhibited the use of Enhanced 9-1-1 computer technology which is becoming the mainstay of modern policing."

Enhanced 9-1-1 enables the Police and Fire Departments instant access to the caller's address. It is particularly necessary if the caller, a young child for example, cannot identify their address or the location of the emergency.

Preliminary plans suggest that the new facility will require 194,000 square feet and will resemble a modern office building. It will consolidate police administrative functions, enable the City to realize the benefits of Enhanced 9-1-1 computer technology and improve laboratory space for ballistics and crime analysis. In addition, the headquarters will provide space for day-care, community rooms, a conference room, cafeteria and parking.

This project is part of Mayor Flynn's five-year capital improvement plan, "Rebuilding Boston," a \$1.03 billion investment plan for the City of Boston.

BPL EXHIBIT EXPLORES AMERICA'S CULTURAL LANDSCAPE

"What So Proudly We Hailed," an exhibition about America's threatened cultural landscape, will be on display in the Concourse area of the Boston Public Library in Copley Square from July 8th through July 30th.

The exhibit, sponsored by the Townscape Institute, a non-profit organization based in Cambridge, explores the threats from development and careless planning to some of the nation's best-known landscapes, including Walden Pond, Civil War battlefields, the Amish country of Lancaster, Pennsylvania, and Native American petroglyphs near Albuquerque, New Mexico.

(Continued on next page)

The exhibit, which is free and open to the public during regular library hours, challenges basic assumptions about the vesting of property rights, sets forth planning alternatives, and asks for a recording of our national land-use protections. For more information, please contact the Boston Public Library at 536-5400, Ext. 336.

William D. Stanton, Editor,
City Record, City of Boston.
Room 800, City Hall
Boston, MA 02201

Dear Mr. Stanton:

A year ago, I granted permission to the City of Boston to use the *City Record* in lieu of newspaper advertising for all procurements over the statutory threshold of \$10,000 as provided in G. L. c. 30B, s. 5(a). At that time, I recognized that the *City Record* was accessible, timely and inexpensive, and therefore met the standards stated and implied by chapter 30B for adequate notice to prospective bidders. G. L. c. 30B, s. 5(c).

The record appears to continue to meet those standards, and therefore I again grant permission to the City of Boston to continue to use the *Record* rather than newspapers for the advertising of procurement contracts. This permission will extend for three years and expire in May 1995.

In granting this permission, I recognize as reasonable the increase in the *Record* subscription from twelve dollars (\$12.00) to fifty dollars (\$50.00).

This permission will not extend to procurements over \$100,000 which are required to be advertised in the Secretary's *Goods and Services Bulletin*.

See G. L. c. 30B, s. 5(c) (allowing the State Secretary to establish a dollar figure for mandatory advertisement of contracts in the *Goods and Services Bulletin* over \$25,000). Additionally, permission does not include public facility contracts over \$100,000 required to be published in the *Central Register* under G. L. c. 7, s. 38K, and G. L. c. 149, s. 44J.

Very truly yours,

Michael J. Connolly,
Secretary of State.

U.S. HOUSE APPROVES \$100 MILLION FOR BOSTON HARBOR

Massachusetts Water Resources Authority Executive Director Paul F. Levy, on June 7, praised Congressmen J. Joseph Moakley (D), South Boston, and Chester G. Atkins (D), Concord, for their action in securing House approval of \$100 million in funding for Boston Harbor.

The measure was approved on June 6 by a voice vote on the House floor.

"Messrs. Moakley and Atkins have worked tirelessly for months to make certain we receive this desperately needed funding to help defray the cost of the largest environmental cleanup effort in the United States now under way in Boston," said Levy.

"Their efforts and those of their colleagues in the Massachusetts Delegation and in the state legislature

have greatly assisted us in conducting this massive effort. There are now 3,200 workers on the Boston Harbor Cleanup and there will be many more as time goes on.

"Moakley and Atkins have helped the environment and helped create jobs during these difficult economic times in Massachusetts," Levy stated.

The funding is part of a \$300 million appropriation for 5 coastal cities including New York City, Los Angeles, San Diego and Seattle.

The measure now goes to the Senate Sub Committee on the V.A., HUD and Independent Agencies.

It will be considered after the July 4 recess.

President George Bush proposed the \$100 million for Boston Harbor earlier this year.

The Massachusetts Water Resources Authority has now spent more than \$1 billion to end the pollution of the Harbor.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

COMMUNITY SCHOOLS AND RECREATION

August 27, 1990.

Professional Services

Dear Mayor Flynn:

I hereby request your Honor's permission to dispense with public advertising and to amend a contract between the Boston Community Schools and Recreation Centers and the Jackson Mann Community School Council, Inc., for services rendered relating to the Federal Gang & Drug Deterrent Project, Hope In Progress "HIP" Program.

Under the terms of the amended contract, the Jackson Mann Community School Council, Inc., will furnish personnel, supplies, materials and administrative services necessary to operate the Hope In Progress program at the program site. These services will be provided for the period of time between January 29, 1990 to September 30, 1990 at a cost not to exceed \$31,000 an increase of \$15,000 from the original contract amount of \$16,500.

The services provided by the Madison Park Community School is relative to the HIP program. The HIP program has integrated program participants into existing BCSRC Youth pro-

grams. These programs include recreation, afterschool daycare, Back to School, City Roots and Youth Outreach.

The Madison Park Community School has implemented the HIP program in an efficient and effective manner in view of their expertise in administering this Gang & Drug Deterrent Project.

Therefore no useful purpose would be served by advertising for proposals. I, therefore, respectfully request that your permission be forthcoming to enter into this contract.

Respectfully yours,
William P. Doherty
Executive Director

EDIC/BOSTON

September 4, 1990

Dear Mayor Flynn:

Pursuant to the Contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 4, 1990, by which Contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to the East Boston Ecumenical Community Council, a non-profit corporation, located at 28 Paris Street, East Boston, Massachusetts, 02128. Under the terms of the contract, the Contractor will provide counseling and support services to approximately one hundred (100) immigrants in the East Boston area.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990. Notices of these meetings were published in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 13, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

Compensation under the terms of this contract shall not exceed twenty thousand (\$20,000) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has not had a contract with this agency for this program for the previous fiscal year. This request has been delayed due to the length of time involved in the funding review process, and due to the merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful or practical purpose.

Sincerely,
Donald A. Gillis,
Director.

Under the terms of the contract, the Contractor, in collaboration with the Boston Living Center, will provide a variety of counseling and support services to approximately three hundred (300) clients with AIDS or AIDS-Related Complex, targeting the South End, Jamaica Plain, and Fenway/Kenmore areas.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Consultant Services

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Boston

(Continued on next page)

Neurology Associates, Inc., a professional corporation with principal offices located at, Boston City Hospital, Medical 9, 818 Harrison Avenue, Boston, Massachusetts 02118 for the period October 1, 1990 through June 30, 1991, at a cost not to exceed nine thousand six hundred twenty-five dollars (\$9,625).

Under this contract Boston Neurology Associates, Inc. will provide consultant services in Neurology for patients at Mattapan Hospital. A four (4) hour consultation session will be provided once a week, to be scheduled in advance. Each session, which will include occasional in-service for the medical staff and chart reviews, will be reimbursed at the rate of \$55 per hour, to be paid monthly on a services rendered basis. Telephone availability for neurological problems will be provided for a flat fee of \$1,000 per year to be paid on a monthly basis. Development of criteria for formal neurological studies will be provided also as requested by the Medical Director.

Fiscal year 1991 is the first year that a contract will be awarded to Boston Neurology Associates, Inc. Originally, Dr. Marc Kamin was awarded an unadvertised contract for fiscal year 1991 in the amount of \$12,540; however, he resigned his position with the department as of July 31, 1990 and a replacement was needed. Unadvertised contracts have been awarded to Dr. Kamin for the past two fiscal years in the following amounts: 1990 — \$12,540; 1989 — \$6,508.36 (November 1, 1988 through June 30, 1989).

As Boston Neurology Associates, Inc. are specialists in this field, because of the professional nature of the services to be provided, and as the cost, in my opinion, is reasonable, no useful purpose would be served by publicly advertising for bids.

Very truly yours,
Judith Kurland,
Commissioner.

C. 320-91
September 17, 1990

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Sheryl Rimer, P.O. Box 60, Hamilton, Massachusetts 01936 for the period July 16, 1990 through June 30, 1991 at a cost not to exceed ten thousand dollars (\$10,000).

Under this contract the consultant will prepare the Ambulatory Care Center (ACC) for a successful Joint Committee on Accreditation of Healthcare Organizations (JCAHO) visit. Boston City Hospital is to be reviewed for renewal of its accreditation in September, 1990 by JCAHO.

Ms. Rimer will:

- 1) Insure all Policy and Procedure Manuals encompass JCAHO requirements
- 2) Provide Revision and Reindexing of ACC policy and Procedure Manual
- 3) Ensure ACC Clinical Records are in compliance with the patient's Hospital Medical Record

For the past two years Ms. Rimer has served as a consultant to the Medical Records Department of Boston City Hospital. She has clinical program knowledge as well as JCAHO regulation familiarity which is critical to the success of this task. Ms. Rimer will not require any orientation to perform the above tasks. Her fee will be fifty-five

dollars (\$55) per hour during the period of this contract.

Unadvertised contracts were awarded to Sheryl Rimer for the past two fiscal years in the following amounts; 1990 — \$50,000; 1989 — \$50,000.

Because of the quality of her prior performance, because of the additional cost to the hospital for the time spent familiarizing a new consultant with the procedures of the Ambulatory Care Center and Medical Records Department and because the hourly rate, in my opinion, is reasonable, no benefit would inure to the City by publicly advertising for bids.

This award is being processed late because the request for contract was not received from the department until after the start of the contract period.

Very truly yours,
Judith Kurland,
Commissioner.

Computer Software

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to System Analysis Corporation, 1 Hollis Street, Wellesley, Massachusetts 02181, for the period July 1, 1990 through June 30, 1991 at a cost not to exceed nineteen thousand six hundred fifty-two dollars (\$19,652).

In 1982 the Department purchased a Clinical Laboratory Information System computer software package from Systems Analysis Corporation which was compatible with the Department's existing computer hardware from Digital Equipment Corporation. Under this contract Systems Analysis Corp. will provide all labor and travel expenses to rectify any and all software problems in existing programs.

Systems Analysis Corporation has provided the Department with excellent services in the past. Systems Analysis Corporation was awarded unadvertised contracts for the past three fiscal years in the following amounts: 1990 — \$19,652; 1989 — \$19,652; 1988 — \$19,652.

Because Systems Analysis Corporation is the manufacturer, because the software can only be altered by Systems Analysis Corporation as it is copy-righted material, and because the cost, in my opinion, is reasonable, no benefit would inure to the City by publicly advertising for bids.

Documents were not returned from our legal department until September, 1990, therefore this award is being processed late.

Very truly yours,
Judith Kurland,
Commissioner.

Ventilator Parts

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Puritan Bennett Co., 1500 Joh Avenue, Baltimore,

Maryland 21227 for the period July 1, 1990 through June 30, 1991 at a cost not to exceed four thousand seven hundred dollars (\$4,700).

Under this contract Puritan Bennett Co. will only provide parts to repair five (5) No. 7200-A Ventilators for the Respiratory Department at Boston City Hospital.

Puritan Bennett Co. was awarded unadvertised contracts for the past two fiscal years in the following amounts: 1990 — \$3,000; 1989 — \$3,000. Prior to that, the equipment was under warranty, therefore no contract was necessary.

Therefore, because Puritan Bennett is the manufacturer, and has specially trained personnel to service the above equipment at a cost I consider to be reasonable, no benefit would inure to the city by publicly advertising for bids.

This award is being processed late because the documents were not received from the vendor until Sept. 7, 1990.

Very truly yours,
Judith Kurland,
Commissioner.

MAYOR FLYNN OUTLINES CHILD CARE PLAN

*Emphasizes City's strong commitment to providing
affordable quality daycare for Boston's children;
announces \$530,000 CDBG commitment to 17 programs*

Flanked by childcare providers from across the city and backed by a Chinatown playground filled with preschoolers, Mayor Raymond L. Flynn outlined a comprehensive plan to ensure that Boston families are guaranteed the highest quality childcare in facilities across the city.

"Childcare is one of the economic realities that faces American families today," Mayor Flynn said. "The major challenge is to ensure that children receive safe, affordable and quality daycare. We can have no compromises. We must see to it that no child is in an unlicensed or unsafe environment. Here in Boston we have established one of the finest track records on childcare in the country, but we cannot rest on our laurels. No parent in the city should worry that the program his or her child is attending is not serving the very best interests of our children."

Speaking at the Tai Tung Village Courtyard in Chinatown, where the City of Boston operates a daycare facility, Mayor Flynn also recognized childcare professionals from throughout Boston's neighborhoods and emphasized the City of Boston's ongoing commitment to supporting daycare opportunities for working families in the city.

As part of Mayor Flynn's strategy to continue and expand Boston's commitment to high quality daycare:

- Mayor Flynn will convene with City of Boston department heads to ensure that all City funded daycare programs are of high quality;
- the City will step up efforts to ensure that all childcare facilities within the City are licensed and safe;
- the City will implement a hotline number for parents and other concerned citizens to call with daycare related questions or concerns about programs;
- the City will implement an aggressive campaign through its network of community-based providers as well as employers to inform par-

ents what to look for when seeking childcare for their children and how to make sure that their children are being well served;

- and, the City will step up efforts to coordinate with the State Office for Children and other appropriate state agencies to coordinate licensing and monitoring of facilities in Boston.

More than 2,000 children from across the city are enrolled in 37 daycare centers funded by the Community Schools Program and Boston's Economic Development and Industrial Corporation (EDIC). Mayor Flynn also announced the commitment of nearly \$530,000 in federal Community Development Block Grants to 17 childcare programs throughout Boston as part of the City's support for daycare programs. Last year, Boston was rated by Working Mother magazine as one of the best cities in the country for child care and is a leader in supplying daycare opportunities for the children of municipal employees. The Boston Housing Authority also operates 17 daycare centers throughout its facilities.

Mayor Flynn's administration has maintained its strong commitment to quality childcare at a time when a growing number of children are entering the daycare system. According to a recent analysis by the Women's Commission, by 1995, two-thirds of all pre-school and three-quarters of all school-age children will come from families where the mother works full time outside of the home.

According to EDIC Deputy Director Nancy Snyder, the Mayor's initiative will enhance already substantial system safeguards carried out by the City. Among those safeguards and quality controls: all City-funded programs are licensed by the State Office for Children and must meet stringent standards for safety, teacher qualifications, and staff to child ratios. To ensure this, site visits are carried out by the City at least four times a year. Also, childcare providers for the Community Schools Department are among the highest paid in the profession — thus ensuring low turnover and commitment to professionalism.

As part of the Mayor's initiative, department heads from departments including Inspectional Services, Health and Hospitals, Police, Fire, EDIC, the Women's Commission and Community Schools will explore ways to step up enforcement measures.

At present, the Inspectional Services Department enforces a very stringent series of controls and inspections to make sure that daycare facilities provide safe environments for Boston children.

Among programs receiving CDBG awards Friday were: ABCD/Washington Hill; Allston/Brighton APAC;

the Childcare Project; Crispus Attucks Children's Center; Escuelita Agueybaña in Dorchester and the South End; Federated Dorchester Neighborhood House; Infants and Other People; two programs at the Jackson Mann Community School; La Alianza Hispana; Mission Hill Community School; Nice Day Care; Seton Nazareth Day Care; SMILE Daycare and the Quincy School Community Council ACORN daycare.

According to Lesley Christian of the Crispus Attucks Children's Center, "With the help of EDIC, we started our childcare program fifteen years ago with fifteen children. Today we serve 50. Without the City of Boston's assistance, most of the parents we serve would be unable to take advantage of daycare. Crispus Attucks provides a safe haven for the children — a place where they learn to work with each other. The center also provides a support network so parents can pursue their careers or training."

COMMUNITY APPRECIATION DAY FOR BOSTON FIREFIGHTERS

An Ad Hoc Committee of local residents and businesses honored the Boston Fire Department Engine 4 and Ladder Company 24 on Sunday, June 23rd from 1:00 to 2:00 p.m. The festivities took place on the apron in front of the station house at 200 Cambridge Street, across the street from the Charles Plaza.

The firefighters were honored by a grateful community not only for their firefighting skills and dedication but also for their contribution to neighborhood beautification by maintaining a beautiful garden in front of the firehouse.

Plans included messages of appreciation, light refreshments, entertainment and the donation of flowering containers to adorn the front of the station house.

Organized with the cooperation of the City of Boston Department of Arts and Humanities.

MERIDIAN HOUSE HELPS LOCAL SUBSTANCE ABUSERS TURN THEIR LIVES AROUND

By Julie Nielsen

Gerald Fitzgibbons never thought he had a problem with drugs or alcohol. He thought he just had bad luck.

After more than 20 years with marijuana, heroin, barbituates and alcohol as a daily part of his life, this East Boston resident reached a point of sheer desperation — he had no job, nowhere to live, and no money. Until a friend directed him to the Meridian House.

Located in East Boston, the Meridian House is a site agency of Noddle's Island, a United Way-affiliated agency. A long-term residential, therapeutic community, the Meridian House's emphasis is on behavior modification.

"The Meridian House provided a safe environment for me to confront my own values, morals, behaviors and attitudes," said the 41-year-old floor-covering salesman. "Before I entered the House, my life was always a mess. I lived from crisis to crisis."

Since his graduation from the Meridian House last spring, Fitzgibbons has continued in the support groups and counseling services that are offered through the Out-Patient program at Noddle's Island.

"Recovery is an on-going process — it takes a lot of time and work," explained Fitzgibbons. A sense of wonder lights his face and his gestures become more emphatic as he continues. "But it's exciting learning about people and emotions and life. If it wasn't for the Meridian House, I would be shooting dope, in jail, or dead. Instead, I am a productive member of society. I like myself and I like life."

Twenty-eight-year-old Bruce Thompson agrees.

"The Meridian House is the best thing that ever happened to me," said Thompson, an auto mechanic from East Boston. "It changed my way of life and my way of thinking."

Thompson had tried several six-month programs, but found he was only

staying clean, not recovering. Inevitably, the path always led back to cocaine and alcohol. Until he entered the Meridian House in January of 1990.

"I was skeptical at first," said Thompson. "A year at the House seemed like a long time. And I had always had a problem with someone telling me what to do. Then I realized I'm in here because I don't want to be out there anymore. I better listen to them."

As many of his generation did, Thompson grew up hearing that "men don't cry." It was in part to this lack of expression that he attributes his turn to drugs and alcohol as a way to alleviate the pain.

"I was always stuffing my feelings into a box," said Thompson. "When I got clean I opened the box and let them all out. The Meridian House has given me a chance to be open to others — to reach out to others and talk about my feelings — to see people as human beings."

Through the support of the United Way, the Meridian House will continue to help people, like Bruce and Gerald, turn their lives around.

"The United Way is in the business of helping people," said Barbara Eddy, Clinical Director at Noddle's Island. "We would be hard pressed to serve the community without their help."

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

C. 50-91

HEALTH AND HOSPITALS DEPARTMENT

September 19, 1990

Laboratory Services

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully re-

quest your Honor's permission to dispense with public advertising and award a contract to Children's Hospital, 300 Longwood Avenue, Boston, Massachusetts 02115, for the period July 1, 1990 through June 30, 1991 at a cost not to exceed thirty-five thousand dollars (\$35,000).

Under this contract Children's Hospital will perform Rhino Sinus Virus Tests at \$167/test and TPN Profile Tests at \$104/test. The costs of these tests are subject to increase during the contract period. These tests are required for pediatric patients at Boston City Hospital.

Children's Hospital has provided an excellent quality service in the past which has met the approval of the physicians. Unadvertised contracts were awarded to Children's Hospital for the past three fiscal years in the following amounts: 1990 — \$35,000; 1989 — \$35,000; 1988 — \$35,000.

Therefore, because Children's Hospital is best suited to perform these tests and also because the cost in my opinion, is reasonable, no benefit would inure to the City by publicly advertising for bids.

The contract documents were sent to the vendor on May 17, 1990, however, they were not returned to the Contract Office until September 20, 1990. Thus, the Award is being processed late.

Very truly yours,
Judith Kurland,
Commissioner.

C. 51-91

October 16, 1990

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to The Kennedy Institute, 707 North Broadway, Room 407, Baltimore, Maryland 21205 for the contract period July 1, 1990 through June 30, 1991 at a cost not to exceed seven thousand two hundred dollars (\$7,200).

Under this contract The Kennedy Institute will perform analyses of dust samples for the presence of lead at a cost of \$18 per test. These tests were requested when the possibility arose that there was lead paint present in the Children's, and Dowling Buildings and other sources at Boston City Hospital. Dust samples are taken periodically from these areas and sent to The Kennedy Institute for analysis.

The Kennedy Institute was awarded unadvertised unadvertised contracts for the past three fiscal years in the following amounts: 1990 — \$7,200; 1989 — \$7,200; 1988 — \$4,000.

The Kennedy Institute has the capability to perform this analysis, which is a very specialized test, and because the cost, in my opinion, is reasonable, no benefit would inure to the City by publicly advertising for bids.

This award is being processed late because the request for a contract for these services was submitted October 2, 1990 to the Contract Office. Therefore, the paperwork could not be processed before the start of the Contract.

Very truly yours,
Judith Kurland,
Commissioner.

The term of this contract shall be from August 15, 1990 to June 30, 1991. The submission of this proposal has been delayed due to lengthy negotiations concerning the insurance requirements. Funds for this contract shall come from those received under the Community Development Block Grant program.

The Committee for Boston Public Housing, Inc., was selected based upon a thorough evaluation of the proposal submitted in response to a publicly advertised request for proposals conducted by the Public Facilities Department on March 5, 1989, in the Boston Globe and in the City Record.

A selection committee, consisting of members of the Public Facilities Department's Development Division, evaluated proposals based on the following eligibility and selection criteria: community based non-profit organization, low-moderate income census area, neighborhood location, readiness to start construction, and feasibility of project. The non-profit organizations which met the eligibility and selection criteria are listed below:

- 1) South Boston Neighborhood House, Inc.
- 2) Committee for Boston Public Housing, Inc.

As this is a negotiated contract at a reasonable cost, based upon extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4 s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

ORDER THAT PERSONS OR GROUPS WANTING TO DEMONSTRATE OR ASSEMBLE ON CITY HALL PLAZA OR BOSTON COMMON BE REQUIRED TO APPLY FOR PROPER PERMITS (DOCKET NO. 0244)

Coun. O'NEIL Offered the following:

Ordered, That persons or groups that want to demonstrate or assemble on the City Hall Plaza or the Boston Common shall apply for the proper permits for such gatherings. If the necessary permits are not issued to the individuals assembling, they shall be removed immediately by the Boston Police.

Permits may be applied for at the Offices of the Real Property Department or the Parks and Recreation Department. The reason for such demonstration must be on the application as well as the name of the organization demonstrating.

The reason for filing this order is that various groups have conducted civil disobedience not only on the City Hall Plaza but also on the Boston Common: For example, graffiti on our public buildings, broken windows at the Kennedy Building. These offenses prevented people from going into work, obstructed traffic in the City, and cost the taxpayers thousands and thousands of dollars for overtime work for police officers.

Be it further

Ordered, That a copy of this order be sent to the Chief Justice of the Boston Municipal Court, the Chief Justice of the Superior Court, the Chief Justice of the Massachusetts Supreme Court. Why? You might ask. The reason for this order is that the individuals, who have already been arrested and arraigned, I feel shall be given the following sentence: Remove all graffiti from the buildings, pay all the overtime that is to be paid to the Boston Police Department for their services in overseeing these demonstrations, and be jailed until all of these recommendations are complied with. Enough is enough. One example of civil disobedience happened last Thursday, January 17, 1991. It cost the City the sum of \$81,000 for just one day and this amount will continue to grow if something is not done regarding these demonstrations.

Coun. O'NEIL moved passage of the order under suspension of the rules.

Coun. BOLLING moved that the order be tabled until the Council receives clarification of the permit process.

The motion of Coun. BOLLING was not carried, yeas 4, nays 8:

Yeas — Councillors Bolling, Hennigan Casey, Scondras, Yancey — 4.

Yeas — Councillors Byrne, Iannella, Kelly, McLaughlin, O'Neil, Salerno, Scondras — 7.

Whereas, the City of Boston has within its jurisdiction facilities and their premises, access roads, thoroughfares and other areas which may be used for purposes of organizing, financing, promoting, accommodating, staging and conducting the 1994 World Cup and its related activities; and

Whereas, hosting the 1994 World Cup will generate international goodwill, enhance the worldwide renown and prestige of the City of Boston, produce new jobs and create substantial beneficial economic and fiscal activity; and

Whereas, the World Cup '94 Organizing Committee (the "Organizing Committee"), the entity authorized by FIFA and the Federation to organize and stage the 1994 World Cup, has requested a declaration of support from the City of Boston with regard to making best efforts concerning the performance of reasonably necessary governmental services in connection with the event as part of the formal bid made by Boston World Cup '94 to be designated as a 1994 World Cup venue; therefore be it

COMMITTEE ON CITY AND NEIGHBORHOOD SERVICES TO HOLD HEARING RE PUBLIC WORKS PROJECTS PLANNED FOR 1991 CONSTRUCTION PERIOD (DOCKET NO. 0282)

Whereas, One of the basic responsibilities of city government is to maintain safe roadways and attractive, well lit sidewalks; and

Whereas, Due to many factors: age; wear and tear by countless thousands of vehicles; and especially street openings by utility companies, some streets and/or sidewalks are in worse condition than others and are in need of immediate repair; be it therefore

Ordered, That the Committee on City and Neighborhood Services conduct a public hearing to discuss what public works projects are planned for the 1991 construction period in each of the nine city council districts; the anticipated starting and completion dates; and the cost and scope of work for each project; and be it further

COMMITTEE ON COMMERCE AND TRANSPORTATION TO HOLD HEARING RE 911 CALLS FROM CERTAIN NEIGHBORHOODS (DOCKET NO. 0283)

Couns. SCONDRAS, HENNIGAN CASEY, and MENINO offered the following:

Whereas, In certain neighborhoods of Boston, telephones have suburban exchanges; and,

Whereas, Calls to 911 by residents of those neighborhoods are sent to the suburban police department; and,

Whereas, This causes delays and confusion, especially if emergency calls are originating from a public telephone; and,

Whereas, The report of the Perambulation Committee, accepted by this honorable body, recommends the following: "that the Council should order that all pay phones within the city limits be programmed so that upon dialling 911, the person needing assistance will be connected with the Boston Police Department"; and,

Whereas, Police response to an emergency call was recently delayed by twenty minutes because the 911 call went to the Brookline police department; and,

Whereas, Enhanced 911 should alleviate this problem, but is not now available, and therefore residents who attended the most recent Mission Hill Crime Committee meeting requested immediate action be taken so that delays in response time will be reduced; Now, Therefore, Be It

Ordered, That the Committee on Commerce and Transportation hold hearings and invite New England Telephone to help solve this potentially disastrous situation.

Referred to the Committee on Commerce and Transportation.

INDEPENDENCE DAY EXERCISES ON BOSTON CITY HALL PLAZA

*Statement of Mayor Raymond L. Flynn
July 4, 1991*

It is both traditional and appropriate that we all come together on the Fourth of July to celebrate the history of this city and this nation, and to rededicate ourselves to the values and ideals which we all share. The Declaration of Independence lists a number of our rights and freedoms — life, liberty, and the pursuit of happiness — and it also establishes the right of all people to self governance.

Here in Boston, we understand that implicit in the right of self-governance is the right of people to expect government to manage its affairs effectively and efficiently. Well, for the eighth straight year, Boston has balanced its budget. And this year, Boston's bond rating was maintained and is at the highest point in the city's history.

We have kept our fiscal house in order by making tough decisions, and by refusing to spend money that we didn't have. As a result, Boston is free of deficit, free of receivership, and has still managed to maintain the high level of services it provides to its neighborhoods.

The people of Boston know full well the challenges that we face — rising homelessness, violence, drugs, hopelessness and despair. But despite these challenges, we have stuck together, met the problems head-on, and maintained our belief that when we all work together, nothing is impossible.

Lately, I've heard some people argue that the boundless energy and the can-do spirit of the American people are gone — that we can concentrate only on the present because the future is so uncertain.

Well I refuse to believe that this is true — especially here in Boston. The commitment of the people of Boston to life, liberty, and the pursuit of happiness is as strong today as it was when this city fired the first volley in the War of Independence. And the compassion and commitment to justice of the people

of Boston is as strong today as it was when this city gave birth to the Abolitionist Movement which helped bring an end to slavery and extend freedom to all.

Just as our forefathers declared their independence from the forces that inhibited their freedom and threatened their futures, we have risen to free ourselves of the drug dealers who hold our youth hostage, the gang leaders who terrorize our neighborhoods, and the white-collar criminals who charge high interest on hope and then foreclose on people's dignity. Above all, we have risen to meet our problems together — united in goal as well as in purpose.

When we have been witness to drugs, guns, gangs, and violence, Boston has reached out to save its young people. Thanks to the hard work and commitment of government, the business community, the religious community, community leaders, and thousands of neighborhood residents, we have created the largest and most comprehensive youth program in the country. Together we have offered young people jobs, educational and recreational ac-

tivities, pools, parks and playgrounds, adult mentors, and real hope and opportunity for the future.

When we have been witness to poverty and despair, Boston has refused to abandon those most in need of our help. We have offered shelter and a hot meal to the homeless, compassionate care to those afflicted with AIDS, comprehensive health care to pregnant women and their children, and unrestricted access to health care for the poor and destitute.

And when we have been witness to tough economic times, Boston has maintained its commitment to fiscal common sense as a means of creating jobs and preserving vital services. Boston kept its bond rating high to maintain Boston's reputation as a great place to invest and do business. And it kept its budget in balance so that vital services such as police and fire protection, clean parks and playgrounds, and other services which contribute to the quality of life in our neighborhoods would be maintained.

Two hundred fifteen years ago, our forefathers signed their names to a document that declared the independence of this nation as well as the unalienable rights of all people to life, liberty, and the pursuit of happiness. In signing this document, our forefathers put their own lives at risk for the sake of a few untested ideas and ideals — that people were capable of self-governance, that government was the servant of the people and not the master, and that people would flourish under freedom and not self-destruct.

Independence Day Exercises . . .

(Continued from front page)

Throughout the world, their declaration has been an inspiration for millions who crave the blessing of liberty and freedom. And here at home, their dedication and sacrifice have helped to shape our image as a people and as a nation. In each of the wars we have fought — from the Revolution to the war in the Gulf — we have fought with the belief that from our sacrifice freedom would grow. And in each of the defining eras of this nation's history — from the industrial era to the Civil Rights era and right up to the present day — Americans have always proceeded — and will continue to proceed — with the belief that no goal is beyond our grasp when we come together as a people and work for the common good.

LOCAL COMPANIES WIN \$708 MILLION IN HARBOR CLEANUP CONTRACTS

Construction companies based in Massachusetts have won \$708 million in contracts to date on the Boston Harbor cleanup, according to a report presented today to the Board of Directors of the Massachusetts Water Resources Authority.

"Forty-one local construction companies have won 70 percent of the \$1 billion in construction contracts awarded on the Boston Harbor Project, and this has resulted in 600 construction jobs, most of them filled by local residents," said Paul F. Levy, the Authority's Executive Director. "The Boston Harbor Project continues to be the biggest generator of construction jobs in New England."

During an MWRA Board meeting on June 26th, Levy presented the Board with a report listing total construction contract awards to date on the Boston Harbor Project. During the period from January to June, 1991, the MWRA awarded seven construction contracts worth \$344 million. Six of these contracts, worth \$247 million,

were awarded to Massachusetts companies.

Local firms that have recently won contracts on the Boston Harbor Project include: Modern Continental Construction Co., Inc. of Cambridge; J. F. White Contracting of Newton; Barletta Engineering Corp., of Boston; Daniel O'Connell's Sons Inc. of Holyoke; Sciaba Construction Corp. of Boston; and Tricil Inc. of Harvard.

In addition to the 41 local companies with prime contracts on the Boston Harbor Project, there are 170 local companies employed as subcontractors to larger companies. Those companies are performing work on a new wastewater treatment plant at Deer Island, two undersea tunnels and related pollution control facilities as part of the cleanup of Boston Harbor.

Levy's report to the Board was part of the Authority's "Buy American" policy, which gives preference to domestic suppliers of construction materials provided that domestic materials are readily available and no more than six percent more expensive than foreign goods. The policy also stipulates semi-annual reports on the number of local companies that win MWRA contracts.

STATEMENT OF MAYOR RAYMOND L. FLYNN

STIMULATE ECONOMY AND CREATE JOBS

While the latest unemployment figures for Massachusetts show a slight decline from 9.6 percent in May to 9.5 percent in June, it may be premature to declare that the economic slump has leveled off in the state. Because of seasonal changes, the summer months are not good indicators of long-term trends.

In Massachusetts today there are still 295,000 people out of work. Unemployment benefits have run out or are about to run out for many of them. And the only thing that will help them now is a job.

Government should do everything it possibly can to jump start the economy. Yesterday, in a two-hour meeting with Governor Weld, we focused on the need to continue to stimulate the economy and create jobs. And that's what we are trying to do in Boston with our 1.03-billion-dollar capital plan to rebuild our public buildings and infrastructure across the city.

In 1985, Boston prepared its first capital plan in 25 years. Since that time we have been able to initiate over 750 revitalization projects with 450 of them now completed. We have refurbished our parks and playgrounds, reopened neighborhood police stations, and filled our neighborhood fire stations with brand new fire fighting equipment.

We have been able to make this progress because Boston's bond rating has been raised five times in the past seven years, more than any other major city. And Wall Street has rewarded Boston's strong fiscal management with its highest bond rating ever, saving taxpayers millions of dollars in interest costs.

But New England still remains locked in a credit crunch that discourages growth and stops new investment. Until the reins on credit are loosened and the banks are able to invest again, Boston's great potential in health sciences and biomedical research cannot be fulfilled.

PUBLIC FACILITIES DEPARTMENT

July 30, 1990

Professional Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on July 12, 1990, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to WCH Industries, Inc., a corporation, with offices at 14 Felton Street, Waltham, MA 02154. Under the terms of this contract the contractor will provide environmental site assess-

ment for properties to be developed through Public Facilities Project 747. This shall ensure site approval by Project 747 lenders, protect the City from any liabilities in conjunction with presence of hazardous materials and protect people and the overall environment.

Compensation under this contract shall not exceed twenty-five thousand dollars (\$25,000.00), which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from August 13, 1990 to June 30, 1991. The submission of this proposal has been delayed due to lengthy negotiations regarding the scope of services. Funds for this contract shall come from those received under the Community Development Block Grant program.

WCH Industries, Inc. was selected based upon a thorough evaluation of the proposal submitted in response to a publicly advertised Request for Proposals conducted by the Public Facilities Department on May 21, 1990 in the *Boston Globe* and on May 28, 1990 in the *City Record*. Costs were determined to be reasonable after extensive analysis by Public Facilities Department staff. Other selection criteria includes competitive

prices and advanced work in the environmentally hazardous field.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4. s. 5.

Sincerely,

Lisa Chapnick,
Director.

The term of this contract shall be from October 1, 1990 to September 30, 1991. The submission of this proposal has been delayed due to lengthy negotiations regarding the scope and budget. Funds for this contract shall come from those received under the Community Development Block Grant program.

The contractor was selected based upon a thorough evaluation of the proposal submitted in response to a publicly advertised Request for Proposals in the *Boston Globe* on May 20, 1990, and the *City Record* on May 21, 1990. Costs were determined to be reasonable after extensive analysis by Public Facilities Department staff. Other selection criteria include reasonable rates and excellent references. This firm was selected from five (5) geotechnical firms that responded to the advertisement.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4. s. 5.

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on July 26, 1990, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Council of Elders, Inc., a non-profit organization, with offices at 2055 Columbus Avenue, Roxbury, MA 02119. Under the terms of this contract the contractor will receive a grant through the Physical Improvement Program for Non-Profit Organizations (PIP/NPO) to roof renovations at the Badger and Columbus buildings, which house the Council of Elders, Inc.

The term of this contract shall be from October 1, 1990 to June 30, 1991. The submission of this proposal has been delayed due to lengthy negotiations regarding the insurance requirements. Funds for this contract shall come from those received under the Community Development Block Grant program.

The contractor was selected based upon a thorough evaluation of the proposal submitted in response to a publicly advertised Request for Proposals in the *Boston Globe* on March 5, 1990. Costs were determined to be reasonable after extensive analysis by Public Facilities Department staff.

munity based non-profit organization, low-moderate income census area, neighborhood location, readiness to start construction, and feasibility of project. The Council of Elders, Inc. met the eligibility and selection criteria.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. SCHOOL DEPARTMENT

June 5, 1990

Emergency Repairs

Dear Mr. Mayor:

Please be advised that on April 3, 1990 the fire alarm system at the Blackstone School was vandalized. It was therefore immediately necessary to have emergency repairs performed on the system to make it operational. The damage to the system was extensive and a great deal of labor was required to locate and isolate all damaged components.

The main concern of the Boston Fire Department was the safety of the student and faculty at the building and they insisted that the system be made operational as soon as possible.

I therefore request your approval of my action in awarding a contract without advertising to Safety Systems Inc. for the amount of eight thousand seven hundred sixty-nine dollars (\$8,769).

The delay in this letter was due to the age of the fire alarm at the Blackstone School. Some devices which were replaced had to be manufactured specifically for this job. Parts were only recently received and the work was just completed on June 5, 1990 and the exact cost was established.

Respectfully yours,
Robert R. Roy,
Senior Structural Engineer.

C. 3705-91

BOSTON TRANSPORTATION DEPARTMENT

June 25, 1990

Commuter Mobility Program

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to CARAVAN for Commuters, Inc., a non-profit corporation located at 10 Park Plaza, Suite 2180, Boston, MA 02116, for CARAVAN to develop and manage the City of Boston Commuter Mobility Program. This firm was selected because it is the sole provider of comprehensive commuter transportation brokerage services in the Commonwealth and because of its reputation for quality service. In addition, the Department has entered into previous agreements with CARAVAN in FY '88 for \$48,800, FY '89 for \$60,000, and FY '90 for 60,000. The contract will address the Department's need to expand its staff capabilities on a short term basis with respect to commuter transportation and traffic issues.

Under terms of the contract, CARAVAN for Commuters, Inc. will hire a Commuter Mobility Manager and provide marketing and supervisory staff to carry out a scope of services aimed at developing commuter alternatives to the single occupant vehicle, which includes, but is not limited to:

1. promoting the creation of commuter mobility program in buildings/companies not covered by a Transportation Access Plan,
2. working in conjunction with the Department's Access Plan Project Manager to monitor and ensure compliance with commuter mobility elements of Transportation Access Plans,
3. acting as a liaison to Transportation Coordinators in buildings/companies with newly instituted commuter mobility programs.
4. refining and publicizing the Department's commuter mobility statement, and
5. establishing commuter mobility information stations within public buildings owned by the City:

Compensation under this contract shall not exceed forty-eight thousand, five hundred forty-eight dollars per annum (\$48,548) which I have deemed to be reasonable for the work to be performed. Funds will be encumbered by the Transportation Department upon arrival of this letter.

This request to award is being submitted late due to administrative error, along with the transition in the staff within the Department. The term of this contract shall be from 1 July 1990 until and including 30 June 1991 which is contingent upon the availability of funds for the fiscal year commencing 1 July 1990 through 30 June 1991.

Very truly yours,
Richard A. Dimino,
Commissioner.

C. 3779-91

TREASURY DEPARTMENT

June 6, 1990

Computer Services

Dear Mr. Mayor:

I respectfully request permission to dispense with public advertising and to award a contract to Telerate Systems, Incorporated, located at One World Trade Center, New York, New York 10048.

Under the terms of the contract, the vendor will lease one (1) Telerate System with auto-dialer and green screen and two (2) terminals. This will enable the Treasury Department direct access to the latest information on investment rates. This information is necessary for the City to maximize the return on invested funds.

The Contractor is uniquely qualified to do this work based on the fact that this is the only firm providing this type of service.

Compensation under this contract shall not exceed seventeen thousand two hundred (\$17,200) dollars, which I have determined to be reasonable. The terms of this contract shall be from July 1, 1990 up to and including June 30, 1991. Because of the uniqueness of this service, I believe public advertising would serve no useful purpose.

Very truly yours,
Lee F. Jackson,
Collector-Treasurer.

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

ADMINISTRATIVE SERVICES

Heating Fuel

October 22, 1990

Dear Mr. Mayor:

On May 29, 1990, your Honor approved the award of publicly advertised Contract No. 5047 to Garrity Oil Co., Inc. to provide Heating Fuel Oil (cc 450-99) to various City departments for immediate delivery through June 30, 1991.

It now appears that the amount originally stated in this contract will prove to be insufficient to satisfy the City's requirements through June 30, 1991.

Because Garrity Oil Co., Inc. is presently under contract to supply Heating Fuel Oil to the various City departments, it is my opinion that the best interests of the City would be served by amending Garrity Oil Co., Inc.'s existing contract by increasing the quantity by 100,000 gallons, at the same price originally contracted, from 200,000 to 300,000 gallons.

Therefore, your Honor's permission is respectfully requested to amend Contract No. 5047 with Garrity Oil Co., Inc., 100 Sturtevant Street, Somerville, MA 02145, by increasing the contract amount by \$125,000.00, from \$138,800.00 to an amount not to exceed \$263,800.00, Net 30 days, a cost I consider reasonable. This amount is an estimate based on projected requirements.

For the reasons previously stated, I believe that further public advertising would serve no useful purpose.

Respectfully yours,
Frank F. Chin,
Purchasing Agent.

COMMUNITY SCHOOLS AND RECREATION CENTERS

Professional Services

90-3872-01
August 27, 1990

Dear Mr. Mayor:

I hereby request your Honor's permission to dispense with public advertising and to amend a contract between the Boston Community Schools and Recreation Centers and the Joseph Lee Community School Council, Inc. for services rendered relating to the Federal Gang & Drug Deterrent Project, Hope In Progress "HIP" program.

Under the terms of the amended contract, the Joseph Lee Community School Council, Inc. will furnish personnel, supplies, materials and administrative services necessary to operate the Hope In Progress program at the program site. These services will be provided for the period of time between January 29, 1990 to September 30, 1990 at a cost not to exceed \$18,500.00 an increase of \$2,000.00 from the original contract amount of \$16,500.00.

The amendment of this contract is necessitated by the expansion of the HIP program as expressed by the community and the need of service. The services provided by the Joseph Lee Community School is relative to the HIP program. The HIP program has integrated program participants into existing BCSRC youth pro-

grams. These programs include recreation, afterschool daycare, Back to School, City Roots and Youth Outreach.

The Joseph Lee Community School has implemented the HIP program in an efficient and effective manner in view of their expertise in administering this Gang & Drug Deterrent Project.

Therefore no useful purpose would be served by advertising for proposals.

I, therefore, respectfully request that your permission be forthcoming to enter into this contract.

Respectfully yours,
William P. Doherty,
Executive Director,
Boston Community Schools
and Recreation Centers.

90-3867-01
August 27, 1990

Dear Mr. Mayor:

I hereby request your Honor's permission to dispense with public advertising and to amend a contract between the Boston Community Schools and Recreation Centers and the Jamaica Plain Community School/Agassiz Community School Council, Inc. for services rendered relating to the Federal Gang & Drug Deterrent Project, Hope In Progress "HIP" program.

Under the terms of the amended contract, the Jamaica Plain Community School/Agassiz Community School Council, Inc. will furnish personnel, supplies, materials and administrative services necessary to operate the Hope In Progress program at the program site. OFFICIAL CHRONICLE, MUNICIPAL AFFAIRS

CHRISTOPHER A. IANNELLA
PRESIDENT, CITY COUNCIL

VOL. 83

NO. 30

STATEMENT OF MAYOR FLYNN ON GOVERNOR WELD'S VETO OF THE OVERLAY RESERVE EXEMPTION

State government is not solving its fiscal problems — it is merely shifting them to the cities and towns of Massachusetts. The political shell game at the State House is nothing short of fiscal folly.

Governor Weld's decision to veto the overlay reserve exemption, a section of the state budget which would have directly helped cities and towns cope with massive local aid cuts, was a major mistake and will cause further harm to communities which have already made deep cuts in services. In his original budget the Governor proudly proclaimed:

"The state will continue to support and invest in its cities and towns . . . We must work together with local government to find new ways for our cities and towns to become masters of their financial destinies . . . We will continue to work with local elected officials and representatives of cities and towns to identify new ways to strengthen the fiscal self-sufficiency of local government." (House 1, p. 1-11)

That was the promise. The reality was a budget which cut local aid to cities and towns by over \$338 million, and a final blow by the Governor in vetoing the only significant provision which would have helped every city and town.

Adequate funding for cities and towns was a major issue in the 1990 election. Last fall, Candidate Weld committed himself to level-funding local aid. More important, the voters of Massachusetts approved Question 5, which dedicated 40 percent of state revenue to cities and towns. The Weld Administration's failure to keep its promise to cities and towns is more than sufficient grounds for the Legislature to promptly and decisively override his veto of this important measure.

In the end, cities and towns bailed the Commonwealth out of its fiscal crisis. The cuts in the state's budget were disproportionately paid for by the state's 351 cities and towns. Local aid was reduced by about 12 percent; the state budget decreased by approximately 4.5 percent. As the weeks go by, and as story after story chronicles both the desperation of cities and towns and the efforts of

the state to hide its FY91 budget surplus, it will be important to remember that a portion of the pain was avoidable at no cost whatsoever to the Commonwealth.

The legacy of the Governor's first budget will haunt his Administration over the next four years. Mandated state programs, the cutting of services to the needy and drastic reductions in local aid will force a major shift in taxes from more progressive statewide taxes to more regressive local property taxes. This legacy of pain will quickly prove to be no bargain to the taxpayers of the Commonwealth.

SUMMER JOBS PHONE BANK STATEMENT OF MAYOR RAYMOND L. FLYNN

This week, thousands of young people from across the City of Boston have begun working cleaning our parks and playgrounds, picking up vacant lots, working as lifeguards, working in day care centers, day camps, banks, insurance companies, super markets, and in hundreds of other positions as part of Boston's Youth Summer Employment Program.

Since 1985, our overall ability to employ young people has increased dramatically. The program has grown from one which employed 4,500 youngsters in 1985 to one which provided 8,310 jobs in 1990. Our commitment to providing jobs to young people remains steadfast.

This year, the city will be increasing its level of financial commitment from \$2.5 million in fiscal year 1991 to \$3.3 million in fiscal year 1992 — an increase of \$800,000 over last year. Additionally, the Governor's pledge of one million dollars to youth summer employment in Boston this year increases the state's commitment of funds by \$750,000. This combined effort increases public sector employment capacity substantially.

The net effect of city and state increased commitments will produce 600 to 800 additional summer jobs for Boston's young people in public sector placements.

However, the challenge we face to employ Boston's youth remains formidable. Economic circumstances have seriously impacted private sector employment opportunities. The Private Industry Council's current forecast is not an optimistic one. Based on current information, the P.I.C. predicts a shortfall of 1,200 summer jobs — a reduction in private sector capacity from last year's record level of 3,500 jobs to 2,300 jobs this year. Compounding the problem is the possible loss of several hundred jobs in non-profit organizations who are experiencing serious financial difficulties.

We are in the midst of difficult economic times — no one disputes that fact. But we can't go back to the kids with excuses about low sales and poor economic indicator numbers. They

(Continued on next page)

Summer Jobs

(Continued from front page)

face bigger problems on the streets each day than that. And to ignore the problems that young people face would send a message that we don't care and that they must face their problems alone.

That is why today, business leaders and elected officials have come together to try and procure jobs from non-participating Boston businesses this summer. Think about it — there are approximately 14,000 businesses in Boston. Imagine if each business decided to hire just one young person this summer.

As city and business leaders, we don't want good kids to become victims of the streets. The City of Boston is attacking the problem from every direction — summer jobs, educational and recreational programs, recruiting adult mentors and volunteers, continued capital improvements to our parks and playgrounds, strong police protection, continued economic development of our neighborhoods, and a wide array of other worthwhile programs to help young people.

But government can't do it alone. And to be perfectly honest, government has yet to devise a social program as effective in restoring a young person's pride and dignity as a job. So we need more employers like the business leaders here today to step forward and become part of the success story called the Boston Summer Jobs Program. I think you would all agree that a summer job is the best social program we can offer to our young people this summer.

MBTA ENTERS INTO LEASE AGREEMENT WITH US SPRINT; LEASE WILL GENERATE OVER \$463,000 PER YEAR IN REVENUE, WILL IMPROVE T'S COMMUNICATION SYSTEMS

In a continuing effort to increase revenue and to update the transit system's infrastructure, the MBTA has entered into a lease agreement with US Sprint, the Kansas-based telecommunications company. Under the terms of the agreement, US Sprint will lease approximately 37 miles of commuter rail track right-of-way to install fiber optics communications systems for US Sprint, the MBTA and other companies.

MBTA Acting General Manager James E. Rooney said, "This lease is a win-win situation for both the MBTA and US Sprint. It will provide the T with much needed revenue and our own fiber optics system that will give us better, more reliable switch and signal communications. Additionally, US Sprint will be able to offer their customers better communications services."

US Sprint has leased track right-of-way from the MBTA for the past five years along the Riverside portion of the Green Line, which has been the company's only access to Boston. The new fiber optics line will add to US Sprint's capability to provide quality phone service to the Boston area.

US Sprint has installed four separate PVC ducts to the side of the Attleboro commuter rail line between Back Bay Station in Boston and East Junction, on the Massachusetts/Rhode Island state line. US Sprint will use one duct, the MBTA another, leaving an additional two ducts for the MBTA to lease to other companies for additional revenue.

US Sprint will pay the MBTA \$462,739 per year for the use of the T's right-of-way and \$720 per year for use of a small parcel of land in Mansfield for a signal regeneration station under the terms of the 25-year lease. The lease has an option for two fifteen-year renewals.

T MODERNIZATION PROJECT TO INCREASE ACCESSIBILITY AT PARK STREET STATION FOR PASSENGERS WITH DISABILITIES

Passengers with disabilities will soon have additional access to Park Street Station on the Green Line thanks to a construction contract approved today by the MBTA Board of Directors. Park Street Station opened on September 1, 1897 and is the oldest subway station in America.

The T's Park Street project calls for modernization of the entire station, including the installation of oversized elevators and other facilities to make the station accessible to passengers with disabilities.

Acting T General Manager James E. Rooney said, "Improvements at Park Street, the busiest station on our busiest line, will provide important amenities for our passengers while taking a major step in the T's ongoing efforts to make the system accessible to all of our citizens."

Rooney noted that project responds to requirements outlined in the recently enacted federal Americans with Disabilities Act and dovetails with T efforts already under way to design a low-floor accessible streetcar.

The one-year Park Street Station project includes the installation of new ceiling finishes and column covers, improved lighting, and fare collection areas, and customer service amenities such as benches, handrails, improved signs and directional graphics, and a more efficient information booth. Administrative offices for Green Line staff and a second station entrance for Government Center-bound passengers will also be constructed.

The T's \$6 million contract with Peabody Construction Company of Braintree is funded by the federal Urban Mass Transportation Administration and state transportation bond funds.

In addition to the work at Park Street Station, other T services accessible to passengers with disabilities include:

- 63 stations (26 stations on the Red, Orange and Blue lines and 37 stations on the commuter rail system)

(Continued on next page)

- 120 lift-equipped vans for the Ride program, serving 44 communities
- 473 lift-equipped buses
- 32 bus routes served exclusively by lift-equipped buses
- All remaining 125 bus routes operate lift-equipped buses upon request as part of the T's Call-A-Lift bus program.
- Design work is under way to make all Blue Line stations accessible
- Design work is under way to make all remaining Red and Orange Line stations accessible

For additional information on T accessible transportation services please call the T's Office for Transportation Access at 722-5123 or TDD 722-5415. For information on routes and schedules please call the T's Customer Service Center at 722-3200 or TDD 722-5146.

BOSTON PRESENTS A FESTIVAL OF SOUNDS SUMMER 1991

Dear Friends:

On behalf of our citizens, I would like to welcome you to another exciting and festive summer of music and family entertainment in Boston.

The *Festival of Sounds* is a series of free public events which reflect the rich diversity of Boston. Through this summer-long celebration, we are able to share with participants the cultural, artistic, and historical traditions which make Boston such a unique and vibrant city. More important, the *Festival of Sounds* provides an opportunity for the entire family to enjoy the summer in a safe and meaningful way.

This summer's program has special meaning since it will signal the start of our celebration of the 500th anniversary of the discovery of America by Christopher Columbus. The year-long celebration will be high-lighted by the largest parade of tall ships ever to visit Boston in July 1992, and will culminate with a majestic Columbus Day parade in October of 1992. If you are interested in being involved with our Columbus Quincentennial Committee, please

ried couple whose off-stage and on-stage lives intertwine. A Film Tribute to David Lean
 Boston Public Library, Copley Square. Telephone 536-5400, Ext. 319. Tuesdays, through August 27 at 6 p.m. in the Rabb Lecture Hall. David Lean began his career, and built his reputation, as a film editor. By the mid-30s he was working on feature films including *Pygmalion*, and *Major Barbara* and in 1942 he codirected with Noel Coward *In Which We Serve*. His first three films as solo director were also Coward plays and began a career that involved him almost exclusively in literary adaptations or collaborations with distinguished writers. *July 30: Brief Encounter* (85 min., b/w, 1945). This now classic story of two people who fall in love outside their marriages was adapted by Noel Coward from one of his plays. Hailed as one of the ten best films of 1946, it stars Celia Johnson, Trevor Howard, and Stanley Holloway. Directed by David Lean.

Footage from thousands of film clips and hundreds of interviews are skillfully interwoven. An Academy Award nominee. Produced and directed by Mark Kit-

chell. *Aug. 1: Super Chief: The Life and Legacy of Earl Warren* (88 min., color, 1990). A portrait of the Supreme Court Chief Justice whose activist policies unleashed a torrent of change on sleepy 1950s America, dividing the country into bitterly opposed camps. Warren is captured in rare archival footage and remembered by colleagues, friends, and family members. The film also tells the stories of the ordinary people whose lives were profoundly affected by the decisions of the Warren Court. An Academy Award nominee for Best Documentary Feature and winner of a Red Ribbon at the American Film and Video Festival. Directed by Bill Jersey.

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

C H159-91

HEALTH AND HOSPITALS DEPARTMENT

October 18, 1990

Locksmith Services

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to amend the contract with Joseph Antonelli Contracting Company, 21 Tremont Street, Norwood, Massachusetts, 02062 for locksmith services at Boston City Hospital for the period July 1, 1988 through June 30, 1991 at a cost not to exceed sixty thousand dollars (\$60,000).

This amendment will increase the contract by fifteen thousand dollars (\$15,000), thereby increasing the City's total liability under this contract, as so amended, to an amount not to exceed seventy-five thousand dollars (\$75,000).

Three buildings at Boston City Hospital (House Officers, Peabody and Pediatrics) have recently been razed. Because of this, many offices had to be moved. This increased the volume of services required from the locksmith, thereby increasing the estimated cost for this contract.

In view of the above, and as the cost, in my opinion, is reasonable, I recommend approval of the amendment.

Very truly yours,
Judith Kurland,
Commissioner.

C. 009-88

September 27, 1990

Volumetric Infusion Pumps

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to amend the contract with IMED Corporation, 9775 Businesspark Ave., San Diego, CA 92131-1192 to

provide IMED 980 Volumetric Infusion Pumps and Cassettes to the Department of Health and Hospitals. The contract period is October 1, 1988 through September 30, 1993, at a cost not to exceed five hundred thousand dollars (\$500,000).

This amendment will increase the contract sum by eighty-five thousand dollars (\$85,000), thereby increasing the City's total liability under this contract, as so amended, to an amount not to exceed five hundred eighty-five thousand dollars (\$585,000).

Under this amendment IMED Corporation will provide Boston City Hospital with fifteen (15) additional IMED 980 Volumetric Infusion Pumps. This will result in the following changes to the original contract:

1. Guaranteed monthly order of cassettes — from 75 cases to 100 cases
2. Surcharge per case for pumps — from \$18.90 to \$21.97

The base fee of the cassettes as of fiscal 1991 is seventy-eight dollars (\$78) per case. This price will increase by 4% for fiscal 1992 to eighty-one dollars and twelve cents (\$81.12) per case and will remain this price for fiscal 1993. The surcharge on the cases will remain firm for the three years.

Because of the new AIDS and chemotherapy drugs now on the market and the expansion of the IV program additional pumps were needed.

In view of the above, and as the cost, in my opinion, is reasonable, I recommend approval of the amendment.

Very truly yours,
Judith Kurland,
Commissioner.

C. 2296-90

LAW DEPARTMENT

July 11, 1990

Legal Services

Dear Mr. Mayor:

On July 14, 1989, your Honor approved an award of a contract without public advertising for bids to the firm of Harrison & Maguire, 24 School Street, Boston, Massachusetts 02108, for services rendered to the Law Department with general consulting and supervisory assistance to the City of Boston Law Department and representation and legal services in the following cases: *Pate v. Crowley, et al; Morgan, et al v. O'Reilly, et al; City of Boston v. Keene Corporation, et al*; and claims against the Johns Manville Property Damage Settlement Trust during the period July 1, 1989 through June 30, 1990.

This amendment is necessary due to the unexpectedly high costs relating to the ongoing asbestos litigation matters. Your approval is requested to amend this contract to ensure payment for services rendered on behalf of the City.

The cost of this amendment, which is effective June 1, 1990, shall not exceed seventy thousand seven hundred fifty-six dollars (\$70,756). The contract as amended will not exceed three hundred and seventy-eight thousand seven hundred fifty-six dollars (\$378,756).

Because of the professional nature of the services rendered, I believe that the above amount is reasonable.

The amendment is being submitted late as a consequence of the uncertainty and administrative delay resulting from the funding shortfall in

the Law Department's Fiscal Year 1990 contractual services appropriation.

Very truly yours,
Joseph I. Mulligan,
Corporation Counsel.

POLICE DEPARTMENT

Financial Assistance

Dear Mayor Flynn:

On May 15, 1990, your Honor approved the award of a contract, without public advertising for bids, to Drop-A-Dime/Report Crime Intelligence Data, Inc. (Drop-A-Dime). The contract provides \$20,000 of financial assistance in exchange for information on neighborhood criminal activities which augment the investigative efforts of the Boston Police Department's Drug Control Unit.

Your approval is requested to amend this contract to provide an additional \$10,000 of financial support. The \$10,000 funding will be provided through a grant given to the Police Department from the Commonwealth of Massachusetts Committee on Criminal Justice targeted for Drop-A-Dime's use. Drop-A-Dime will use this assistance to lease space for the operation of their organization.

The total cost of this amendment shall not exceed \$10,000. The effective date of this amendment shall be July 1, 1990. The total cost of this contract, as amended, shall not exceed \$30,000. Funding for this amendment shall be charged against the grant appropriation 030 211 7023 C702 0490, with an initial encumbrance of \$10,000. All other terms and conditions shall remain the same.

In light of the fact that funding for this amendment was received from the Commonwealth of Massachusetts Committee on Criminal Justice and slated specifically for Drop-A-Dime, public advertising would serve no useful purpose.

This document is being submitted at this time due to the Boston City Council's late acceptance of the grant funds.

Respectfully,
Francis M. Roache,
Police Commissioner.

PUBLIC FACILITIES DEPARTMENT

August 7, 1990

Professional Services

Dear Mayor Flynn:

Under delegation from the Public Facilities Commission to the Director of the Public Facilities Department dated November 19, 1987, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on December 11, 1989 awarded to The MacPherson Partnership with offices at 63 Dana Street, Cambridge, MA 02138, for professional services to study six (6) Public Works sites in order to program and supervise construction of new salt storage facilities.

The cost of this amendment shall not exceed \$15,000. The amended cost of this contract shall

not exceed \$166,285 (including \$128,575 for Supplementary Services) which is a fixed fee of 8.38% based on an estimated cost of construction of \$450,000. The amended term of this contract shall be extended to December 11, 1993.

Said amendment is necessary due to the increased scope of service required of the designer. Under the terms of the amended contract The MacPherson Partnership shall provide additional supplementary services including a masterplan study for the siting of the Salt Storage Shed within the extremely tight Public Works Department Yard at Gibson Street. This will determine how the Salt Storage Shed can be located without affecting current operations.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,

Lisa G. Chapnick,
Director.

C. 3203-90

September 18, 1990

Dear Mayor Flynn:

Under delegation from the Public Facilities Commission to the Director of the Public Facilities Department dated November 19, 1987, I respectfully request your Honor's written permission to amend a contract approved by your Honor on November 11, 1989, to Comunitas, Inc. with offices at 75 Kneeland Street, Boston, MA 02111.

The cost of this amendment shall not exceed \$10,000. The amended cost of this contract shall not exceed \$330,000. The original term of this contract was October 9, 1989 to August 31, 1990. The amended term of this contract shall be extended to November 30, 1990.

Said amendment is necessary due to the increase in the reimbursable expenses component of the contract which experienced time delay and additional programming work due to changes in the State MEDICAID reimbursement system. The time extension is necessary to finish the Master Plan including a public forum series.

The submission of this proposal has been prolonged due to the vendor's delay in their submittal of contract documentation.

Because of the professional nature of the services to be provided, and the qualifications of the contractor, I believe that public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,
Director.

Site Improvements

C15113-90

October 11, 1990

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on June 21, 1990, I respectfully request your Honor's permission to dispense with further public advertisement and amend a contract approved by your Honor on January 9, 1990 with the Boston Housing Authority with offices at 52 Chauncy Street, Boston, MA 02111, for site im-

provements to Archdale and Whittier Street Developments.

This amendment is necessary for the following reasons: to allow the Boston Housing Authority to utilize additional funds now available from former contracts to make site improvements to the Orchard Park Housing Development and to incorporate a grant awarded by the U.S. Department of Housing and Urban Development for "Youth Sports Clubs to Combat Drugs at Public Housing Sites" program. The grant will be used to renovate unused space at the Old Colony Housing Development to create a teen center.

The cost of this amendment shall not exceed two hundred thirty-nine thousand dollars (\$239,000.00), which I have determined to be reasonable. The contract, as amended, shall not exceed one million two hundred thirty-nine thousand dollars (\$1,239,000.00). The period of performance, as amended, shall be from August 1, 1989 to December 31, 1990. The submission of this proposal has been delayed due to lengthy negotiations in determining the scope of work and budget. The contract documents were sent to the Boston Housing Authority on August 28, 1990, and were held for scope negotiations until October 10, 1990.

Because of the professional nature of the services to be provided, and the qualification of the contractor, I believe that public advertising would serve no useful purpose in this instance. I, therefore, request permission to dispense with inviting sealed bids in the *City Record* under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,

Lisa G. Chapnick,
Director.

C3217-88

April 30, 1990

Dear Mr. Mayor:

Pursuant to a vote of the Public Facilities Commission on April 26, 1990, I respectfully request your Honor's written permission to dispense with further public advertisement and further amend a contract executed on May 5, 1988 with Rector Olsen Associates, a Massachusetts partnership with offices at 374 Congress Street, Boston, MA 02210 for design of historic renovations to the Dillaway Thomas House, Phase II. The scope of work of this contract, as amended, included working drawings and specifications for the existing 2 story wood structure including the basement and a new addition.

Pursuant to MGL C. 7, s. 381, Rector Olson Associates was awarded this contract for continuation of design services.

This amendment is necessary for the following reasons: This contract is funded under the Roxbury Heritage State Park Grant. The original contract was for \$173,980.00. The estimated cost of construction increased from \$1,400,000.00 to \$1,800,000.00. The Commonwealth of Massachusetts was unable to fund the additional design which was needed; however, in order to keep the project moving, the contract was amended in July, 1989 to include the additional design fee of \$46,476.00 and to delete the construction supervision funding of \$48,300.00 which resulted in a decrease in the total contract of \$1,824.00.

Funding has now become available through the Commonwealth of Massachusetts to restore the original construction supervision fee and include the additional construction supervision and sup-

plementary services fee due to the increased cost of construction. The total contract, as amended, shall not exceed \$254,821.00 (including \$63,400.00 for supplementary services) which is a fixed fee of 10.63 percent based on an estimated cost of construction of \$1,800,000.00. The term of this contract shall be extended to June 30, 1992.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record* under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,

Lisa G. Chapnick,
Director.

PUBLIC WORKS DEPARTMENT

Engineering Services

7684(88)

September 11, 1990

Dear Mr. Mayor:

On April 4, 1988, his Honor, the Mayor, approved the award of a contract to STV/Seelye Stevenson Value & Knecht, 230 Congress Street, Boston, Massachusetts, for engineering services relative to the design for the replacement of the Charlestown Bridge and rehabilitation of the approach spans, SC-7684(88), at a cost not to exceed one hundred seventy-one thousand five hundred dollars (\$171,500.00), for the period July 1, 1987 to June 30, 1988 and extended for time to December 31, 1991.

Your permission is respectfully requested to amend this contract to provide additional funds to compensate the consultants to perform an in-depth field inspection of all visible superstructure elements in the ten approach spans, as well as preparation of final plans, specifications and cost estimates (25 percent to 100 percent).

The cost of this amendment shall not exceed fifty thousand four hundred thirty dollars (\$50,430.00), a fixed cost, which I have determined to be reasonable for the work. The contract, as amended, shall not exceed two hundred twenty-one thousand nine hundred thirty dollars (\$221,930.00).

Inasmuch as this work is related directly to and in conjunction with an existing contract, I feel that public advertising would serve no useful purpose.

Very truly yours,

Joseph F. Casazza,
Commissioner of Public Works.

7419(90)

September 14, 1990

Dear Mr. Mayor:

On June 18, 1987, his Honor, the Mayor, approved the award of a contract to Hayden Wegman, Inc., 214 Lincoln Street, Boston, Massachusetts, for engineering services relative to the rehabilitation of the Summer Street bridge over "A" Street in the City of Boston, at a cost not to exceed one ninety-five thousand one hundred nineteen dollars (\$95,119.00).

On January 31, 1990, your Honor approved an amendment to this contract in the amount of five thousand six hundred dollars (\$5,600.00).

(Continued on next page)

Your approval is further requested to amend this contract to design a traffic management plan. This additional work is required because the Massachusetts Department of Public Works has directed the City to have a traffic management plan accompany the construction plans. The total cost of this amendment, which is effective October 15, 1990, shall not exceed six thousand dollars (\$6,000.00) which I have determined to be reasonable. The total cost of this contract as amended, shall not exceed one hundred six thousand, seven hundred nineteen dollars (\$106,719.00).

Because of the professional and technical nature of the services to be performed, I believe that further public advertising would serve no useful purpose in this instance.

Very truly yours,
Joseph F. Casazza,
Commissioner of Public Works.

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Proposals") ("Requests for Qualifications") ("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

EDIC/BOSTON

Professional Services

1916-91

October 25, 1990

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Ecumenical Social Action Committee, Inc., a non-profit corporation, located at 3134 Washington Street, Jamaica Plain, Massachusetts, 02130. Under the terms of the contract, the Contractor will provide competency-based alternative educational services for approximately twenty (20) City of Boston high school dropouts. Services will include outreach, recruitment, assessment, and classroom instruction.

The Contractor was selected based upon an evaluation of its proposal submitted in response to a refunding Request for Proposals (RFP) issued on March 23, 1990 by the former Mayor's Office of Jobs and Community Services (JCS), which is now a division within the Economic Development and Industrial Corporation of Boston (EDIC). Other selection criteria included the results of site monitoring visits conducted by JCS staff, an overall review of the Contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population.

Compensation under the terms of this contract shall not exceed seventeen thousand, seven hundred twenty dollars and sixty cents (\$17,720.60), payment being made from funds received under the Job Training Partnership Act (JTPA) Title II-B. The period of performance shall be July 1, 1990 until December 31, 1990. This Contractor has had contracts with JCS funded under Titles II-A

and II-B for this program for the previous three (3) fiscal years at the following funding amounts: FY88-\$80,680; FY89-\$82,526; FY90-\$88,603. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

Donald A. Gillis
Director

NO. 31

BAD IS DOING S-O-O-O GOOD

Boston Against Drugs, A City of Boston/Boston business/neighborhood partnership (of which Mayor Raymond L. Flynn is Honorary Chairman), is taking major steps to curb substance abuse. BAD has been a positive force in Boston's most vulnerable neighborhoods over the past four years. A major federal grant recently awarded to Boston Against Drugs has provided the program with the financial backing to become more substantive and gain access into the City's fifteen communities on a more consistent basis. The 2.5 million dollar federal grant, awarded by OSAP (Office of Substance Abuse Prevention), will be used over a five-year period. The grant monies will be used to expand anti-drug education programs throughout all of Boston's neighborhoods.

Boston Mayor Raymond L. Flynn joins Howard Hughes, Executive Director of Boston Against Drugs (BAD) and the new staff members of TEAM (Through Empowerment and Mobilization), a drug education and prevention program funded by a \$2.5 million federal grant. Pictured are: Howard Hughes, Kay Walsh, Mayor Flynn, Paul Lewis, Jane Morrison-Margulis, project director, and Pedro Rodriguez.

The Community Partnership grant supports the "TEAM" concept (Through Empowerment and Mobilization), a detailed program outlined in the grant application premised on the notion that the neighborhoods will themselves devise and implement

their own preventive strategies. "The success of the TEAM program means neighborhood people working together with local businesses and City officials to help eradicate substance abuse. I am thrilled that this effort is taking place," says Mayor Raymond L. Flynn.

The OSAP grant contemplates four new staff people and these new staff members have been hired and are in place. The staff will be working out of the Mayor's Office of Neighborhood Services.

Jane Morrison-Margulis has been hired as the Project Director to assist Howard Hughes who will continue as BAD's Executive Director. Jane has been involved in virtually every aspect of the human service profession for twenty years. Some of Jane's experience includes working for the Massachusetts Adoption Resource Exchange, the Citywide Educational Coalition (as Assistant Director), the City of Boston in its neighborhood Development and Employment Agency, the Mayor's Office of Jobs and Community Services (as Director of Youth Services) and, since 1987, the Commonwealth Department of Education as an Education and Employment Specialist. Some of her major responsibilities as the Department of Education included facilitating the linkage between Employment and Training Programs with Massachusetts' urban education. She also provided staff development for local educators and local employment and training personnel in such areas as: School Restructuring, Teaching Limited English Proficient Students and Model Programs for Students at Risk.

BAD has also hired three neighborhood liaisons with responsibilities for particular city neighborhoods; Paul Lewis, Pedro Rodriguez and Kay Walsh.

Paul Lewis, who will work in Allston-Brighton, Chinatown, East Boston, Roxbury and the South End,

(Continued on next page)

BAD is doing s-o-o-o good . . .

(Continued from front page)

is a graduate of Boston University where he played football (and was named as a member of the AP All American Team). Paul's work experience includes the Boston Juvenile Court and the Bank of Boston.

Pedro Rodriguez, who has the liaison responsibility for Hyde Park, Jamaica Plain, Mission Hill, Roslindale and West Roxbury, brings to BAD many years of experience in his dealings with grass-roots organizations. Pedro is a graduate of the University of Rio Piedros in Puerto Rico and earned a Master's in Theology from the Andover Newton Theological Seminar. He worked for the MCI at Concord, was a minister for the Hispanic Baptist church in Jamaica Plain and since 1988, Pedro has been a case manager for La Alianza Hispana.

Kay Walsh is the community liaison for Charlestown, Dorchester, Mattapan, the North End and South Boston. Kay's career has included working in the Boston College Office of Development, the R. J. Murphy Community School — Dorchester and, since 1981, the Commonwealth Office of Children, as a community representative.

Boston Against Drugs is pleased at the choices for new staffers and is sure that the local chapters of BAD, with their day to day support and assistance, will continue with their hard work and dedication.

BOSTON POLICE RECRUIT SWEARING-IN CEREMONY MAYOR RAYMOND L. FLYNN CURTIS HALL JAMAICA PLAIN

While I was in Mattapan Square the other day, a man waiting for the bus on his way to work stopped me and said, "Look, Mayor Flynn, I don't have time to follow all the charges being thrown around by this person and that, but I want you to know that we depend on the police here and want to work with

them. It's a good feeling to know that we have police officers around who want to work with us. It makes us feel comfortable."

Now being a police officer in a major American city like Boston is one of the most difficult jobs in society today. As a member of this class of 87 new Boston police officers, you have worked and trained very hard over the past few months to prepare yourself to protect the residents of Boston's neighborhoods and all who work and visit in Boston.

The job you are about to begin will at times be very difficult, but it can also be very rewarding. Working on the streets of this city — of any city really — is often dangerous. But in these days of drugs, guns, gangs, and violence, the people of Boston rely on their police officers more than ever.

So far, the Boston Police Department has been working hard to keep our neighborhoods safe. And the crime statistics show that their hard work is paying off. In the first six months of this year, the murder rate in Boston dropped 22 percent from the same period last year. And in the first four months of this year, the violent crime rate dropped 14 percent from the same period the year before.

Despite these accomplishments, the police will always have their critics. You are held to high standards and I know the temptation to get frustrated is great. But sometimes the criticism can help shape a stronger department. You know and I know that there are a few bad apples in any barrel and in any organization — you name it — medicine, law, the media. And in important and highly visible positions, these few tend to give everyone else a bad name.

Well, the people of this city know that the overwhelming majority of police officers are out there every day and night in the neighborhoods doing the best job that they can for the people. But unfortunately we have to deal with the few bad apples that come our way, because a few bad apples can ruin a whole barrel if they're not removed. And in doing this very difficult but necessary job, we as public safety servants — more than

anything else — owe the people of Boston the truth. And when we do that, we will make the department stronger.

Now there are a lot of opinions on how to run a police department. But one thing is very clear — and I'll assure you that it's the case here in Boston — that the person running the department must be of the highest integrity and personal honesty. More than anything else, that is the heart and soul of any police department.

And I would urge all of you to conduct yourself at all times with the same strong work ethic, and by the same high standards of honesty, integrity, and decency. Let these high standards be reflected in every aspect of your day to day work with the people.

Now in discussing modern effective police strategies, an essential point is always made — that a police department is only as effective as its relationship with the community and the people it serves. But like any community, there will always be a small number of critics and antagonists who will constantly second guess the policies of the department and you as officers. This will be a source of tremendous frustration from time to time for some of you. But we cannot allow this to discourage you or distract you from your work, or more importantly, to divide you from the community or weaken that unity with the people that is so essential.

Pay attention to the real people of the neighborhoods — parents, clergy, storekeepers, young people, and senior citizens. Get to know them, listen to them, and work with them — because they are the sincere leaders of the community and they are the people whom you are sworn to protect and serve.

You have been thoroughly trained to do a difficult and dangerous job, and your presence here today is proof that you are capable of doing your job well. Apply your training to the work you do each day in our neighborhoods, and the people of Boston will be well served by you, and we will all be proud to have you as part of the Boston Police Department.

BOSTON ADOPTS QUARTERLY PROPERTY TAX BILLING

FIRST QUARTERLY PAYMENT DUE AUGUST 1, 1991

Recent cuts in aid from the state have caused the City of Boston to adopt the provisions of Section 41 of Chapter 653 Acts of 1989, which allows cities and towns to issue tax bills on a quarterly basis. The new quarterly billing system will help the City avoid borrowing to meet cash flow needs. Collector-Treasurer Lee F. Jackson estimates that the City will save about \$4 million by sending tax bills quarterly instead of semi-annually.

The new quarterly billing system will begin July 1, 1991, the first day of Fiscal 1992. Bills for the first quarter will be mailed on June 28, 1991, and will be due on August 1, 1991. The other quarterly tax payment dates are as follows: November 1, 1991; February 1, 1992; and May 1, 1992. Bills will be sent approximately one month prior to each due date.

Payment Calculation

Each of the first two quarterly payments will equal one quarter of the net tax paid last year. If taxpayers received an abatement or exemption for last year, this will be reflected in the amount due on the first two bills.

For example:

1st Quarter Tax Calculation

Last year's taxes (Fiscal 1991) . . . \$2,000.00
Exemption —350.00
Net Fiscal 1991 tax \$1,650.00
1st quarter bill is $\$1,650 \div 4$, or **\$412.50**

On or before December 31, 1991, taxpayers will receive a bill indicating the total Fiscal 1992 tax. The amount paid on the first and second quarterly bills will be subtracted from the Fiscal 1992 total tax to determine the balance due for the year. One half of the remaining balance will be due on February 1, 1992 and the remaining half will be due on May 1, 1992.

For example:

3rd and 4th Quarter Tax Calculation

Fiscal 1992 tax \$2,060.00
Exemption —350.00
Net Fiscal 1992 tax \$1,710.00
Less: Payment made August 1 . . . —412.50
Payment made November 1 —412.50
Balance Due \$885.00
3rd Quarter Payment due February 1 \$442.50
4th Quarter Payment due May 1 . . \$442.50

Abatements

According to state law, the fair cash value of each property for the purpose of determining the Fiscal 1992 tax will be shown on the third quarterly bill, which will be issued in late December 1991. Any abatement application should be filed upon receipt of the third quarterly bill, according to the instructions on the reverse side of that bill.

Late Payments

Payments must be received in the Tax Collector's office by the due dates. Interest on late payments will be charged for the number of days delinquent at the rate of 14% per annum. In addition, there will be a demand fee of \$5 after 7 days and a warrant fee of \$9 after two weeks.

MWRA BREAKS GROUND FOR NEW 1.3 BILLION GALLON/DAY SEWAGE TREATMENT PLANT

The Massachusetts Water Resources Authority broke ground for a new wastewater treatment plant at Deer Island on Tuesday, July 30th, from 9:45 a.m. to 10:15 a.m.

The U.S. Environmental Protection Agency Region 1 Administrator Julie Belaga; Massachusetts Secretary of Environmental Affairs Susan F. Tierney; and other dignitaries joined Paul F. STATEMENT OF MAYOR RAYMOND L. FLYNN ON THE NORTHEASTERN UNIVERSITY AUDIT OF THE BOSTON PUBLIC SCHOOLS

Northeastern University's audit has made it very clear that it's the public education system that has failed the children; it's not the children who have

failed the system. We've got to roll up our sleeves and change the way they've been doing business. That's the challenge before us. It's time to reorganize the school system to remove the bureaucratic obstacles so that the resources get down to the teachers and students in the classroom where they can make a difference.

Northeastern's audit of the Boston Public Schools independently confirms what a lot of people have been saying for a long time. It's not a lack of resources that's the problem. It's that school spending is out of control, and mismanagement prevents the funds from being spent correctly in the classrooms. The system's lack of accountability to the parents, students, and taxpayers of Boston has resulted in years of lost opportunities for the school children of Boston.

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Proposals") ("Requests for Qualifications") ("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

EDIC/BOSTON

C-16116-91

Professional Services

October 1, 1990

Dear Mayor Flynn:

Pursuant to the Contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 7, 1990, by which Contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request you Honor's permission to award a contract to Youth Build Boston, Inc., a non-profit corporation, located at 10 Putnam Street, Boston, Massachusetts, 02119. Under the terms of the contract, the Contractor will provide vocational skills training in the building trades for approximately twenty-eight (28) unemployed and unskilled youths.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the

former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990. Notices of these meetings were published in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 13, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

Compensation under the terms of this contract shall not exceed thirty thousand (\$30,000) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has not had a contract with JCS for this program for the previous fiscal year. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive program of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,

Donald A. Gillis
Director

October 18, 1990

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to EDCO Collaborative, Inc., a non-profit corporation, located at 20 Kent Street, Brookline, Massachusetts, 02146. Under the terms of the contract, the Contractor will provide competency-based alternative educational services for approximately twenty four (24) City of Boston high school dropout. Services will include outreach, recruitment, assessment, and classroom instruction.

The Contractor was selected based upon an evaluation of its proposal submitted in response to a refunding Request for Proposals (RFP) issued on March 23, 1990 by the former Mayor's Office of Jobs and Community Services (JCS), which is now a division within the Economic Development and Industrial Corporation of Boston (EDIC). Other selection criteria included the results of site monitoring visits conducted by JCS staff, an overall review of the Contractor's performance

during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population.

Compensation under the terms of this contract shall not exceed forty-two thousand, three hundred thirty-four dollars and eighty cents (\$42,334.80), payment being made from funds received under the Job Training Partnership Act (JTPA) Title II-B. The period of performance shall be July 1, 1990 until December 31, 1990. This Contractor has had contracts with JCS funded under Titles II-A and II-B for this program for the previous three (3) fiscal years at the following funding amounts: FY88-\$201,862; FY89-\$221,532; FY90-\$232,609. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Dear Mayor Flynn:

Pursuant to the contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 7, 1990, by which contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to the Escuelita Agueybana, Inc., a non-profit corporation, located at 1 Leyland Street, Dorchester, Massachusetts, 02125. Under the terms of the contract, the Contractor will provide day care services to approximately one hundred sixty (160) children at its Dorchester and South End Development Centers.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990. Notices of these meetings were published

in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 13, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

Compensation under the terms of this contract shall not exceed sixty-seven thousand, two hundred sixty (\$67,260.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with JCS for this program for the previous three (3) fiscal years at the following funding amounts: FY 88 \$70,800; FY 89 \$70,800; FY 90 \$67,260. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of the JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

Donald A. Gillis,
Director.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Action for Boston Community Development, Inc., a non-profit corporation, located at 178 Tremont Street, Boston, Massachusetts. Under the terms of the contract, the Contractor will provide multi-level Adult Basic Education (ABE) instruction, and a General Equivalency Diploma (GED) program for approximately sixty (60) low to moderate income Boston residents.

The Contractor was selected based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued on April 15, 1990 by the former Mayor's Office of Jobs and Community Services (JCS), which is now a division within the Economic Development and Industrial Corporation (EDIC). Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990.

Compensation under the terms of this contract shall not exceed seventy thousand, two hundred fifteen (\$70,215.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with this agency for this program for the previous three (3) fiscal years at the following funding amounts: FY 88 \$70,000; FY 89 \$70,000; FY 90 \$70,920.

Dear Mayor Flynn:

Pursuant to the contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 7, 1990, by which contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated July 12, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to the Children's Services of Roxbury, Inc., a non-profit corporation, located at 2406 Washington Street, Roxbury, Massachusetts, 02119, for the purpose of providing counseling services. This proposed contract is exempt from the provisions of G.L. c. 30B as it is an inter-agency City of Boston grant agreement.

Under the terms of the contract, the Contractor will provide counseling services to approximately one hundred forty (140) adolescents through the Boston School Collaborative. These services will be funded in conjunction with the State's Department of Social Services (DSS) Public-Private Partnership Program, in which the City contributes up to a twenty-five (25%) percent local share. The Contractor was selected based upon an evaluation of refunding proposals submitted to both DSS and the former Mayor's Office of Jobs and Community Services (JCS), which is now a division within the Economic Development and Industrial Corporation of Boston (EDIC). Other selection criteria included the results of site monitoring visits conducted by the JCS staff, an overall review of the Contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population. Costs were determined by rates set by the State Rate Setting Commission and a negotiated number of service units, determined by both DSS and EDIC.

Compensation under the terms of this contract shall not exceed sixteen thousand, two hundred one (\$16,201.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with JCS for this program for the previous three (3) fiscal years at the following funding amounts: FY 88 \$17,499; FY 89 \$17,054; FY 90 \$16,201. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of the JCS into the Economic Development and Industrial Corporation (EDIC). In addition, documents required for this contract were not received from the Contractor until January 11, 1991.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

Donald A. Gillis,
Director.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Boston Community Schools and Recreation Centers, a non-profit corporation, located at 1010 Massachusetts Avenue, Boston, Massachusetts 02118. Under the terms of the contract, the Contractor will provide competency-based alternative educational services for approximately twenty-seven (27) City of Boston high school dropouts. Services will include outreach, recruitment, assessment, and classroom instruction. This proposed contract is exempt from the provisions of G.L. c. 30B as it is an inter-agency City of Boston grant agreement.

The Contractor was selected based upon an evaluation of its proposal submitted in response to a refunding Request for Proposals (RFP) issued on March 23, 1990 by the former Mayor's Office of Jobs and Community Services (JCS), which is now a division within the Economic Development and Industrial Corporation (EDIC). Other selection criteria included the results of site monitoring visits conducted by the JCS staff, an overall review of the Contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population.

Compensation under the terms of this contract shall not exceed twenty-seven thousand, seven hundred forty-six (\$27,746.00) dollars, payment being made from funds received under the Job Training Partnership Act (JTPA) Title II-B. The period of performance shall be from July 1, 1990 until December 31, 1990. This Contractor has had contracts with JCS funded under Titles II-A and II-B for this program for the previous three (3) fiscal years at the following funding amounts: FY 88 \$265,867; FY 89 \$217,349.62; FY 90 \$176,548. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of the JCS into the Economic Development and Industrial Corporation (EDIC). In addition, this request has been further delayed due to the prolonged negotiations between EDIC and the Contractor, and the subsequent late receipt of the contract documents by EDIC from the Contractor.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

Donald A. Gillis,
Director.

NO. 32

REBUILDING BOSTON: A FIVE-YEAR CAPITAL PLAN

Last year's capital budget addressed the need to restrict expenditures, a result of the significant reduction of local aid and grants by the State and Federal governments. When preparing this year's budget, the City responded to a similar environment of diminishing financial resources. The economic downturn in our region, combined with rising state and federal deficits, has had a substantial impact on our ability to introduce new capital projects.

This year's Capital Plan carries forward projects initiated during the last six years, and with the exception of the planning and design of the new Police Headquarters, new projects have been limited to those which address critical conditions. The total capital budget of \$1.03 billion is an increase of less than 2 percent over last year's five-year projection. This approach has allowed the City to move forward with its *Rebuilding Boston* program without creating the need for additional borrowing.

Capital Budget Summary By Department FY 1991 - FY 1995

Department	Total Project Budget (Thousands)
Police	\$ 27,843
Fire	11,716
Health and Hospitals	191,951
Schools	122,523
Parks and Cemeteries	65,514
Recreation Facilities	23,924
Libraries	35,482
Public Works	241,967
Boston Redevelopment Authority	25,418
Public Facilities —	
Development Division	4,370
Economic Development and Industrial Corporation	1,629
Municipal and Historic Facilities	71,207
Total Current Projects	823,544
Total Expensed Projects	203,738

Total Capital Investment \$1,027,282
Note 1: Total expensed projects include 8,195 of completed County Facility projects.

The focus of the next five years of capital investment is to maintain the progress that has been achieved since 1985. More than 750 revitalization

projects have been initiated and over 450 of these projects have been completed or are currently in construction. By diligently controlling our expenditures and prioritizing our needs, the City will continue to witness tangible results based on the projects outlined in the five-year Capital Plan.

The department budgets reflect the policy goals established to guide all capital investments. These aforementioned goals are the blueprint for all capital improvement projects targeting the City's public safety and health care facilities, infrastructure, schools, and parks.

The plan to construct a new Police Headquarters is the most significant new initiative included in this year's budget. The funds to support all pre-planning and architectural services, which will bring this project to the point of construction, have been included in the Police Department Budget.

This past year, the financing of a new Boston City Hospital (BCH) was completed and construction began soon thereafter on the momentous project. The construction of a new \$170 million inpatient facility is

the largest capital undertaking in the City's history. Of the \$170 million financed for the project, \$153 million represented in this budget, is associated with the direct cost of construction and the remaining \$17 million is held in a debt service reserve. Another \$13 million has been earmarked for additional projects associated with BCH, such as the renovation of the Dowling and Maternity Buildings on the BCH campus. Additionally, \$20 million has been earmarked for other Health and Hospital facilities at both the Mattapan and Long Island Hospitals, including a \$1 million appropriation to construct a residential facility for children who have AIDS.

Investment in the City's infrastructure continues to be a major component of the Capital Plan. Almost one-third of the budget has been earmarked for the continuation of annual roadway, sidewalk, and streetlighting programs designed to improve public ways and support economic development initiatives. A net increase of \$14 million from last year's figure reflects an additional year of funding.

Fifteen percent of the budget has been dedicated to the ongoing improvements to the physical condition of Boston's public schools. The City has committed \$165 million to insure that the schools are safe, comfortable, and conducive to learning. Over \$20 million was expensed last fiscal year alone on school improvements.

Open space and recreation facilities all across Boston continue to be restored with capital investment. Improvements to the City's parks, play-

grounds, and recreation facilities account for 11 percent of the total capital budget. This year's budget has earmarked close to \$90 million for ongoing open space and recreation facility improvements.

ELLIS BURKS GOES TO BAT FOR THE UNITED WAY AND HELPS KIDS FIGHT DRUG ABUSE IN OUR COMMUNITY

By Tony Ferullo

The sun is shining brightly over Fenway Park on this wonderful summer's day, and Ellis Burks is feeling the heat.

When informed that every home run he hits this season, various corporate sponsors will make a contribution to the United Way to help kids fight drug abuse in our community, a determined look crosses Burks' face.

"Well then," said the Boston Red Sox star center fielder, pausing to take a deep breath, "I'd better get busy."

Burks is excited about being selected as the United Way of Massachusetts Bay's 1991 "Designated Home Run Hitter." He feels good knowing that

Boston Red Sox Star Ellis Burks goes to bat for the United Way of Massachusetts Bay in order to help kids, particularly in the area of drug abuse, in our community. Shown here with Burks are youngsters from the Colonel Daniel Marr Boys and Girls Club of Dorchester, a United Way supported agency.

each time he hits one out of the park, donations will be made to the United Way to support programs helping youngsters, particularly in the area of drug abuse.

With all the trouble going on today, kids need to learn the difference between right and wrong," said Burks. "They need places like the United Way, who will look out for them and care for them. I'm happy to be involved with the United Way because they help so many people — like kids, the homeless, and the elderly."

On this particular afternoon, Burks is participating in a photo session for the United Way, along with a group of youngsters representing the Colonel Daniel Marr Boys and Girls Club of Dorchester — a United Way-supported agency. As expected, the kids are overwhelmed — their eyes bursting with glee, their hearts beating at a rapid pace.

"It's always nice to see a professional athlete, such as Ellis Burks, volunteer his time for United Way," said Mike Joyce, Program Director of the Colonel Marr Boys and Girls Club. "I'm sure the kids will be talking about this day for a long time."

Burks had fun with the youngsters. He talked with them, joked with them and signed all of their autograph requests. "It's very important that kids have a role model," said Burks, who has hit 11 home runs already this season. "If working with the United Way is how I can give something back to the community in a positive way, then I'm all for it."

The "Home Run Match Program" was started by former Philadelphia Phillies third baseman Mike Schmidt in 1984 and has since raised over \$2 million throughout the major leagues. Last year, the local Boston Home Run Match Team, spearheaded by Mike Greenwell's 14 home runs, led all American League cities by raising nearly \$36,000.

Coporate sponsors already in the lineup for this season include: The Boston Herald; Bus-Tech; Carter Rice; The Colonial Group; Dad's Diner; Ernst & Young; General Electric; John Hancock Mutual Life Insurance Co.; KPMG Peat Marwick; Barry Libeskind Insurance Agency; New England Sealcoating Co., Inc.; New England Telephone; NYNEX Meridian Systems; Polaroid Corp.; Raytheon

Company; Shawmut Bank, N.A.; Shawmut Mills, Div. of R.H. Wyner Assoc., Inc.; Shepley Bulfinch Richardson and Abbott, Inc.; Sheraton Boston Hotel & Towers; Slade Gorton & Co., Inc.; Stone & Webster Engineering Corp.; The New England and WCVB-TV Channel 5.

NEIGHBORHOOD RESIDENTS REACH FOR NEW ECONOMIC HEIGHTS AT TELECOMMUNICATIONS INSTALLATION TRAINING PROGRAM

Cable television representatives from throughout greater Boston joined Cablevision of Boston and Donald Gillis, Executive Director of Economic Development and Industrial Corporation of Boston (EDIC), last Thursday at the Marine Industrial Park in South Boston to recognize the success of a training program that is preparing neighborhood residents for employment in the telecommunications field.

"The cable telecommunications industry is a growing industry throughout the city and this partnership with Cablevision of Boston exemplifies the kind of creative alternatives EDIC is working toward in order to prepare neighborhood residents for careers and promising futures," Gillis said.

The program is one of 12 public-private partnerships announced last February by Mayor Raymond L. Flynn and funded by the Neighborhood Jobs Trust through EDIC. The twelve programs, aimed at training 400 neighborhood residents, reflect the City of Boston's commitment to finding creative methods to fund and train Boston residents for quality employment in such fields as healthcare and high tech.

According to Dick Clark, General Manager of Cablevision of Boston, this training program represents a chance for Cablevision to work with the city to create a pool of qualified workers for the rapidly growing telecommunications industry. "Cablevision of Boston funds this program — which is unique

(Continued on next page)

in urban America — to provide cable television job training to inner city men and women. Today, Cablevision joins with other key players in our industry, Continental Cablevision and Warner Communications, to salute the city for having the vision to promote economic opportunity for Boston residents in the growing cable television industry," Clark said.

Cablevision of Boston provides \$65,000 in funding and services for the program which is conducted by the staff of the Boston Technical Center and Henkles and McCoy, a firm specializing in telecommunications training.

Ron Goss of Henkles and McCoy credited the students and staff with the success of the program. "The instructional team at the Boston Technical Center and effort on the part of the students are making the program happen. After graduation, the students will have an outstanding career ahead of them," Goss said.

Prior to entering the telecommunications installation program, George Wilson, a Fenway resident, worked behind the counter at a drycleaner. "This program has presented me with a good opportunity to acquire new skills," he said. Chiquita Foster of Dorchester had similar praise for the program. "I've been in the military and through their training programs. This is by far one of the best," she said.

City Councillor Thomas Menino, a trustee of the Neighborhood Jobs Trust, stressed the importance of the jobs trust, a fund paid into by downtown developers as part of the linkage program, in providing employment opportunities and reinvesting in Boston's neighborhoods. "Because of the linkage funds we receive from Boston employers, the youth in our city have a future in the job market," he said.

The success of the training program has prompted surrounding cable television companies, including Warner and Continental, to consider the program as a model for training professional cable television employees.

STORYTELLER JENNIFER SMITH AT BPL

The Boston Public Library's long-standing tradition of formal storytelling will be renewed August 15th with the Magic Circle's presentation of "Improbable People, Impossible Things" in the Children's Room of the Central Library in Copley Square.

Well-known storyteller Jennifer Smith of Belmont will draw on folk traditions of Hungary, Korea, West Africa, Zanzibar, Greece, and England as well as Appalachian, African-American, and Native American traditions during her performance to inspire children to let their imaginations soar and create worlds of their own.

A professional storyteller, Ms. Smith brings to her work many years' experience as teacher and performer. She holds a Master's Degree in Comparative Literature from Oxford University and has taught at every age level from college literature and adult education courses down to elementary and preschool classes. For several years she was the Children's Book review editor for the *Christian Science Monitor* and wrote a monthly column on books for children.

Recognizing the power of stories to enthrall children and adults alike and to stimulate love of reading, the Boston Public Library first introduced the art of formal storytelling at the Central Library in Copley Square in 1902 with the first appearance of Marie Shedlock, a celebrated European story-teller who was described as "the English interpreter of Hans Christian Andersen," as well as "the Fairy Godmother."

The 3 p.m. program, which is free and open to the public, has been especially created for the Boston Public Library and is intended for children five years of age and older. Preregistration is not required, but seating is limited. For additional information, please contact the Children's Room of the Boston Public Library at 536-5400, Ext. 328.

**CONTRACTS AWARDED
AFTER ADVERTISING
("Requests for Proposals")
("Requests for Qualifications")
("Technically Deficient Bids")**

The Mayor has approved the awarding of the contracts based on the following communications:

EDIC/BOSTON

Professional Services

C16141-91

December 28, 1990

Dear Mayor Flynn:

Pursuant to the contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 7, 1990, by which contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated July 12, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into

contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to the South Boston Neighborhood House, Inc., a non-profit corporation, located at 521 East Seventh Street, Boston, Massachusetts 02127, for the purpose of providing counseling services.

Under the terms of the contract, the Contractor will provide individual and family counseling services to approximately forty (40) low to moderate income persons, targeting the South Boston community. These services will be funded in conjunction with the State's Department of Social Services (DSS) Public-Private Partnership Program, in which the City contributes up to a twenty-five (25%) percent local share. The Contractor was selected based upon an evaluation of refunding proposals submitted to both DSS and the former Mayor's Office of Jobs and Community Services (JCS), which is now a division within the Economic Development and Industrial Corporation of Boston (EDIC). Other selection criteria included the results of site monitoring visits conducted by the JCS staff, an overall review of the Contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population. Costs were determined by rates set by the State Rate Setting Commission and a negotiated number of service units, determined by both DSS and EDIC.

Compensation under the terms of this contract shall not exceed eleven thousand, one hundred twenty-eight (\$11,128.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with JCS for this program for the previous three (3) fiscal years at the following funding amounts: FY 88 \$13,631; FY 89 \$13,359; FY 90 \$13,359. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of the JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,
Donald A. Gillis,
Director.

**HEALTH AND HOSPITALS
DEPARTMENT**

Health Care Services

C368-91

January 18, 1991

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to award an emergency contract, effective December 1, 1990, to the Trustees of Health and Hospitals of the City of Boston, Inc., 1010 Massachusetts Avenue, Boston, Massachusetts 02118, under which said corporation will fund comprehensive health care services through health care centers affiliated with Boston City Hospital through June 30, 1991 at a cost not to exceed one million eight hundred eighty-nine thousand five hundred seventy-seven dollars and thirty-nine cents (\$1,889,577.39).

This contract is 1) to provide comprehensive outreach medical services to the residents of the

(Continued on next page)

East Boston, Mattapan, North Dorchester, Roxbury, and South Boston neighborhoods of the City through the six Affiliated Neighborhood Health Centers, 2) to provide three basic primary care services; adult medicine, pediatrics and obstetrics/gynecology in addition to specialty services according to the needs of the particular community(s) the individual Affiliates serve and 3) to provide programs to support the City's infant mortality initiatives.

The Trustees of Health and Hospitals shall make available the services of payroll, purchasing and financial reporting for these health centers affiliated with Boston City Hospital. The contract also provides for technical support, administrative management, quality assurance, program evaluation and courier service for the City's network of health centers.

In consideration of the services rendered, the Trustees of Health and Hospitals, Inc. shall be permitted to retain an amount not to exceed seven percent (7%) of the total of this contract as general administrative cost per Addendum A.

As you are aware, on November 21, 1990 the Supreme Judicial Court ruled that the City of Boston was subject to Massachusetts General Laws Chapter 30B, the Uniform Procurement Act. Because a contract for the above services for the period July 1, 1990 through June 30, 1991 was not executed by May 1, 1990, and since such contract was not solicited or awarded in compliance with Chapter 30B, payment cannot legally be made for services under that contract.

The Trustees of Health and Hospitals has advanced monies from other programs to meet the health center payrolls and other expenses. They have now reached the limit of their ability to advance funds, thereby placing the continued operation of these health centers, which have depended on these monies to provide medical/public health services to the communities they serve, in serious jeopardy and imminent danger of ceasing operations altogether.

Because of the complicated nature and length of the relationship, twenty-two (22) years, between the Trustees of Health and Hospitals and the Affiliated Health Centers, it is impossible to immediately produce a comprehensive RFP for these services. The Department of Health and Hospitals is committed to producing an RFP which comports with all the requirements of Chapter 30B in the spring of 1991 for such services commencing July 1, 1991.

In view of the facts outlined above, I respectfully recommend your Honor's approval of this emergency contract pursuant to the provisions of Chapter 30B, s. 8.

Very truly yours,
Judith Kurland,
Commissioner

PUBLIC FACILITIES DEPARTMENT

Renovations

C-16130-91
October 18, 1990

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on October 11, 1990, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Friends of the Joseph Manning School, a non-profit organization, with offices at 130 Louder's Lane, Jamaica Plain, MA 02130. Under the terms of this contract the contractor will renovate the recreation area around the Manning School which includes remove of scrub vegetation, demolition of existing play structures, installation of new playground equipment and landscaping.

Compensation under this contract shall not exceed twenty-five thousand dollars (\$25,000.00), which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from December 3, 1990 to December 31, 1991. Funds for this contract shall come from those received under the Community Development Block Grant program.

The contractor was selected based upon a thorough evaluation of a proposal submitted in response to a publicly advertised request for proposals in the Boston Globe on March 5, 1989, and the City Record on March 5, 1989. Costs were determined to be reasonable after extensive analysis by Public Facilities Department staff.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the City Record, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

The submission of this proposal has been delayed due to a city-wide freeze on all contracts.

Sincerely,
Lisa G. Chapnick,
Director.

Boiler Repair

3384-91
December 4, 1990

Dear Mayor Flynn:

The Public Facilities Department of the City of Boston was notified by the Library Department that an emergency exists at the above referenced location. The Library's Mechanical Department discovered that the boiler is inoperable due to a number of cracks in the boiler tubes. In order for the boiler to be operable, it needs to be retubed. This building is used by the City of Boston as a book and newspaper depository. The articles stored are irreplaceable and unless we make the needed repairs to the heating system, valuable articles could be lost.

We invited three (3) contractors, normally engaged in this type of service, to view and bid on this work with the following results:

CONTRACTOR	BID AMOUNT
Helfrich Bros. Boiler Works	\$ 5,290
Kendall Boiler Repairs	5,997
Cahill Boiler Repairs	10,568

Helfrich Bros. Boiler Works, Inc. is the lowest eligible and responsible bid.

Therefore, in accordance with Massachusetts General Laws, Chapter 30, Section 39M, I request your Honor's written approval to award a contract to Helfrich Bros. Boiler Works, Inc. of 39 Merrimack Street, Lawrence, MA 01843 in the amount of five thousand and two hundred and ninety dollars and no cents (\$5,290.00).

This contract is procured pursuant to M.G.L. C.30 S.8 and is, therefore, exempt from the process of M.G.L. C.30B.

Sincerely,
Lisa G. Chapnick,
Director.

Closed Circuit TV System

C-3378-91
November 19, 1990

Dear Mayor Flynn:

In response to an advertisement in the Boston Globe issue dated October 22, 1990, the City Record issue dated October 22, 1990, and the Central Register issue dated October 24, 1990, the following general bids in connection with the project entitled: "Closed Circuit TV System for Boston City Hospital", were publicly opened and read aloud at the office of the Public Facilities Department at twelve o'clock noon on November 16, 1990.

BIDDER	AMOUNT
Atlantic Video Systems, Inc.	\$30,949
Astrovision of New England, Inc.	35,536
ESCOA	36,875

The bid of Atlantic Video Systems, Inc. is rejected pursuant to M.G.L. C. 149 s. 44D (A)(1) because of failure to provide a DCPO Certificate of Eligibility and an Update Statement.

The bid of Astrovision of New England, Inc. is rejected because the firm is not DCPO certified in telecommunication.

The bid of ESCOA is the lowest eligible and responsible general bid on this project and is within the range of our estimate for the cost of these services. It is my opinion that the cost is reasonable.

Your Honor's written permission is requested to award a contract to ESCOA, 61 Jackson Street, Canton, MA 02021, the lowest eligible and responsible general bidder on this project in an amount not to exceed thirty-six thousand eight

hundred seventy-five dollars (\$36,875.00). The contractor shall commence work forthwith upon execution of this contract and shall be completed within 35 calendar days.

This contract is procured pursuant to M.G.L. C. 149, s. 44A-J and is therefore exempt from the provisions of M.G.L. C. 30B.

Sincerely,
Lisa G. Chapnick,
Director.

Design of Asbestos Abatement

C-3374-91
October 16, 1990

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on October 11, 1990, I respectfully request your Honor's permission to dispense with further public advertisement and award a contract to A. Anthony Tappe and Associates, Inc., a Massachusetts corporation with offices at 132 Lincoln Street, Boston, MA 02111, for the design of Asbestos Abatement Phase IV at Boston City Hall to include programming, finishes and furnishings, asbestos specifications, testing and monitoring. Scope of work includes preliminary design, design development, working drawings and construction supervision.

Compensation under this contract shall not exceed \$407,000.00 (including \$188,000.00 for supplementary services), which is a negotiated fee based on an estimated cost of construction of \$3,250,000.00, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be for sixty-four (64) months from the date of execution.

Pursuant to M.G.L. C. 7, 38A 1/2-0 et seq., A. Anthony Tappe and Associates, Inc. was awarded the contract based on a publicly advertised request for proposals in the Boston Globe and City Record on February 26, 1990, and the Central Register on February 28, 1990. The Public Facilities Designer Selection Committee evaluated 16 proposals employing a numerical matrix system. The numerical matrix rating for a firm reflects the combined score of each Committee member's ranking of this firm and thus the recommended firm has the lowest number. The numerical matrix rating summary of the three finalists, in order of rank, was as follows:

A. Anthony Tappe and Associates, Inc., 132 Lincoln Street, Boston, MA 02111 — 6.

Ondras Associates Architects, Inc., 48 Grove Street, Somerville, MA 02144 — 9.

CPF/Domenech & Hicks, Inc., 155 Massachusetts Avenue, Boston, MA 02115 — 10.

In view of the technical and professional nature of the services required, the qualifications and expertise of the designer, and the selection process used, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the City Record under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,
Lisa Chapnick,
Director.

SCHOOL DEPARTMENT

Printing Services

January 11, 1991

Dear Mr. Mayor:

In response to advertisements published in the City Record inviting interested, competent per-

sons engaged in supplying Printing of Student Assignment Information Book, and Printing and Typesetting of Student Application Forms and Mailers, the following bids were publicly opened and read on December 19, 1990 and December 12, 1990 respectively:

CO91	COMPANY	CO AMOUNT
4704	AMF Mail Advertising 995 Blue Hill Avenue Boston, MA 02124	\$ 3,707.50
4705	Print Solutions 118 Washington Street Holliston, MA 01746	\$12,875.95
4706	Sterling Business Forms P.O. Box 845 Medford, MA 02155	\$23,049.00
4707	Spaulding P.O. Box 489 Randolph, MA 02368	\$27,705.00
4708	Tirrell & Company 40 Broad Street Boston, MA 02109	\$ 4,337.00

These contracts were awarded to the lowest bidders, pursuant to public bidding processes and conform to the requirements of Chapter 30B to the greatest extent practicable under the circumstances which were 1) procedures for implementing the new law had not yet been developed at the time the contracts were bid and awarded; and 2) the time constraints of the School Department's student assignment process did not permit delay in receipt of these services.

Failure to award these contracts at this time would result in a danger to the safety of the approximately 57,000 students of the Boston Public Schools in that they and their parents would be unable to select schools for attendance in the 1991-1992 academic year or to receive their school assignments before the close of the 1990-1991 school year. Assignment of teachers and support staff is dependent upon the location of students. A reasonable estimate of the time required to rebid and award new contracts is two (2) months which would cause final assignments to take place after the start of the 1991-1992 school year. It could be expected that under such conditions numerous students would refuse to return to school upon receiving assignments. Therefore, in the event that the above-referenced contracts do not fully comply with the solicitation and awarding requirements of Chapter 30B, it is hereby declared that the said contracts constitute emergency contracts and shall remain in effect as emergency contracts through April 15, 1991.

Very truly yours,
Joseph M. McDonough,
Superintendent.

CONTRACTS AWARDED WITHOUT ADVERTISING

Greenwood Fire Apparatus, Inc., is the sole authorized distributor of Emergency One parts. The Fire Department has been very satisfied with the apparatus, parts, and service rendered by this firm.

The Fire Department Maintenance Division projects a need for \$50,000 for parts through June 30, 1991.

Therefore, your Honor's permission is respectfully requested to award a contract, without advertising, to Greenwood Fire Apparatus Inc., 530 John Dietsch Boulevard, No. Attelboro, MA 02760, in the amount of \$50,000 - net. Computer Equipment

Dear Mr. Mayor:

Your Honor's permission is requested to award a contract, without advertising, to Wang Laboratories, Inc., of Lowell, MA 01851, for the purchase of Computer Equipment and/or Accessories (cc: 205-99) to be used by various City departments based upon the recommendation of the Management Information Systems Division. Purchases will be made during the period November 1, 1990 through June 30, 1991.

Wang Laboratories and the City of Boston have had a most satisfactory relationship since our first purchase contract was executed in FY82. This relationship is based upon superior vendor performance in the quality of service provided, and pricing considerations extended to the City for the past five fiscal years.

Then MIS Division's decision to continue with Wang Laboratories for the purchase of the required equipment was based on the following cost-saving reasons:

1. having only one manufacturer for small systems data processing equipment enables the City to share equipment and resources and expand its systems networking without purchasing additional expensive central processing or special interfacing equipment from other manufacturers. System maintenance and service costs are dramatically reduced by using only two high capacity Wang central processing units for various City departments instead of a possible total of thirty small CPU's from different manufacturers.

2. No re-programming of existing data files will be required

3. No re-training of operating personnel will be required

4. Faster and more efficient automated communication time cycles because of compatible/uniform equipment will be realized

5. Complete utilization of and compatibility with all existing City data processing inventory (i.e., - I.B.M., Digital Equipment Corp., . . . etc.)

6. Ability to communicate with equipment in departments located outside City Hall.

All pricing is per Wang's most current Pricing Manual, and is subject to previously agreed upon terms and conditions as set forth in the Fiscal 1990 Purchase Contract.

The actual equipment to be purchased under this contract will be determined by departmental requests and overall system requirements.

Payments shall be made thirty (30) days from the date of installation with the following discounts:

TYPE OF PROCUREMENT:

Vs/OIS Hardware Purchases 15% off list price
Software License Purchases
(excluding VS/OS License Fee) 24% off list price

VS Operating System License Fees 15% off list price

Desktop Category I 28% off list price
Desktop Category I (**PC Lan Products Only) 22% off list price

Desktop Category II 18% off list price
Desktop Category III 13% off list price

Desktop Category IV 38% off list price

The above discounts do not apply to Voice, Communications/DVX, Vendor Solutions and All-In-On Products, which are non-discountable.

**The specific model numbers eligible for this discount are those with the prefix of LS100 and BL.

This contract also grants a 20% discount on supply items. Based on the fact that the City is eligible to secure supplies under the Commonwealth of Massachusetts Contract (No. 17261) and receives a 23% supplies discount, Wang has agreed to amend the City of Boston Contract to reflect a 23% supplies discount for as long as that discount is offered to the Commonwealth.

Accordingly, your Honor's permission is respectfully requested to award a contract, without advertising, to Wang Laboratories, Inc., One Industrial Way, Lowell, MA 01852, for the period November 1, 1990 to June 30, 1991 in an estimated amount not to exceed \$150,000.

For the reasons outlined above, it is my opinion that public advertising would serve no useful purpose under these circumstances.

Respectfully yours,

Frank F. Chin,
Purchasing Agent.

C. 5209-5215-WA

Copier Equipment

Dear Mr. Mayor:

Your Honor's permission is requested to award, without advertising, a total of seven (7) contracts to the vendors that the City will utilize in the purchase, lease or rental of Copier Equipment (CC 600-39) for fiscal year 1991 for use by various City departments. These vendors were chosen after an extensive study by the Purchasing Division of the reprographic industry. In this study, it was determined that the City needed to standardize its purchase of copiers and duplicators.

The City intends to enter into contracts with these seven vendors in order to offer a choice to departments for the purchase, lease or rental of Copier equipment. The most efficient means of acquiring copiers and duplicators is to allow each department to inspect and compare costs, features and benefits of equipment from several different vendors. Those vendors selected would be on contact for this fiscal year only and were required to meet the following conditions:

The vendor must be a reputable firm that produces a reliable product

The vendor must be able to supply factory maintenance that is guaranteed

No third-party leasing or assignment of this contract is allowed

Pricing will conform to G. S. A. or Commonwealth of Mass. pricing, whichever is lower

By the award of contracts to these vendors, departments will be able to take immediate advantage of any discounts, promotional offers and new products as they are introduced.

Approximately \$600,000 may be expended during the next fiscal year for copier and duplicator equipment from these vendors. This total represent purchases, lease or rentals as maybe necessitated by departmental needs. The award of these contracts will be without advertising due to the varying combinations of equipment offered by vendors to meet specific departmental needs. No purpose would be served by advertising, since Purchasing makes continual studies of the reprographic industry and how the needs of the City can best be met. The companies listed below meet the criteria set forth by Purchasing.

Therefore your Honor's permission is respectfully requested to award contracts, without advertising, for the eight (8) month period November 1, 1990 through June 30, 1991 to the firms listed below for a total estimated amount of \$600,000, in individual estimated contract amounts not to exceed those which are indicated which are based on past experience.

BOSTON COMMUNITY SCHOOLS AND RECREATION CENTERS

C. 1509-9

November 1, 1990

Professional Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Action for Boston Community Development, Inc., a non-profit corporation, located at 178 Tremont Street, Boston, Massachusetts, 02111. Under the terms of the contract, the Contractor will provide alternative educational services leading to a General Equivalency Diploma (GED) and job placement services for approximately sixteen (16) City of Boston high school dropouts.

The Contractor was selected based upon an evaluation of its proposal submitted in response to a refunding Request for Proposals (RFP) issued on March 23, 1990 by the former Mayor's Office of Jobs and Community Services (JCS) which is now a division within the Economic Development and Industrial Corporation of Boston (EDIC). Other selection criteria included the results of site monitoring visits conducted by JCS staff, an overall review of the Contractor's performance during the prior contract period, administrative capability, reasonableness of cost and the ability to serve the targeted population.

Compensation under the terms of this contract shall not exceed fifty-eight thousand, five hundred (\$58,500) dollars, payment being made from funds set aside for the Alternative Education Initiative (AEI). The period of performance shall be July 1, 1990 until June 30, 1991. This Contractor has had contracts with JCS for this program for the previous three (3) fiscal years at the following funding amounts: FY 88—\$56,250; FY 89—\$56,250; FY 90—\$58,500.

This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into EDIC. EDIC will administer this AEI-funded program on behalf of the Boston Community Schools and Recreation Centers.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

William P. Doherty,
Director.

C16127-91
October 23, 1990

Dear Mayor Flynn:

Pursuant to the contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 7, 1990, by which contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated July 12, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to the South Cove Community Health Center, a non-profit corporation, located at 885 Washington Street, Boston, Massachusetts, 02111, for the purpose of providing counseling services.

Under the terms of the contract, the Contractor will provide counseling services to approximately fifty (50) low to moderate income Cambodian adolescents through the Boston School Collaborative. These services will be funded in conjunction with the State's Department of Social Services (DSS) Public-Private Partnership Program, in which the City contributes up to a twenty-five (25%) percent local share. The Contractor was selected based upon an evaluation of refunding proposals submitted to both DSS and the former Mayor's Office of Jobs and Community Services (JCS), which is now a division within the Economic Development and Industrial Corporation of Boston (EDIC). Other selection criteria included the results of site monitoring visits conducted by the JCS staff, an overall review of the Contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population. Costs were determined by rates set by the State Rate Setting Commission and a negotiated number of service units, determined by both DSS and EDIC.

Compensation under the terms of this contract shall not exceed four thousand, three hundred ninety (\$4,390.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The amount to be initially encumbered shall be \$1,525.00. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with JCS for this program for the previous three (3) fiscal years at the following funding amounts: FY 88 \$21,765; FY 89 \$20,500; FY 90 \$4,390. This request has been delayed due to the length of time involved in the funding review process, and due

to the recent merger of the JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

Donald A. Gillis,
Director.

This Contractor has had contracts with JCS for this program for the previous three (3) fiscal years at the following funding amounts: FY 88 \$9,336; FY 89 \$8,869; FY 90 \$8,869. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of the JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

Donald A. Gillis,
Director.

HEALTHY BOSTON INITIATIVE

Remarks of Mayor Raymond L. Flynn, Healthy Boston Initiative, July 31, 1991

Healthy Boston is a bold new initiative that will do in Boston what no other major city in America is doing. We are going to create a *family centered* system of delivering health and human services. We are going to bring public health, public education, public housing and other agencies together to make sure that services are focused and coordinated to create stronger families and stronger neighborhoods.

Healthy Boston means more than another program or another layer in the complexity of bureaucracy. Healthy Boston means working at the grassroots level directly with the people in the neighborhoods and with the public and private agencies who are out there every day. And together we are going to create a comprehensive coordinated neighborhood based system of delivering all services.

The seeds of strong healthy neighborhoods lie within the communities themselves — in community leaders, community based organizations, churches, schools, and most importantly residents and families. Healthy Boston will strengthen and build on the assets of our neighborhoods.

What we are proposing today is that we bring ourselves together as a community to solve our problems together. What we propose is not just that we pool our resources, but that we integrate them. We propose that we do this in ways that have worked before and in ways that have never been tried. But mostly, we propose that we do this together, that all who consider themselves part of the community of Boston have a role and a responsibility in making sure this works.

After more than a decade of federal abandonment, the problems of America's cities have grown resistant to piecemeal solutions. This Healthy Boston initiative will put us on the cutting edge of developing a comprehensive solution to complex urban problems.

You see, healthy families and healthy communities need more than just medical care. They need jobs that can support a family with dignity. They need decent housing and enough food to eat. They need quality schools that open the door to opportunity. They need sports and recreation for people of all ages, but especially youth. They need safe and thriving neighborhoods where people care about each other and help each other out.

In different communities, at different times, a variety of people, institutions, and places served the purpose of helping people form communities. Sometimes it was settlement houses, sometimes churches or social clubs, sometimes neighborhood health centers or tenant associations, and in Boston we developed our own community schools. But in each case we were trying to re-build or keep a sense of community.

Healthy neighborhoods are the building blocks of a Healthy Boston. The seeds of strong healthy neighborhoods lie within the communities themselves — in community leaders, community based organizations, churches,

schools, and most importantly residents and families. Healthy Boston will make neighborhoods central to the delivery of health and human services.

There are five major parts to the Healthy Boston initiative:

- Healthy Boston is a partnership between city agencies and community coalitions which identify issues of concern to the community and help develop plans for change and coordination of services. It is a grassroots approach which respects the role and the responsibility of residents and service providers, and includes collaboration with private funding sources as well as the state and federal governments to coordinate funding needs and resources.
- Healthy Boston will broaden the role of schools in their communities. Education is *not* just a job for educators, it's everyone's responsibility — parents, agencies that serve children and families, community leaders, business, clergy, and universities. Schools have to become more responsive and accountable to our communities. Healthy Boston will bring the resources of the community into the schools and the resources of the schools into the community, to the benefit of both.
- Healthy Boston will begin to re-build athletic programs in the Boston public schools, because education is more than academics. Good education builds a sound mind and a sound body. Sports and recreation play an important role in educating the whole child — they help young people gain the self-

(Continued on next page)

Healthy Boston Initiative . . .

(Continued from front page)

confidence, self-discipline and character needed for success in school and in life.

- Healthy Boston will call on funders and payors, public and private agencies and the state and federal government to come together to respond to the needs of our neighborhoods in a comprehensive and collaborative way. By working together all of our efforts will have more impact than we have working separately.
- Finally, Healthy Boston will begin in five community based pilot programs which include the collaboration of a public school, public housing, a community health center, and a community based organization. Based on the successful winners circle model, we will pioneer, in collaboration with the community, a child and family-centered approach to these basic human services. We want to revive the effort to link the school and the health center which serve children and families in distress, and bring public, private and community institutions together in a coordinated effort to improve the health of families and communities.

We must remember that no city in America can solve its problems alone. As mayor of Boston and president of the U. S. Conference of Mayors I will continue to do everything possible to restore the commitment of the federal government to the cities. One of the most important areas is how we provide health care for needy and working families. We need a revolutionary new approach in the way we deliver and pay for health care in the United States.

Let us remind the federal government that the real future of America lies in strong competitive cities. We have to invest in our people today — especially in the next generation, our children — to have a healthy competitive economy in the future. The Healthy Boston Initiative is going to show the way for what cities can do by bringing city agencies, communities, public and private agencies and the private sector together in a new spirit of cooperation.

MAYOR'S LETTER TO THE PRESIDENT

August 4, 19

George Bush
President of the United States
The White House
1600 Pennsylvania Avenue
Washington, DC 20500

Dear Mr. President:

This week, the United States Conference of Mayors Executive Board and Advisory Committee will be holding our annual business meeting, to set our priorities for the year ahead. At the top of our agenda will be the need for a national economic recovery game plan for putting America back to work. I am writing to ask that a bipartisan delegation of mayors have the opportunity to brief you on these priorities, and on the need for a renewed national urban agenda.

It is time for all of us who hold elective office — Democrats and Republicans; liberals and conservatives — to unite behind a national strategy for economic competitiveness and growth. It is right for us to help the Kuwaiti people rid themselves of Saddam Hussein, and it is sensible for us to help the Soviet Union rid themselves of communism. Now it is time to put our own house in order.

Mr. President, there are many American families out there who are hurting economically, and need your help.

There are a growing number of American families that can't afford to send their children to college.

There are a growing number of manufacturing workers whose jobs have been lost to the Far East, Mexico, and other low wage countries.

There are a growing number of construction workers who are out of work, at the same time that our roads and bridges are crumbling.

There are a growing number of Americans in poverty — more and more of whom are homeless or at risk of becoming homeless. In particular, women with children and veterans represent the fastest growing numbers of homeless people.

There are a record number of families on food stamps — many of them proud breadwinners — who only turn to government programs in desperation.

There are a record number of bankruptcies and foreclosures that have shaken our banking system and our economy into turmoil.

There are 37 million Americans without a health care plan, and many are concerned about the runaway costs of our present health care "system."

And there are fiscal nightmares taking place at the state and local level — rising billions of dollars in tax increases and service cuts across our nation.

Mr. President, it's time to deal with the problems of working Americans, the Americans who want to work. Think about the needs of average American families — and to speak with

CITY OF BOSTON "DRUG COURT" OPENS

Last week I joined community leaders and law enforcement officials for the opening of a special "drug court" at Dorchester District Court. This court, which began taking cases on August 1, is a pilot project that will centralize all the components of criminal justice — police, prosecutors, attorneys, judges, etc. — into a sophisticated system dealing solely with drug and firearm cases.

The creation of a separate drug court for the City of Boston has been a key focus for discussion in past criminal justice summits, anti-crime council meetings and safe neighborhood meetings involving state and federal officials. As a result of nearly four years of hard work and planning the Massachusetts Committee on Criminal Justice has agreed to target \$370,000 federal anti-drug funds to support this project. The drug court is an example of what can be accomplished through analysis and problem solving. The community understood that our court system was overloaded with drug cases, and by bringing people together we were able to create an innovative solution.

them about what's important to them. I believe you'll find that they are concerned about jobs, education, health care and putting something aside for the future. More importantly, I think

you'll hear an increasing cynicism that anybody in Washington cares about them.

In your inaugural speech, you spoke of America having "more will than

wallet." Well, there are choices. We are spending money on troops in Norway, missiles in the Middle East, aid for the Soviet Union, rescuing the savings and loans, and adding more bureaucrats in Washington. But when it comes time to helping poor and needy Americans, or working families, who are all in trouble, Washington seems to have no sense of urgency.

The time has come for strong leadership at home. For the next year, let's deal with American problems and put our country back on the right economic and social track. Only then will we have the credibility — and the capacity — to deal with the rest of the world.

Sincerely,
Raymond L. Flynn

MAYOR FLYNN'S INITIATIVE MAKES RECORDS AVAILABLE

For the first time in the 361-year history of the Town and City of Boston, the municipal government has created an Archives Program for bringing together all of the municipality's scattered non-current records into one facility and under the supervision of an Archives Division.

The purpose of the two-year-old Archives and Records Management Program, an initiative of Mayor Raymond L. Flynn, is to make accessible to Administration officials and the general public all of the City's vital, historic and archival papers.

A professional survey on the status and condition of the City's records, conducted under a \$115,000 federal grant in 1987, showed that Boston has some 100,000 cubic feet of inactive public papers stored in 14 locations across the City. Of the 100,000 cubic feet, some 25 percent is considered permanent and archival, and the remaining 75 percent of a temporary or as yet undetermined nature.

The Archives and Records Management Division was established by law, through an initiative petition by Mayor Flynn and approval by the City Council, following completion of the public records survey. The Archives staff, which works under the City Clerk's Department, the traditional record-keeper of the City, has since located an additional four sites where inactive records have been stored.

Before the program began, the City Clerk and other department heads regularly deposited vital and historic papers at the Boston Public Library, which still holds important collections of City records.

But department heads, running out of office space over the past few decades, had been storing their non-current records in closets, basements, garages, warehouses and abandoned schools. Extreme fluctuations of temperature and humidity were taking a destructive toll on the invaluable papers. Moreover, the public records were inaccessible and subject to loss through theft, fire or deterioration.

In October 1989, the Flynn Administration opened a vacant school building, the former Hemenway School in the Readville section of Hyde Park, as an interim Archives and Records Center. The facility can ultimately hold only some 12,000 cubic feet of records — or about 12 percent of the inactive records known to exist. "But it was a place to start the program," said City Archivist Ed Quill.

A \$50,000 Archives Site Study, allocated recently in Mayor Flynn's Capital Plan, has been created to locate and establish a permanent City of Boston Archives and Records Center. The Site Study Committee is scheduled to begin its work this Fall.

Meanwhile, Archives staff members Elizabeth Cousins and David Nathan, with the help of summer interns and departmental officials, are conducting inventories of public records stored in old cabinets and broken-down boxes. After re-filing into archives storage boxes, the contents are shipped to the interim facility. The building currently stores some 9,000 to 10,000 cubic feet of re-

ords on high-density shelving, including large collections from the City Clerk's Office, City Council, Inspectional Services, Penal Institutions, Assessing, Auditing, Treasury, the BRA, the defunct Model Cities Program, and several others.

Old records from the Retirement Board, the School Committee, Jobs and Community Services and the Cemetery Division will shortly be transferred to the Archives Center.

The Archives staff, with the help of departmental personnel, has also been preparing retention schedules for records not of a permanent nature but which must be kept for specific period of time. These retention schedules require the approval of the State Supervisor of Public Records.

If you have questions or concern about City records, contact the Archives staff at 364-8679 or write Boston Archives and Records Center, 30 Millstone Road, Hyde Park, MA 02136.

SCHOOL BOARD NOMINATING PANEL BEGINS RECRUITMENT PROCESS

Theodore Landsmark, Chairman of the Nominating Panel seeking candidates for the new Boston School Board today announced three procedures to initiate the search process for applicants to the Board.

"It's important that we get off to a fast start. We want to hit the ground running and avoid the history of indecision of the past," said Landsmark as he outlined the following procedures.

- The draft of a standard application form is being circulated to Nominating Panel members for their comments. A recommended at the first meeting of the Panel on Thursday, August 1, 1991 this standard application form will serve as the basis for applying to serve on the new School Board. In addition to basic background information, the standard application will request individuals to present their own view of the role of a Board member and their vision

how the school system should move forward. Only those completing the standard application form will be considered for nomination to the School Board.

- A post office box has been established in order to ensure the secure and confidential receipt of nominations and applications. Persons interested in receiving the standard application once ready should immediately write to:

Boston School Board Nominating Panel
P.O. Box 8636
F.K. Station
Boston, MA 02114

In addition, those wishing to nominate someone should write to the same address and include the name and address of the person being nominated. A standard application will be mailed to those persons nominated by others.

All other written communication to the Panel should be also sent to the same address. The telephone number for Ted Landsmark is 725-4495.

- A standard notice about the application process is being prepared. This notice will be widely circulated to all media, community newspapers, and be posted in branch libraries and other neighborhood agencies.

"We can't waste any time in trying to recruit the best possible candidates for this important new School Board. We must cast out the widest possible net to recruit a variety of people of good will whose only interest will be the education of the children in the Boston Public Schools and who have the necessary expertise to move the school system forward."

Dates of future meetings of the panel are currently being confirmed with panel members. Notice of the next meeting will be advertised at least 48 hours before the date.

MWRA BREAKS GROUND ON NEW SEWAGE TREATMENT PLANT

The Massachusetts Water Resources Authority today formally broke ground on a \$700 million wastewater treatment

plant that is the centerpiece of the Boston Harbor cleanup.

Boston Mayor Raymond L. Flynn, Julie Belaga, Regional Administrator for the U.S. Environmental Protection Agency, and Susan F. Tierney, Massachusetts Secretary of Environmental Affairs, joined MWRA Executive Director Paul F. Levy and other officials at a ground breaking ceremony on Deer Island in Boston Harbor.

Construction on the new, 1.3 billion gallon a day primary treatment plant began in December of 1990 and will be completed by July, 1995. The new plant will treat sewage from 43 towns and cities in eastern Massachusetts and will replace outdated sewage treatment plants at Deer Island in Boston and Nut Island in Quincy.

"Through the work of the MWRA, Boston Harbor will once again be available to the residents of the city of Boston," said Mayor Flynn. "In my announcement last week with Governor Weld, I said it is our intention to make the beaches accessible to the residents of the City of Boston. The only remaining question to be answered is when the federal and state government will make all of this affordable for the people of Boston," Flynn said.

"This ground breaking is exciting because it represents a major step forward by the MWRA in the cleanup of Boston Harbor," said Belaga. "The primary treatment plant is a major component in an ongoing program to realize Boston Harbor's potential. In the not too distant future the people of Massachusetts will again be able to enjoy this important recreational and commercial resource."

"The beginning of construction on the new primary treatment plant is the fourth major component of the Boston Harbor Project to get under way," said Tierney. "Construction is already in progress on a sludge processing plant in Quincy and two tunnels that will bring wastewater to and from the new plant."

"One look at the construction activity taking place at Deer Island proves that the harbor cleanup is in high gear," added Levy. "More than \$1 bil-

lion worth of pollution control facilities are already under construction. The Boston Harbor Project has already created jobs for 700 construction workers and 600 engineers."

The new plant will provide far greater capacity and better treatment than the region's two existing primary treatment plants, Levy said. Once treated at the new plant, effluent will be discharged to Massachusetts Bay through a nine and one-half mile long outfall tunnel now under construction. Fifty tons of sludge that is now dumped into the harbor each day will be converted to fertilizer at a sludge processing plant now under construction in Quincy.

Primary treatment removes about 60 percent of the solids and 40 percent of the toxins in wastewater. It also reduces biochemical oxygen demand (BOD), the amount of oxygen consumed by pollutants, by 35 percent.

The MWRA will begin work on a secondary treatment plant in January, 1993. That plant, which will be completed in phases between 1996 and the year 2000, will remove 85 percent of solids and 50 to 85 percent of toxins and reduce BOD by 85 percent.

Today's ceremony celebrated the beginning of work on four construction contracts in connection with the new treatment plant. The contracts are:

- A \$97 million contract awarded in February to the Gust A. Newberg Construction Co. of Chicago for the construction of the first two (of a total of four) batteries of primary clarifiers. Clarifiers are large tanks used to settle wastes from sewage during the wastewater treatment process. The primary clarifier facilities were designed by Metcalf & Eddy, Inc. of Wakefield.

- An \$88 million contract awarded in April to a joint venture of the Barletta Engineering Corp. of Boston and Daniel O'Connell's Sons Inc. of Holyoke for the construction of a new headworks at Deer Island. The north system headworks, designed by Metcalf & Eddy, will remove sand and gravel (grit) from raw sewage bound for the new treatment plant. The headworks will also include odor control facilities for the entire primary plant.

(Continued on next page)

- A \$59 million contract awarded in June to a joint venture of the J.F. White Contracting Co. of Newton and PKF Mark III, Inc. of Newtown, Pennsylvania, for modifications to Deer Island's existing north main pump station and Winthrop terminal. Sixteen pumps in those facilities must be replaced in order to lift sewage to the higher elevation of the new treatment plant. Design on the north main pump station/Winthrop terminal was performed by Malcolm-Pirnie, Inc. of White Plains, New York.

- A \$20 million contract awarded in December, 1990 to the joint venture of the Kiewit Construction Co. of Omaha, the Guy F. Atkinson Co. of San Francisco, and Kenny Construction Co. of Wheeling, Illinois, for two half-mile long tunnels that will convey sewage from the north main pump station to the new headworks. The north system tunnels were designed by Malcolm-Pirnie.

The Boston Harbor Project is an 11-year effort, \$6.1 billion effort to control the pollution of Boston Harbor with new wastewater treatment infrastructure, including new primary and secondary treatment plants, 14 miles of undersea tunnels, and a sludge processing plant that will convert sludge into fertilizer and end the dumping of sludge into Boston Harbor.

PABLO CALDERON NAMED EXECUTIVE DIRECTOR OF BOSTON'S EMPLOYMENT COMMISSION

Pablo Calderon was recently named Executive Director of the Boston Employment Commission.

As executive director, Calderon will monitor construction projects and compliance issues in the City of Boston and report his findings to the seven-member commission, staffed by Boston's Economic Development and Industrial Corporation (EDIC).

"Mr. Calderon has demonstrated a strong commitment to Boston's neighborhoods on many levels, as a community activist, leader in the Hispanic community and Egelston Square, busi-

ness person, and Assistant Director of the Boston Resident Jobs Program. His commitment to opening economic opportunity to all neighborhood residents reflects the goal of this administration," Mayor Raymond L. Flynn said.

"The Boston Employment Commission has significantly increased the number of Boston residents, minorities and women in the construction industry in Boston . . . in fact, more than any other city in America. Mr. Calderon's contribution to Mayor Flynn's economic development and employment efforts make him an asset to the residents of Boston," said Donald A. Gillis, Executive Director of EDIC.

Calderon will take on the new post in addition to his current position as Assistant Director, for EDIC's Boston Resident Jobs Policy (BRJP) which enforces and monitors the City of Boston's Minority and Women Business Participation Ordinance.

The ordinance has been very effective in ensuring that Boston residents, minorities and women participate in public and private construction projects. For example, resident participation on public projects averaged an eight-year high of 43 percent for fiscal year '91 and reached a high of 35 percent on private projects. Prior to the 1983 ordinance, Boston residents represented only 11 percent of the workforce on public jobs. Minority and female participation on private projects is also on the rise demonstrating that the ordinance is effective in providing all Boston residents access to construction jobs in the public and private sector.

According to Nancy Snyder, Deputy Director of the Jobs and Community Services division of EDIC, Calderon has an outstanding track record as an advocate in working with downtown developers to secure employment opportunities for the residents of Boston's neighborhoods. "Under the leadership of Pablo Calderon, the number of residents, minorities and women who participate in the workforce has continued to grow despite a downturn in the construction trade," she said.

Frank Jones, Chairman of the BEC had similar praise for Calderon adding "Pablo Calderon brings a wealth of experience and demonstrated commitment to the BEC staff. His energy and focus will be available to the commission in its efforts to vigorously ensure adherence to the Boston Resident Jobs Policy. It is especially important, in the economic climate, that all Boston residents be assured of a fair and equitable share of employment opportunities."

Calderon says he's looking forward to the opportunities this new position presents. "The City of Boston has taken the lead in working with employers to ensure that the city's workforce is representative of the residents that live in its neighborhoods. This appointment will enable me to continue building upon the success that has been accomplished over the past eight years," Calderon said.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the amending of contracts without advertising, based on the following communications:

EDIC/BOSTON

C16125-91

Professional Services

October 23, 1990

Dear Mayor Flynn:

Pursuant to the contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 7, 1990, by which contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated July 12, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to the F.I.R.S.T. Inc., a non-profit corporation, located at 34 Intervale Street, Dorchester, Massachusetts, 02121, for the purpose of providing counseling services.

Under the terms of the contract, the Contractor will provide counseling services to approximately three hundred (300) individuals with substance abuse problems. These services will be funded in conjunction with the State's Department of Social Services (DSS) Public-Private Partnership Program, in which the City contributes up to a twenty-five (25%) percent local share. The Contractor was selected based upon

an evaluation of refunding proposals submitted to both DSS and the former Mayor's Office of Jobs and Community Services (JCS), which is now a division within the Economic Development and Industrial Corporation of Boston (EDIC). Other selection criteria included the results of site monitoring visits conducted by the JCS staff, an overall review of the Contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population. Costs were determined by rates set by the State Rate Setting Commission and a negotiated number of service units, determined by both DSS and EDIC.

Compensation under the terms of this contract shall not exceed twenty-three thousand, three hundred eighty-five (\$23,385.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The amount to be initially encumbered shall be \$5,847.00. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with JCS for this program for the previous three (3) fiscal years at the following funding amounts: FY 88 \$37,325; FY 89 \$36,259; FY 90 \$34,446. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of the JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

Donald A. Gillis,
 Director.

HEALTH AND HOSPITALS DEPARTMENT

Blood Supplies

H-313-91

October 23, 1990

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to American Red Cross, P.O. Box 5291, Boston, Massachusetts 02206 for the period October 1, 1990 through September 30, 1991 at a cost not to exceed six hundred twenty thousand dollars (\$620,000.00).

Under this contract American Red Cross will supply blood and blood products, as well as reference lab services, to the Department. The contract cost is an estimate based on special needs and daily inventory level billed weekly.

Because of the special fitness of American Red Cross to render these services, and because of the special nature of the services to be provided, no benefit would inure to the City by publicly advertising for bids.

In past years American Red Cross has furnished blood and blood products to the Blood Bank for transfusions. American Red Cross has been the 100% supplier of blood and blood products, with the exception of fresh frozen plasma which is supplied by the National Blood Exchange of AABB. The costs for the past three fiscal years have been as follows: 1990, \$620,000; 1989, \$595,000; 1988, \$610,000.

(Continued on next page)

This service is unique in that American Red Cross is capable of supplying 100% blood and blood products which meet the standards of the FDA and Massachusetts Public Health Regulations. The only other known competitor, Nation Blood Exchange of AABB, furnishes fresh frozen plasma only and does not advocate our dependency on them for 100% blood and blood product needs. American Red Cross is also an excellent reference lab for special problem cases.

In view of the above, and as the cost, in my opinion, is reasonable, I recommend approval of this contract.

This contract encompasses more than one fiscal year and the City's financial obligations are subject to the availability of an appropriation in accordance with the requirements of City of Boston Code, St. 4, ss. 4 & 8.

Because all the necessary paperwork had not been returned from the vendor, this award is being processed late.

Very truly yours,
Judith Kurland,
Commissioner.

Medical Storage

C335-91
October 22, 1990

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Iron Mountain Group, Inc., Division of Schooner Capital Corporation, 99 Bedford Street, Boston, Massachusetts 02111 for the period July 1, 1990 through June 30, 1991 at a cost not to exceed one hundred two thousand one hundred fifty dollars (\$102,150.00).

Under this contract Iron Mountain Group, Inc. will provide space for storage of medical records and x-rays at both 32 George Street, Roxbury, Massachusetts and at P.O. Box 770, Milton, New Hampshire as follows:

Part A

Storage Fee		\$63,850
New Hampshire	\$38,850	
Boston	\$25,000	
Services		\$12,500
Courier		\$15,000
Supplies		\$10,800
Cartons	\$10,000	
Labels	\$ 800	

Iron Mountain Group, Inc. was awarded unadvertised contracts for the past three fiscal years in the following amounts: 1990, \$181,000; 1989, \$88,000; 1988, \$48,000.

Therefore, because the medical records and x-rays are presently located at Iron Mountain's facilities (32 George Street, Roxbury, Massachusetts and at P.O. Box 770, Milton, New Hampshire), and because the cost, in my opinion, is reasonable, no benefit would inure to the City by publicly advertising for bids.

This award is being processed late because the request for a contract for these services was submitted October 3, 1990 to the Contract Office after negotiations were completed with the vendor. Therefore, the paperwork could not be processed before the start of the Contract.

Very truly yours,
Judith Kurland,
Commissioner.

RESIDENTS CELEBRATE ORCHARD PARK OPENING

Boston Mayor Raymond L. Flynn was joined by Parks Commissioner Lawrence A. Dwyer, Police Commissioner Roache and other City officials to celebrate the official opening of Orchard Park in Roxbury. Two hundred local residents participated in the festivities which included basketball, facepainting, magic acts, games and a cookout, according to Parks Regional Administrator Jackie W. Cooper.

Orchard Park recently received \$249,000 in improvements, funded by Mayor Flynn's capital improvement plan, "Rebuilding Boston," a five-year, \$1.01 billion investment plan prepared and administered by the Office of Capital Planning.

Renovations included a new ball field, bleachers, 2 basketball courts, two children's playgrounds, fencing, lighting, a bubbler and landscaping.

MAYOR'S OFFICE OF NEIGHBORHOOD SERVICES NAMES GARY WEBSTER TO NEW POST

John Riordan, Director of the Mayor's Office of Neighborhood Services, recently announced the appointment of Gary Webster as Assistant Director of the City Services Unit.

Webster, a lifelong Dorchester resident, will continue in his capacity as a neighborhood coordinator for Mission Hill.

"Gary Webster has done an outstanding job in his seven years of public services in City Hall, and I am confident he will continue to do so in his new position," Riordan said this week. "He is a prime example of how the

Flynn Administration is working for the people of Boston."

Since joining the Flynn Administration in 1984, Webster has brought energy and vitality to the job, first in the city's Assessing Department and then in the Mayor's Emergency Shelter Commission. His skills, experience and commitment to improving the quality of life for the people of Boston led him to the Mayor's Office of Neighborhood Services in 1987.

Webster helped guide Mayor Flynn's ambitious 747 program, which identified 747 vacant lots prime for community development and affordable housing. "It was a successful program, despite local aid cuts that made the job harder," Webster said of the 747 project. "But we're still working on the program, identifying areas for affordable housing development, tot lots and even for use as community gardens."

As a program coordinator in the City Services Unit, Webster helped reorganize the city's approach to maintaining vacant lots, fostering interdepartmental cooperation that resulted in more lots being cleaned at a lower cost. He recently designed the Mayor's "Adopt-A-Lot" program, which brings concerned neighborhood residents together with city resources to beautify vacant lots. He is also actively involved in a unique prisoner community work program that brings improvements to the city's vacant lots at a low cost to the city.

A lifelong Dorchester resident, Webster says he is driven to public service by memories of growing up in the city's neighborhoods and wanting to improve life there for their residents.

(Continued on next page)

(Continued from front page)

"I played in those lots as a kid," said Webster, "and now we have an opportunity to clean them up."

The Mayor's Office of Neighborhood Services provides a direct link between the general public and City Hall, using its staff and resources to facilitate the delivery of basic services to the neighborhoods.

"DANGER & THE CLOWN" FOR CHILDREN AT THE BPL

TOO MUCH SODIUM, TOO HIGH A RISK

Sodium is one of the elements that keeps your body functioning normally. Your health can be affected by the amount of sodium you consume. The right amount helps regulate body fluids inside and outside cells, maintain the pH balance so you can properly absorb the foods you eat, and control body functions such as muscle performance.

Sodium is not the same as salt. Salt is a chemical compound containing sodium and chlorine. There are 2300 milligrams of sodium per teaspoon of salt. The adult human body usually needs only 200 mg. of sodium per day. The average American consumes about 4000-5000 mg. a day. Some experts estimate that 1 gram per 100 calories of sodium is a safe and adequate intake for most people. That's about 1 tsp. of salt.

Too much sodium can threaten your health and lead to hypertension in which pressure within the arteries rises and retains dangerously high. Elderly and black people are more likely than others to develop hypertension. Treatment of hypertension may help prevent heart problems, stroke, and kidney failure. Edema, a condition in which the body retains too much fluid and tissues swell abnormally, can also be associated with excess sodium. Treatment of edema can prevent heart failure, premenstrual tension, and difficulty in walking.

A sodium reduced diet can benefit people who have high blood pressure, mild hypertension, fluctuating blood pressure, heart ailments, and

kidney malfunctions. Major sources of sodium include table salt, processed foods, and the natural content in food and water. Some foods high in sodium are tomato juice, canned vegetables, tuna in oil, and potato chips. Orange juice, raw vegetables, tuna in water, and plain popcorn are low in sodium.

There are several ways to reduce sodium in your diet. Choose unsalted produce, such as fresh and frozen vegetables. Read labels carefully and look for the words "salt," "sodium," or "soda". Taste foods before salting or season with herbs, spices, etc. Try to eliminate salt in recipes and cooking water. When dining out, choose items that are cooked without sauces and ask that meats be broiled without salt. Salt substitutes may be used, but only after consulting a physician because many substitutes contain large amounts of potassium chloride, which may be hazardous to some people.

Develop a sensible attitude toward sodium. Enjoy the natural flavor of food.

His first three films as solo director were also Coward plays and began a career that involved him almost exclusively in lit-

erary adaptations or collaborations with distinguished writers. *Aug. 27: Summertime* (100 min., color, 1955). A spinster from Ohio begins her first European holiday in Venice. A solo canoe expedition to the Arctic Ocean, undertaken by Robert Perkins, who traded a high-paying job in New York City for this 700-mile-long adventure down the Back River, one of Northwest Canada's most remote waterways, is presented. Filming his own journey with an artist's eye and a sensitivity toward the environment, the isolation also takes him on an inner journey in which he searches for new perspectives. A Red Ribbon winner at the American Film and Video Festival. *The Wilderness Idea — John Muir, Gifford Pinchot, and the First Great Battle for Wilderness* (58 min., color, 1989). Combining archival footage and photographs with stunning cinematography shot on location in Yosemite, this timeless film tells the dramatic story of the two founders of American conservation, John Muir and Gifford Pinchot, and their historic battle over the fate of the Hetch-Hetchy Valley in California. Winner of a Blue Ribbon at the American Film and Video Festival. Directed by Lawrence Hott and Diane Garey. *Aug. 29: Scenes from the Life of a Washbasin* (8 min., color, 1988). Directed by Harold Hamrell. Also, *Hopper's Silence* (46 min., color, 1987). Look at one of Edward Hopper's paintings and you feel an immediate emotional response. His sense of light and shadow, of composition, of human drama are remarkable. Brian O'Doherty, a good friend of Hopper and his wife, Jo, has compiled extraordinary archival footage and blended it with interviews, insights, and the paintings themselves to create an exquisite portrait of this quiet artist and his world. Screenplay and direction by Brian O'Doherty. Also, *Sentimental Women Need Not Apply: A History of the American Nurse* (60 min., color, 1988). A revealing examination of the only professional field that has been consistently dominated by women. Fire Fighter Robert L. Dowling, Engine Company 37.

IV. SUSPENSIONS

In accordance with the provisions of Section 20.10 of the Rules and Regulations of the Boston Fire Department, the following-named member have been suspended, without pay, as follows:

Fire Fighter Bernard D. Walker, Ladder Company 29, for a period of one tour, commencing 1800 hours, August 8, 1991 and continuing to 0800 hours, August 9, 1991, for violation of Rule 18.44 (f).

Fire Fighter Timothy Gallagher, Engine Company 17, for a period of four tours, commencing 0800 hours, August 5, 1991 and continuing to 0800 hours, August 10, 1991, for violation of Rules 18.33 (c) and 18.44 (f).

V. HIGH COMMENDATIONS

On May 29, 1991, at 0809 hours, Tower Company, Rescue Company 1 and District 3 responded to a still alarm, Incident No. 17477, for a report of a window washer having a heart attack on the seventh floor ledge at 10 West Street.

Upon arrival of the Tower Company, it was determined that the Tower may not reach the victim and a ladder company was ordered to the scene.

Fire Lieutenant James R. Wall, Fire Fighter Paul J. McCarthy of the Tower Company and Fire Fighter Paul G. Carey of Rescue Company ascended in the bucket to the seventh floor. With the Tower fully extended (95 feet), Fire Fighter McCarthy and Carey left the safety of the bucket and climbed an additional five feet with no pro-

rection beneath in order to reach the unconscious person who was belted in on the seventh floor ledge. They successfully reached the victim and finding the window to be of the fixed sash type, cleaned out the glass, lifted and passed the victim to other members of Rescue Company 1 who were inside.

Because they performed this act without regard for their own safety and at extreme personal risk, reflecting great credit upon themselves and the Boston Fire Department, the Fire Commissioner is pleased to highly commend Fire Fighter Paul J. McCarthy of Tower Company and Fire Fighter Paul G. Carey of Rescue Company 1 and refers their case to the Board of Merit for further consideration.

On May 21, 1991, at 1843 hours, Rescue Company 1 responded to Box 1552, Incident No. 6539, 465 Columbus Avenue, District 4 (two alarms), for a fire which originated in an apartment on the fifth floor of a six-story apartment building.

Fire Fighter Franklin A. O'Leary, Rescue Company 1, entered the stairway where Engine Company 22 was stretching a handline to the fifth floor. Upon reaching the second floor level, heavy smoke banked down in the enclosed stairway making SCBA mandatory at this point. Fire Fighter O'Leary assisted Engine Company 22 on the fifth floor, followed the line into the apartment on fire, encountering heavy smoke and heat, with conditions deteriorating rapidly. Fire Fighter O'Leary, while attempting a primary search, was driven to floor level and remained with members of Engine Company 22 who were operating the handline.

Members were forced to change bottles on their masks. As Fire Fighter O'Leary left the apartment to search for an alternate entrance, he heard a thud which forced the apartment door closed. Aware that the pipeman was inside and while unable to open the door, Fire Fighter O'Leary sat on the floor and while bracing himself on a door jamb, forced the apartment door open enough to gain access. He discovered the unconscious form of Fire Fighter John G. Jackson of Engine Company 22. While encountering great difficulty in attempting to remove Fire Fighter Jackson and operating the line over their heads, Fire Fighter O'Leary observed a light in the hallway belonging to District Fire Chief William W. Hayhurst, Jr. Upon reporting the situation, both members removed Fire Fighter Jackson to a safe refuge where he was revived and transported to New England Medical Center for treatment of smoke inhalation and leg burns.

Because he performed this rescue operation at extreme personal risk and under serious deteriorating fire conditions, the Fire Commissioner is pleased to highly commend Fire Fighter Franklin A. O'Leary for his actions and refers his case to the Board of Merit for further consideration.

The health center provides high quality health services in a neighborhood that has almost no private physicians or other acceptable primary care services. Boston's network of neighborhood health centers provides needed services and has had a significant impact on the health of people in Boston's neighborhoods. Bowdoin Street Health Center, Inc. has been awarded unadvertised contracts for the past three fiscal years in the following amounts: 1990 — \$60,750; 1989 — \$60,750; 1988 — \$45,750. Therefore, because of the professional nature of the services to be rendered, because the aforementioned is particularly suited to provide these health care services, and because the cost to the City is reasonable, no useful purpose would be served by publicly advertising for bids.

This award is being processed late because the documents were not received from the vendor until after the start of the contract period.

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request Your Honor's permission to enter into a contract, and thereby make a grant to the following Community Health Center in the amount indicated for the period July 1, 1990 through June 30, 1991.

The purpose of this grant is to enable the aforementioned participants to meet the responsibility placed upon them by the City of Boston Primary Care Districting Plan. The Department of Health and Hospitals has entered a contract with the Brookside Community

Health Center to provide primary care services in Jamaica Plain for nineteen years. Judith Kurland,
Commissioner.

November 21, 1990

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request Your Honor's permission to dispense with public advertising and award a contract to Harbor Health Services, Inc., formerly, Columbia Point Health Center, 250 Mt. Vernon Street, Dorchester, Massachusetts 02125 for the period July 1, 1990 through June 30, 1991 at a cost not to exceed fifty-eight thousand dollars (\$58,000).

C. 278-91

December 6, 1990

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request Your Honor's permission to dispense with public advertising and award a contract to Dimock Community Health Center, 55 Dimock Street, Roxbury, Massachusetts 02119 for the period July 1, 1990 through June 30, 1991 at a cost not to exceed one hundred seventy-eight thousand dollars (\$178,000).

Under this contract medical services are provided for residents of the Roxbury Community through the operation of a private, non-profit medical care clinic. The health center provides three basic primary care services: adult medicine, pediatrics, and obstetrics/gynecology. Department of Health and Hospitals funded health centers play a major role in the delivery of ambulatory care throughout the City.

The Department of Health and Hospitals has entered a contract with the Dimock Community Health Center to provide primary care services in Roxbury for eighteen years. The health center provides high quality health services in a neighborhood that has almost no private physicians or other acceptable primary care services. Boston's network of neighborhood health centers provides needed services and has had a significant impact on the health of people in Boston's neighborhoods. Dimock Community Health Center has been awarded unadvertised contracts for the past three fiscal years in the following amounts: 1990 — \$153,500; 1989 — \$153,500; 1988 — \$153,500.

Therefore, because of the professional nature of the services to be rendered, because the aforementioned is particularly suited to provide these health care services, and because the cost to the City is reasonable, no useful purpose would be served by publicly advertising for bids.

This award is being processed late because the documents were not received from the vendor until after the start of the contract period.

Very truly yours,

Judith Kurland,
Commissioner.

Laboratory Services

C255-91

October 11, 1990

Dear Sir:

An invitation for applications to provide Dental and Orthodontic Laboratory Services to the Whittier Street Clinic and Boston City Hospital was advertised in the City Record on May 21, 1990. Four companies were solicited and the following application was received:

New England Orthodontic Laboratories
48 Mystic Street
P.O. Box 227
Arlington, MA 02174

Under this contract, the vendor will perform dental and orthodontic laboratory services for the Whittier Street Clinic and Boston City Hospital.

Therefore, pursuant to the authority delegated to me by the Board of Health and Hospitals, your approval is hereby requested to award a contract to New England Orthodontic Laboratories for the period July 1, 1990 through June 30, 1991, at a cost not to exceed five thousand five hundred eighty-two dollars (\$5,582).

The award is being processed late because the

(Continued on next page)

documents were not received from the vendor until October, 1990.

Very truly yours,
Judith Kurland,
Commissioner.

Maintenance Services

H333-91
November 9, 1990

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to PPG Industries, Inc., One PPG Place, Pittsburgh, Pennsylvania 15272 for the period December 22, 1990 through December 21, 1991 at a cost not to exceed six thousand eight hundred four dollars (\$6,804).

Under this contract PPG Industries, Inc. will provide two (2) preventive maintenance checks and emergency repair service, Monday through Friday (8:30 a.m. - 5:00 p.m.), including parts for the PPG Recording System EVR-180 located in the Electrophysiology Laboratory at Boston City Hospital.

Unadvertised contracts were awarded to PPG Industries, Inc. for the past two years in the following amounts: 1990, \$6,804; 1989, \$6,804. Prior to this, the equipment has been under warranty.

Therefore, because PPG Industries, Inc., the manufacturer of the equipment, is the only vendor that can supply appropriate and timely service, and has technicians trained specifically for repairing the equipment, at a cost I consider reasonable, no benefit would inure to the City by publicly advertising for bids.

This contract encompasses more than one fiscal year and the City's financial obligations are subject to the availability of an appropriation in accordance with the requirements of City of Boston Code, St. 4, ss. 4 & 8.

Very truly yours,
Judith Kurland,
Commissioner.

H364-90
October 18, 1990

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Meditech Circle, Westwood, MA 02090 for the period March 1, 1990 through February 28, 1991 at a cost not to exceed thirty-three thousand four hundred eighty dollars (\$33,480).

Under this contract Meditech will provide software maintenance for the Meditech Laboratory Information System located at Boston City Hospital between 9 a.m. and 5:30 p.m. Monday through Friday. There have been no previous contracts between Meditech and Boston City Hospital.

In view of the above, because the Meditech Laboratory Information System is a proprietary software and because the cost, in my opinion is reasonable, no benefit would inure to the City by publicly advertising for bids.

Because of negotiations over terms and conditions between the Legal Office of the Department and the vendor this award is being processed late.

Very truly yours,
Judith Kurland,
Commissioner.

C326-91
September 17, 1990

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to award a contract, without advertising to Star Datacom, Inc., 100 Messina Drive, Braintree, Massachusetts 02184 for the period July 1, 1990 through June 30, 1991 at a cost not to exceed ninety-nine thousand two hundred two dollars and thirty-two cents (\$99,202.32).

Under this contract the vendor will maintain the NEAX-12L electronic PBX switches at Mattapan and Long Island Hospitals. The maintenance cost for each Mattapan and Long Island switch is ten thousand six hundred one dollars and sixteen cents (\$10,601.16). An additional sum of seventy-eight thousand dollars (\$78,000) is added to cover the costs for moves, changes and additions to the system to be billed at the rate of \$65.00/hr. for regular/straight time.

The above services along with maintenance of the Boston City Hospital (BCH) telephone system were publicly bid for fiscal 1989 and Star Datacom, Inc. was the sole bidder. The contract was extended for fiscal 1990 in the amount of two hundred twenty-two thousand five hundred dollars (\$222,500), and during the contract period the (BCH) system was replaced by a NYNEX system which will ultimately be installed for the entire City. It is expected that Mattapan and Long Island Hospitals will be transferred to the NYNEX system at some point during fiscal 1991.

In view of the above and because the cost, in my opinion, is reasonable no benefit would inure to the City by publicly advertising for bids.

This contract is being processed late because the vendor did not return the documents until after the start of the contract period.

Very truly yours,
Judith Kurland,
Commissioner.

LOCAL COMPANIES WIN \$189 M. HARBOR CLEANUP CONTRACT

A joint venture of two Massachusetts companies today won a \$189 million contract for the construction of eight sludge digesters as part of the Boston Harbor Project.

The Board of Directors of the Massachusetts Water Resources Authority awarded a \$188,807,000 contract to the joint venture of the Perini Corp. of Framingham and the Eastern Contractors, Inc. of Framingham. The contract is the second-largest construction contract in the \$6.1 billion cleanup of Boston Harbor.

Digesters stabilize sludge through a mixing and heating process. The digestion process, which takes 10 to 22 days, cuts the volume of sludge by almost half and reduces bacteria that can cause odor and disease. Methane gas produced by the digesters will be used to heat the treatment plant.

The eight digesters to be constructed by Perini/Eastern will process sludge from a new primary wastewater treatment plant now under construction at Deer Island.

Sludge consists of fecal matter and other solids removed from sewage during wastewater treatment.

"We are pleased that two Massachusetts companies will share this major contract award," said Richard D. Fox, Director of Program Management for the Authority. "An additional 17 local companies will share \$31 million in subcontracts for specialized work on the contract. The construction of the digesters will provide jobs for as many as 400 workers, most of whom will be Massachusetts residents," said Fox, who directs all engineering and construction on the Boston Harbor Project.

The award to Perini/Eastern brings to nearly \$900 million the value of harbor cleanup construction contracts won by Massachusetts companies. The project has provided work for 34 prime contractors and 128 subcon-

tractors and currently employs 700 construction workers.

Construction on the digesters will begin later this month and will be completed by June of 1994, in accordance with the federal court order governing the harbor cleanup. The timely award of the digester contract is the ninth major court-ordered milestone on the harbor cleanup the Authority has successfully met to date.

Eight additional digesters, which will process sludge from a secondary treatment to be built on Deer Island, will be constructed between 1993 and 1999 under two separate contracts. There will be a total of 16 digesters at Deer Island.

Perini is an internationally recognized builder and developer with headquarters in Framingham. Eastern Contractors is a minority-owned construction company that will receive 13 percent of the total contract value. The joint venture submitted the lowest of six bids received by the Authority on August 1st. Perini/Eastern bid was nearly \$30 million less than the engineer's estimate of \$218.8 million.

The contract is for the construction of eight welded steel sludge digesters and related facilities. The egg-shaped digesters will rise 110 feet above ground (as high as a five-story building) with a diameter of 90 feet and a capacity of three million gallons each.

The contract also requires the construction of six concrete gravity thickener tanks 30 feet high with a diameter of 73 feet. The tanks are used to thicken sludge before it is transferred to the digesters for further processing.

Also included in the contract are the construction of two 139-foot high by 90-foot diameter storage tanks in which digested sludge will be stored until it is ready to be transferred to a barge that will take it to the Authority's sludge processing plant now under construction at the Fore River Shipyard in Quincy. At the Quincy plant, digested sludge will be converted to a pellet fertilizer.

The contract also includes the construction of a four-story concrete support building for the sludge thickener complex, and a five-story concrete support building for the digesters. These structures house pumps, controls and odor control facilities.

The egg-shaped design of the digesters is unusual in the United States, although egg-shaped digesters have long been used in Europe, particularly Germany, and in Japan. Egg-shaped digesters allow for more thorough mixing of the sludge than conventional cylindrical digesters and are self-cleaning, eliminating the need to shut them down for cleaning. Egg-shaped digesters also take up about half as much space as conventional digesters. The 16 egg-shaped digesters to be built at Deer Island will cover about five acres.

Local companies that will serve as subcontractors to Perini/Eastern include: Gibbs-McAllister, Inc. of Randolph, \$4.4 million contract for plumbing; William Gens & Son/Norfolk Electric of Boston, a \$10.9 million contract for electrical work; Empire Ma-

sonry Corp. of Norwood, a \$3.3 million contract for masonry; Southeastern Metal Fabricators of Rockland, a \$1.4 million contract for iron work; Chapman Waterproofing Co. of Boston, a \$826,020 contract for waterproofing and caulking; Soep Painting Corp. of Malden, a \$2.6 million contract for painting; J.C. Higgins Corp. of Stoughton, a \$1.9 million contract for plumbing.

Other local subcontractors to Perini/Eastern include: Titan Roofing, Inc. of Chicopee, a \$435,000 subcontract for roofing; Harmon Contract of Wilmington, a \$309,996 subcontract for metal windows and a \$96,772 for glass and glazing; JRJ Construction Co., Inc., of Woburn, a \$12,768 contract for lathing and plastering; Merrimac Tile Co., Inc., of Derry, New Hampshire, a \$47,008 contract for tile work; Component Assembly Systems Inc. of Medford, a \$16,950 contract for acoustical tile; DePaoli Mosaic Co. of Boston, a \$82,882 contract for terrazzo; Dover Elevator Co. of Norwood, a \$210,000 contract for elevators.

Women-owned companies that have subcontracts with Perini/Eastern include: Gabrielle Co., Inc. of Boston, a \$2.5 million contract for hoisting and crane services; Salem Glass Co. of Salem, a \$376,200 contract for aluminum doors, skylights and panels; and Capitol Steel of Hartford, Inc. of South Windsor, Connecticut, a \$1.2 million contract for the installation of reinforcing steel.

CAR SEAT LOAN PROGRAM FOR CITY EMPLOYEES

Four-month-old Alexander Casey, visiting from California, reclines in a Keep Boston Moving . . . Safely infant car seat on loan to his Uncle John, a Public Works employee, as Deputy Commissioner of Transportation Bill Good looks on. As part of a community traffic safety grant awarded to the BTB by the Massachusetts Governor's High-

way Safety Bureau, the Keep Boston Moving . . . Safely Steering Committee devised this short-term loaner program for City employees.

As we know, Massachusetts law requires that children twelve years of age and under be restrained in a safety belt or child car seat when riding in a private motor vehicle. The fine for non-compliance is \$25 per unrestrained child and is imposed on the driver of the

vehicle. It is worth noting that Massachusetts has a low safety belt usage rate among adults. Even with the child passenger safety law in place since 1986, it is not uncommon to observe little ones riding unrestrained or in an adult's lap in the front seat of a car.

A baby may weigh very little, but in an accident its apparent weight increases dramatically. Consider, if you will: in a crash as slow as 10 mph, the forces on front seat occupants can reach 20 times the force of gravity. An unrestrained 12-pound child will exert a 240-pound force on the arms of the person holding it. Under such conditions the baby would be almost impossible to hold. If an unbelted adult is holding the baby, that infant can be crushed between the adult and the instrument panel.

Let Keep Boston Moving . . . Safely help you protect yourself and the children you care about.

Any City of Boston employee is eligible to borrow an infant and/or toddler seat made available through the City Hall nurse, Geraldine Wyse, R.N. Ms. Wyse, a member of the Keep Boston Moving . . . Safely Steering Committee, volunteered to manage the loaner program and can provide more information to interested parties. She can be reached at 725-4983, Monday through Friday.

"ILLUSTRATED FANTASY" ON EXHIBIT AT BPL

"Divinia," an illustrated exhibition of fantasy and myth by artist Cathy Wysocki, will be on exhibit in the Great Hall of the Boston Public Library in Copley Square during the month of September.

For the past 10 years Ms. Wysocki's work has been exhibited in a number of group shows and in 1987, her work was featured at the Zoe Gallery on Newbury Street in Boston.

A whimsical tale about a girl who feels she has no purpose in life, "Divinia" often takes baths to dream and search for some meaning to her exist-

ence. One night she enters into a dream that takes her to the moon where she has been chosen to bring back the moon's missing waters. During the mission she encounters various personalities, creatures, and phenomena.

The exhibition, which begins September 3rd and runs through September 28th, is free and open to the public Monday to Thursday, 9 a.m. to 9 p.m. and Friday and Saturday, 9 a.m. to 5 p.m.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the amending of contracts without advertising, based on the following communications:

LAW DEPARTMENT

Legal Services

2395-91

December 10, 1990

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Joseph Feeney, an individual located at 35 Surfside Lane, Quincy, MA 02171.

Under the terms of the contract, the Contractor will work as an expert real estate appraiser and expert witness at trial assisting the City of Boston in the case of *O'Malley v. Board of Appeal and City of Boston*, C.A. No. 88-250.

Compensation under this contract shall not exceed five thousand dollars (\$5,000) at the hourly rate of one hundred dollars (\$100), which I have determined to be reasonable for the work to be performed. The term of this contract shall be from December 4, 1990 to December 14, 1990.

The contractor is specially qualified to perform the above duties due to long experience in the field of real estate appraisal and in the issues involved in this case. Because of the special nature of the services to be performed, and the reasonable cost of those services, I believe that public advertising would serve no useful purpose.

This contract is being filed late due to the fact that the services of the contractor were needed on short notice to assist in the City's defense of this action.

Very truly yours,
Joseph I. Mulligan.

2396-91

January 18, 1991

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award an employment contract to Teresa Agresti, an individual located at Boston City Hall, Room 621, Boston, MA 02201. This contract is exempt from the provisions of G.L. c. 30B and is awarded under the authority of the City Charter.

Under the terms of the contract, Ms. Agresti, will provide services to the Tax Title Division of the Law Department which will include obtaining addresses of equity owners, mortgagees and other parties of interest in properties in Tax Title. Ms. Agresti is uniquely qualified to do this work because of her telephone experience and research ability.

Compensation under this contract shall not exceed five thousand dollars (\$5,000). Payment shall be made at the rate of eight dollars (\$8.00) per hour. I have determined this amount to be reasonable.

The term of this contract shall be from January 30, 1991 through April 30, 1991.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Very truly yours,
Joseph I. Mulligan.

LIBRARY DEPARTMENT

Periodicals and Serials

2439-91

December 24, 1990

Dear Mr. Mayor:

The Board of Trustees in charge of the Library Department of the City of Boston respectfully requests the approval of your Honor for the award of a contract, without public advertising, to the Faxon Company, Inc., 15 Southeast Park Westwood, Massachusetts, for supplying to the Boston Public Library periodicals and serials. The Faxon Company is to supply each periodical and serial indicated in the specifications of the contract during the period January 1, 1991 through June 30, 1991. In addition, that company guarantees that subscriptions in those periodicals and serials will be maintained, furnished, delivered, and serviced for the remaining portion of the current terms.

The Faxon Company is the only serial subscription agency that is in a position to supply all of the serials in this contract. The Boston Public Library is currently wholly dependent on the FAXON LINX services for the check-in of serials currently received (including automatic claiming of items missing). In addition the Library's Reference Services depend on the FAXON LINX database which is a unique, proprietary database.

The matter of service and of continuity of receipt of periodicals and serials is of the highest importance. Missing issues, resulting from delays in renewing subscriptions, lower the quality of service. To prevent that gap in service to the public, many libraries have placed "till forbid" orders with their subscription dealers. Under such an arrangement the agency sends to the library in August each year a preliminary invoice which is examined and on which any necessary additions or deletions are made. The agency then prepares a final invoice and automatically renews with the publishers the subscription seven months in advance of their expiration, thus eliminating gaps in the Library's files. This also reduces the amount of paper work involved in the renewing procedure. The "till forbid" arrangement was in effect last year in connection with Library's 1990 contract with the Faxon Company, Inc.

Inasmuch as it appears to be in the best interest of service to the public and of economy of operation, it is recommended that the Boston Public Library periodical and serial subscription for 1991 be placed on a similar "till forbid" basis with the Faxon Company, Inc. The Company will base its charges on the cost to it of each title plus a service charge per title, the same formula used by it computing its prices for previous years. For this present contract it is estimated that the total cost will not exceed one hundred ninety-two thousand twenty-five dollars and eight-seven cents (\$192,025.87). In the opinion of the Official, the cost is reasonable for the service to be rendered.

In view of the circumstances outlined above, public advertising would serve no useful purpose.

With the award of this contract, the Trustees of the Public Library of the City of Boston will not be able to order periodicals and serial publications.

ions from The Faxon Company. That will allow the general public's needs and interests to be served more efficiently.

Respectfully,
Board of Trustees in Charge
of the Library Department
of the City of Boston.

Associate Director.

The contractor was selected based upon a thorough evaluation of the proposal submitted in response to a publicly advertised request for proposals in the *Boston Globe* on March 5, 1989 and the *City Record* on March 5, 1989.

A selection committee, consisting of members of the Public Facilities Department's Development Division, evaluated proposals based on the following eligibility and selection criteria: community based non-profit organization, low-moderate income census area, neighborhood location, readiness to start construction, and feasibility of project. The non-profit organizations which met the eligibility and selection criteria are listed below:

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe public advertising would serve no useful purpose. Design of Street Tree Program

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on September 27, 1990, I respectfully request Your Honor's written permission to dispense with public advertisement and award a contract to Cortes Associates, a sole proprietorship with offices at 44 Brattle Street, Cambridge, MA 02138, for landscape architectural services for the City Wide 1991 Street Tree Program. Scope of work includes preliminary design, design development, working drawings and construction supervision.

Compensation under this contract shall not exceed \$25,845 (including \$1,500 for supplementary services), which is fixed fee of 7.9% based on an estimated cost of construction of \$309,155, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be for 104 weeks from the date of execution.

Pursuant to M.G.L. C. 7, 38A 1/2-0 et seq., Cortes Associates was awarded the contract based on a publicly advertised request for proposals in the *Boston Globe* and *City Record* on July 2, 1990, and the *Central Register* on July 4, 1990. The Public Facilities Designer Selection

Committee evaluated 14 proposals employing a numerical matrix system. The numerical matrix rating for a firm reflects the combined score of each Committee member's ranking of this firm and thus the recommended firm has the lowest number. The numerical matrix rating summary of the three finalists, in order of rank, was as follows:

Cortes Associates	4

Environmental Site Assessments

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on July 12, 1990, I respectfully request Your Honor's written permission to dispense with further public advertisement and award a contract to Rizzo Associates, Inc., a corporation with offices at 235 West Central Street, Natick, MA 01760. Under the terms of this contract the contractor will provide environmental site assessment for properties to be developed through Public Facilities Project 747. This shall ensure site approval by Project 747 lenders, protect the City from any liabilities in conjunction with presence of hazardous materials and protect people and the overall environment.

Compensation under this contract shall not exceed twenty-five thousand dollars (\$25,000), which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from August 13, 1990 to June 30, 1991. The submission of this proposal has been delayed due to the lengthy negotiations concerning the liability clause referenced to in the Standard Contract; a supplementary clause has been incorporated. Funds for this contract shall come under those received under the Community Development Block Grant Program.

Rizzo Associates, Inc. was selected based upon a thorough evaluation of a proposal submitted in response to a publicly advertised request for proposals in the *Boston Globe* on May 21, 1990 and in the *City Record* on May 28, 1990.

Fifteen firms responded and were evaluated based on the following: financial stability; experience and professional level of staff; experience with similar types of projects; and the ability to provide sufficient insurance. The top two (2) firms selected and their ranking are as follows:

- 1) Rizzo Associates, Inc.
- 2) WCH Industries, Inc.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Engineering Services

Dear Mr. Mayor:

I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Hayden-Wegman, Inc., a Massachusetts corporation with offices at 214 Lincoln Street, Boston, to provide Engineering Services for the reconstruction of Various Public Roadways in the City of Boston.

The above services will include, but not be limited to; preliminary drawings, contract documents and construction supervision.

Following the advertisement of this project in the *City Record* on July 30, 1990, we received twelve Qualifications. Of these twelve, three were invited to submit detailed proposals:

Bryant Associates, Inc.
Gannett Fleming, Inc.
Hayden/Wegman, Inc.

The proposals were carefully evaluated by the Selection Committee composed of senior staff from my department. The committee considered factors such as cost, understanding of the work to be done, the proposed project personnel, previous corporate experience, and the proposed work schedule. The Committee recommended the firm of Hayden/Wegman, Inc., and I agree with the Committee's recommendation.

Compensation under this contract is not to exceed two hundred forty-six thousand nine hundred ninety dollars (\$246,990), an amount which we have determined to be reasonable cost for the work to be performed. The term of this contract shall be for 24 months from November 8, 1990, to November 8, 1992.

In view of the technical and professional nature of the services, and the selection process used, it is my judgement that further public advertising would serve no useful purpose in this instance.

Very truly yours,

Joseph F. Casazza,
Commissioner.

Dear Mr. Mayor:

Compensation under this contract shall not exceed three thousand dollars (\$3,000), which I have determined to be reasonable for the service to be performed. The term of this contract shall be from October 1, 1990 to June 30, 1991.

Because West Publishing Co. is the only publisher and supplier of these materials, and their

reasonable cost, I believe that public advertising would serve no useful purpose.

Insurance

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Anthony O. Harris Insurance Agency, located at 4 Copley Place, Suite 135, Boston, MA 02116 to assist the City in obtaining Property and Casualty Insurance coverage for Boston City Hospital. Boston City Hospital. The contractor is fully qualified to perform these services due to its expertise in Property and Casualty Insurance and knowledge of the Boston City Hospital building project.

Compensation under this contract shall not exceed nine thousand dollars (\$9,000) which I have determined to be reasonable. The term of this contract shall be August 15, 1990 through June 1, 1991.

Because Anthony O. This award letter is being submitted late because it was not brought to my attention by the Federal Housing Administration until recently that this coverage was necessary.

OFFICIAL CHRONICLE, MUNICIPAL AFFAIRS

PRESIDENT, CITY COUNCIL

NO. 36

MAYOR FLYNN ANNOUNCES NEW DOMESTIC VIOLENCE INITIATIVES

Mayor Flynn recently joined with battered women's advocates and city officials to reaffirm the city's commitment to opposing violence on all levels, particularly violence against women in the home, by announcing several new initiatives for battered women.

Mayor Flynn stated: "Home is not always the sanctuary that most of us now it to be. For women especially, the home can be a dangerous place. It is a sad fact that battering is the most common cause of injury to women in this country — more common than automobile accidents, muggings, and rapes combined. Furthermore, in sixty percent of homes where a woman is beaten, the children are also abused."

In order to address this issue, at Boston City Hospital, a battered woman's advocate will be hired whose services will be available 24 hours a day. This position will be the first program of its type in the city in that it will provide support and advocacy to battered women coming through the adult emergency room as well as to mothers of abused children. This woman's advo-

cate will be bilingual so that no woman will be denied access to this service.

Additionally, as part of the new community policing plan, multi-lingual materials on domestic violence will be available at all neighborhood contact points and all area police stations. Connections between neighborhood police officers, area battered women's groups, and com-

munity service agencies will also be established.

These new initiatives are part of the city's ongoing efforts to address the crime of domestic violence. These efforts include training for city departments on how to appropriately assist victims of domestic violence, multi-lingual educational campaigns, and advocacy for stronger federal and state laws to protect battered women.

Mayor Flynn concluded: "By continuing to work together to address the problem of violence we help to break the cycle of violence and despair that domestic violence begins, and we reaffirm our commitment to the right of all women and their children to live in safety, free from fear."

MORE THAN 2,000 KIDS GIVEN ALTERNATIVE TO LIFE ON THE STREETS

A group of local youngsters joined the United Way of Massachusetts Bay, the Greater Boston YMCA, and the Boys and Girls Club of Boston today to celebrate the fourth annual Neighborhood Response Collaborative, held at The Strand Theatre in Dorchester.

The purpose of the Neighborhood Response Collaborative is to develop enrichment activities which provide youth with constructive alternatives to life on the streets, drugs, crime and other such problems.

By the end of this summer, more than 2,000 youngsters will have benefited through the Neighborhood Response Collaborative.

"The United Way of Massachusetts Bay is pleased to continue our role as

partner with the City of Boston and neighborhood agencies in support of the Neighborhood Response Collaborative this year," said Cecilia Soriano-Bresnahan, United Way of Massachusetts Bay board member, and Partner, Boston Communications Group. "It is critically important to improve the quality of life for the youth in our community."

The agencies participating in the Neighborhood Response Collaborative are comprised into two groups: the Dorchester Collaborative, and the Roxbury Collaborative.

The Dorchester Collaborative is made up of the following agencies: Federated Dorchester Neighborhood House's Log School; the Dorchester YMCA; La Alianza Hispana; the Bird Street Youth Center; and The Strand Theatre.

It serves 70 children from Dorchester between the ages of 10 and 14. Groups of 8-10 children each from the collaborating agencies enjoy morning recreational and other activities at a host site, followed by afternoon workshops at The Strand Theatre in various performing arts with accomplished artists. The program operates from 9:30 a.m. to 3:30 p.m., Monday-Friday in two four-week sessions.

"The YMCA of Greater Boston is proud to be a partner in The Strand Theatre Summer Program," said Peter B. Post, President of the Greater Boston YMCA. "Effective partnerships are those which identify problems and develop a coordinated plan to solve them."

"The program is for kids to like, not to hate," said Demetrius Cobb, 10, a member of the Bird Street Youth Center. "When we come to The Strand, we act and we dance. We have a 'fresh' time — that means we like it."

The Roxbury Collaborative is made up of the following agencies: Roxbury Boys and Girls Club; Roxbury Multi-Service Center; La Alianza Hispana; Metro-Boston Alive; Dudley Street Neighborhood Initiative; and the Boston Housing Authority.

It serves 13-17-year-olds in the Roxbury, Dorchester and Mattapan communities. Nearly 300 youth participate in the "Teen Time" program, which operates from Tuesday-Friday from 6-10 p.m. and on alternate Saturdays. "Teen Time" is a multicultural program which provides structured recreational and educational activities.

"All in all, this is an exciting program that provides necessary opportunities for young people within the many communities this program serves," said Richard Ward, Director of the Roxbury Boys and Girls Club. "It's great to see agencies come together to form a collaboration to benefit the kids, and the kids feel the unity."

"The best things about the Club are summer camp, field trips, games, and all the other exciting things we do," said Lanevea Vaughn-Boswell, 10, a member of the Roxbury Boys and Girls Club. "Some staff are strict and some staff understand you more. It's a great place to be."

MWRA SIGNS RESEARCH AGREEMENT WITH USGS

The Massachusetts Water Resources Authority and the U.S. Geological Survey have signed a \$1,200,000 inter-agency research agreement for special environmental studies of Massachusetts Bay. The new agreement will continue a successful, cooperative effort for an additional three years; each party contributing 50 percent of the costs. Ship time is being contributed by U. S. Coast Guard on the USCG Cutter WHITE HEATH.

In 1995, sewage effluent from the new Deer Island wastewater treatment plant will be discharged through a nine-mile long diffuser into water 120 feet deep in Massachusetts Bay. The outfall tunnel, with a diameter of 25 feet, will be the largest tunnel of its type in the world and is being bored through solid rock 400 feet beneath the ocean floor. Under a previous interagency agreement with the MWRA, the USGS over the past two years had been making continuous measurements of ocean currents near the outfall location. In addition

to other oceanographic studies, they have completed a detailed geological map of the sea floor in the outfall area that will greatly aid the design of a future monitoring plan. USGS scientists conducting this work are members of the branch of Atlantic Marine Geology located in Woods Hole.

Under the new agreement, the USGS scientists will measure sediment motion, as well as changes in physical and chemical characteristics of sediment — particularly sediment that is resuspended during major storms. Sediment sampling and detailed sediment mapping will be extended over wider areas of the Bay. A three-dimensional circulation model will be developed and tested. Understanding how seawater and bottom sediments move in western Massachusetts Bay will help the MWRA predict how particles released through the ocean discharge tunnel move away from the outfall area and where they will end up being deposited as sediments.

Paul Levy, MWRA Executive Director, said: "This agreement is part of the MWRA's commitment to ensure that the cleanup of Boston Harbor will not harm Massachusetts Bay."

A rate of \$8 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the City Record. The results of the research will allow the MWRA to better define which areas of Massachusetts Bay will be most affected by discharges through the new ocean discharge tunnel and on which areas to focus future monitoring. The MWRA has a long term Outfall Monitoring Program to provide information about the conditions at the outfall site and around the bay. This project will help in the ongoing planning of the long-term monitoring and in distinguishing outfall related changes from natural variations.

MWRA Director of Environmental Quality, Dr. Michael Connor, said: "These studies will provide us with vital information we need in order to plan for the future. The knowledge to be gained from these studies is crucial to measuring the success of the Boston Harbor Project."

This cooperative research agreement will enable the MWRA to take advantage of information generated by other parts of the USGS scientific effort in Boston Harbor and Massachusetts and Cape Cod Bays. This project is coordinated with the Massachusetts Bay's Program, a joint state-federal research and planning program.

Through the National Coastal Geology Program, USGS also received an additional \$500,000 appropriation from Congress for Fiscal Year 1991 to be used specifically for Massachusetts Bay studies.

"MADE IN MASSACHUSETTS" FILM SERIES AT BPL

A collection of Hollywood films "Made in Massachusetts" will be featured during a three-month series at the Boston Public Library in Copley Square on Monday evenings beginning September 9th.

Following World War II, Hollywood abandoned its sound stages and back lots for more authentic locations. From the rolling hills of the Berkshires to the cobblestoned streets of Beacon Hill, the Bay State has been a continuing attraction for moviemakers during the past 45 years.

which wrote: "Dubus writes with searing candor, grace and tenderness in these autobiographical essays. He celebrates the small daily sacraments of love, recalls growing up in Cajun-Creole Louisiana, gauges the sadness of America while riding a Boston-San Francisco train, and describes an encounter with a ghost in a house in Provincetown. The powerful closing section focuses on the 1986 car accident that crippled Dubus, leading to the breakup of his marriage and the enforced separation from his two small daughters. A soul-baring self-portrait, this magical volume contains some of the finest personal essays in recent memory."

An autographing session and reception will take place at the Harvard Book Store Cafe on Newbury Street following the reading.

The Tuesday evening program will be held in the Rabb Lecture Hall and is free and open to the public. For more information, please call 536-5400, Ext. 336.

On July 29, 1991, at 1545 hours, Fire Fighter Gilbert Quinchia, Engine Company 30, while off duty on Washington Street, District 12, observed a young male attack another with a knife. Fire Fighter Quinchia immediately went to the aid of the victim who was not breathing. Without personal protection, he proceeded with CPR on the victim for approximately ten minutes with assistance by a civilian until relieved by members of Boston Health and Hospitals.

Because he performed this act without regard for his own safety, reflecting credit upon himself and the Boston Fire Department, the Fire Commissioner is pleased to commend Fire Fighter Gilbert Quinchia, Engine Company 30, and makes this commendation a part of his personnel folder.

On August 13, 1991, at approximately 1515 hours, Fire Fighter Richard B. Gordon of Ladder Company 16, while in the rear yard of quarters, heard loud, intense screaming coming from the adjacent yard. Fire Fighter Gordon ran to the yard via Canterbury Street. He entered and observed a Doberman dog in the act of mauling two children, ages six and ten. CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the amending of contracts without advertising, based on the following communications:

BOSTON TRANSPORTATION DEPARTMENT

C. 3699-91

December 17, 1990

Professional Services

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award an employment contract to Gretchen M. Ashton, 131 Wilmington Avenue, Dorchester to perform the service of Commuter Mobility Manager for the Boston Transportation Department. This request is not subject to Chapter 30B of the General Laws because it is an employment contract. This request is an interim measure to address the situation that has arisen as a result of the apparent in-

validity of an unadvertised contract entered into with CARAVAN For Commuters Inc. on September 28, 1990. Under that contract Ms. Ashton was assigned to the Transportation Department to manage the City's commuter mobility program.

CARAVAN has informed the Department that it has not received any payment under the contract for services rendered to the City since October 1, 1990, and that it will not provide any further service until that contract is validated and the past payments are received. Thus, Ms. Ashton's services and the City's commuter mobility program ceased on December 14, 1990.

The retention of Ms. Ashton's services is essential to the continuation of the City's commuter mobility program. Without these services the Department will be unable to provide ongoing support to the more than 23 downtown buildings employing more than 100,000 workers which are members of the City's Commuter Mobility Program. More importantly, Ms. Ashton is writing a grant to the Urban Mass. Transit Authority for the development of four, city-wide Transportation Management Associations. Creating and supporting these associations is a key aspect of expanding services to a wider network of businesses and is particularly important with the pending Central Artery/Tunnel Project that will strain the already overloaded transportation network.

Ms. Ashton is uniquely qualified to undertake the job responsibilities of a Commuter Mobility Manager. Since 1988 she has been employed by CARAVAN For Commuters Inc., a private non-profit company established to provide comprehensive transportation services to commuters and their employers and to facilitate transit and shared ride transportation alternatives to drive alone commuting. Ms. Ashton has been assigned by CARAVAN to the Transportation Department since 1988. Among her many accomplishments, Ms. Ashton has facilitated the development of parking management plans and commuter mobility programs for numerous businesses and buildings in the City, conducted a variety of commuter surveys for businesses and developed specific work plans related to demand management strategies and actions for many businesses and City agencies including the EDIC Marine Industrial Park and the Boston City Hospital, facilitated the formation of three Transportation Management Associations, and researched and wrote a sixty page Commuter Mobility Manual for use by Directors of Human Resources and Personnel Directors among other policy makers within a company or institution.

Therefore, I request your authorization for the award of an employment contract to Gretchen M. Ashton in an amount not to exceed twenty-one thousand and five-hundred and sixty dollars (\$21,560), payable at an hourly rate of twenty dollars (\$22) per hour, which is deemed to be reasonable, during the period December 31, 1990 to June 30, 1991. If the existing contract with CARAVAN is validated, this employment contract will terminate, and the expenditures under that contract will be reduced accordingly.

Because of the professional nature of the services to be performed, the unique experience of Ms. Ashton and the reasonable cost of the services, I believe that public advertising would serve no useful purpose.

Very truly yours,
Richard A. Dimino,
Commissioner.

SHERIFF'S OFFICE

C. 3682-91

November 28, 1990

Medical Services

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Joan Michelle Lebow M.D., 96 Dunster Road, Jamaica Plain, Massachusetts 02130, for physician services at the Suffolk County Jail.

Under the terms of the contract, the contractor shall provide physician services at the Suffolk County Jail, including, but not limited to, the services mandated by the order of the United States District Court in the case of *Inmates of Suffolk County Jail v. Kearney, et al.* In addition, the contractor may be on call twenty-four hours per day for consultation by jail staff and shall provide for an alternate physician at the contractor's sole expense in the event he is unable to provide said consultation services. The alternate selected by the contractor shall be subject to approval by the Sheriff. The contractor shall provide an average of 4 hours of physician services per week. The contractor is also required to provide proof of malpractice insurance in a form and amount satisfactory to the Sheriff.

Joan Michelle Lebow M.D. is especially qualified to do this work as he has had prior medical experience at Boston City Health Care for the Homeless which services a similar population.

Compensation under this contract shall not exceed five thousand one hundred and four (\$5,104) dollars at the rate of \$58 per hour, which I have determined to be reasonable for the work to be performed. The terms of this contract shall be from January 28, 1991 through June 30, 1991.

Dr. Joan Michelle Lebow has not had a contract with the Suffolk County Sheriff's Department in the past.

In view of the special nature of the physician services to be performed, and the reasonable cost of these services, I believe that public advertising would serve no useful purpose.

Very truly yours,
Robert C. Rufo,
Sheriff.

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

ASD PURCHASING DIVISION

Automobile Parts

5124AM

October 26, 1990

Dear Mr. Mayor:

On July 10, 1990, your Honor approved the award of publicly advertised Contract No. 5124 to the Bay State Auto Spring Mfg., Co., to provide Miscellaneous Automobile Parts (CC: 060-99) to various City departments for immediate delivery through June 30, 1991.

It now appears that the amount originally stated in this contract will prove to be insufficient to satisfy the City's requirements through June 30, 1991. Bay State Auto Spring

has agreed to furnish whatever additional quantities the City may have at the same prices it had originally bid under this contract.

Because Bay State Auto Spring is presently under contract to supply Miscellaneous Automobile Parts to various City departments, it is my opinion that the best interests of the City would be served by amending Bay State Auto Spring Mfg., Co.'s existing contract.

Therefore, your Honor's permission is respectfully requested to amend Contract No. 5124 with the Bay State Auto Spring Manufacturing Co., Inc., 83 Hampden St., Boston, MA 02119, by increasing the contract amount by \$30,000, from \$30,000 to an amount not to exceed \$60,000, 2% TP, a cost I consider reasonable. This amount is an estimate based on projected requirements.

For the reasons previously stated, I believe that further public advertising would serve no useful purpose.

LAW DEPARTMENT

Legal Services

2339-91

January 8, 1990

Dear Mr. Mayor:

On August 10, 1990, your Honor approved an award of a contract without public advertising for bids to Elizabeth Foley, an individual located at Boston City Hall Room 615, Boston, MA 02201, for services provided the Law Department. This contract and amendments thereto are exempt from the provisions of G.L. c. 30B and is awarded under the authority of the City Charter. The services to be provided include assisting department attorneys with actions involving negligence against the City of Boston, and defects in public ways; answering interrogatories and responding to other discovery requests; performing legal research; drafting legal pleadings; and providing assistance in trial preparation under attorney supervision from August 1, 1990 to June 30, 1991 at a cost not to exceed \$5,000.

Your approval is requested to amend this contract to insure Ms. Foley's continued services in the Law Department. This amendment is necessary due to the fact that she will have worked more hours over the term of her contract than was originally anticipated.

The cost of this amendment, which is effective February 1, 1991, shall not exceed three thousand dollars five hundred (\$3,500), which I have determined to be reasonable.

The contract as amended shall not exceed eight thousand five hundred dollars (\$8,500).

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Very truly yours,
Joseph I. Mulligan,
Corporation Counsel.

PUBLIC FACILITIES DEPARTMENT

Design of Renovations

C3244-90

September 17, 1990

Dear Mr. Mayor:

Pursuant to a vote of the Public Facilities Commission on September 13, 1990, I re-

(Continued on next page)

spectfully request Your Honor's written permission to dispense with further public advertisement and amend a contract executed on February 15, 1990 with Stahl Associates, Inc., a Massachusetts corporation with offices at 44 School Street, Boston, MA 02108, for design of the repairs to the Woodrow Wilson and James Timilty Middle Schools. The scope of work, as amended, included preliminary design, design development, working drawings and construction supervision.

Pursuant to MGL C. 7, 38A-1/2 *et seq.*, Stahl Associates, Inc. was awarded this contract based on a publicly advertised request for proposals in the *Boston Globe* and *City Record* on October 2, 1989, and the *Central Register* on October 4, 1989.

This amendment is necessary for the following reasons. The roof at the Wilson School has sufficiently deteriorated over the last six months and will need to be replaced. Additionally, preliminary review revealed that although a majority of the windows had been replaced over time, the lexan glazing has discolored. The scope was previously amended to replace the glazing in all the windows. A further study has indicated it is necessary to replace the entire windows as the hardware and balances are damaged or missing in most of the windows and they are no longer manufactured.

The cost of these additional design services shall not exceed \$143,665, resulting in an amended contract cost that shall not exceed \$513,665 (including \$150,000 for supplementary services), which is a fixed fee of 9.54% based on an increased estimated cost of construction from \$3,000,000 to \$3,812,000. The term of this contract shall remain from February 15, 1990 to May 7, 1992.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bid in the *City Record* under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

C-3184-89
November 20, 1990

Dear Mr. Mayor:

Pursuant to a vote of the Public Facilities Commission on November 15, 1990, I respectfully request Your Honor's written permission to dispense with further public advertisement and amend a contract executed on January 18, 1989 with JA Architects, with offices at 50 Church Street, Cambridge, MA 02138, for design of renovations to Farragut, Holmes, Dickerman, Eliot, Hale and Guild Schools. The scope of work of this contract, as amended, includes preliminary design, design development, working drawings and construction supervision.

Pursuant to MGL C. 7, 38A-1/2 *et seq.*, JA Architects was awarded this contract based on a publicly advertised request for proposals in the *Boston Globe* and *City Record* on August 1, 1988, and the *Central Register* on August 3, 1988.

This amendment is necessary for the following reasons. The construction budget has increased to include additional repairs which need immediate attention including additional plumbing and electrical upgrades, roof replacements and installation of heat detectors.

The cost of these additional design services shall not exceed \$100,000 resulting in an amended contract cost that shall not exceed \$651,250 (including \$100,000 for supplementary services), which is a fixed fee of 9.188% based on an increased estimated cost of construction from \$4,750,000 to \$6,000,000. The term of this contract shall be extended to September 18, 1991.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bid in the *City Record* under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director

C-3208-90
November 20, 1990

Dear Mr. Mayor:

Pursuant to a vote of the Public Facilities Commission on November 15, 1990, I respectfully request Your Honor's written permission to dispense with further public advertisement and amend a contract executed on December 5, 1989 with Buck, Smith & McAvoy, Inc., a Massachusetts corporation with offices at 374 Congress Street, Boston, MA 02210, for design of a new facility to accommodate the CAP Program and Day Care at the Mattapan Hospital. The scope of work of this contract, as amended, included preliminary design, design development, working drawings.

Pursuant to MGL C. 7, 38A-1/2 *et seq.*, Buck, Smith & McAvoy was awarded this contract based on a publicly advertised request for proposals in the *Boston Globe* and *City Record* on January 30, 1989, and the *Central Register* on February 1, 1989.

This amendment is necessary for the following reasons. Upon completion of preliminary design, and completion of minimum program requirements, the construction cost was re-estimated and increased. This increase in construction has made it necessary to increase the design fee to meet program requirements.

The cost of these additional design services shall not exceed \$27,026 resulting in an amended contract cost that shall not exceed \$117,080 (including \$40,000 for supplementary services), which is a fixed fee of 9.4% based on an increased estimated cost of construction from \$636,650 to \$820,000. The term of this contract shall be extended to December 22, 1991.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with

inviting sealed bid in the *City Record* under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

NEIGHBORHOOD SERVICES UP & RUNNING AS HURRICANE BOB SWEEPS ACROSS BOSTON

Long before Hurricane Bob swept across the City of Boston, city officials were activating an emergency response network to help residents weather the storm.

On Monday, as the powerful hurricane crept closer to the city, Mayor Raymond Flynn called an early-morning meeting of the Emergency Response Team. The team was headed up by Gerry Cuddyer, Assistant Director of the Mayor's Office of Neighborhood Services and included representatives from the Boston Police Department, the Fire Department, the Department of Public Works, the Parks Department, Boston City Hospital, the city's emergency medical services and the Emergency Shelter Commission.

Boston Mayor Raymond L. Flynn ventured out during Hurricane Bob to survey the damage in the city's neighborhoods.

Dozens of emergency personnel manned the telephones in the command center on City Hall's seventh floor, taking calls from residents reporting downed tree limbs and power lines. As the storm worsened throughout the day, the command center fielded almost 4,000 calls from across the city, offering advice on coping with Bob and forwarding reports to the appropriate city agencies.

"Whenever a crisis like this hits, we are on hand to assist residents," said Mayor Flynn. "The Emergency Response Team is there to make sure that essential city services continue and that people are not weathering a crisis alone."

"It was a wild day, but we hung in there and provided residents with the information they needed to make it through the storm," added Cuddyer. Officials from the Police, Fire,

Transportation and Health and Hospitals departments worked the phones and stood at the ready throughout the day.

Public Works crews were dispatched to minimize tree limb damage and help with downed wires, and the city's Emergency Shelter Commission, with the help of Community Center staffs, established shelters at 12 community centers in Boston.

Mayor Flynn held a televised press conference to inform residents where to call for help and later toured the city, meeting with neighbors and assessing the damage.

Down the hall from the emergency command center, neighborhood coordinators from the Office of Neighborhood Services were working the phones, helping set up emergency storm shelters. Many of the neighborhood coordinators were dispatched to shelters, working with Boston Community Center staff members to aid those driven out by the storm.

"We are proud of the role we played in helping the city through Hurricane Bob," said Neighborhood Services Director John Riordan. "By being out there in the neighborhoods, we were able to remind residents that the city is there for them in times of crisis. Interdepartmental cooperation is the key."

The Mayor's Office of Neighborhood Services also runs a 24-hour hotline for queries from the city's residents, answering questions about city services and providing further information on how to resolve problems. The emergency response team, said Riordan, is an outgrowth of that unique city service.

As Boston cleaned up from Hurricane Bob Tuesday morning, the response team continued to field calls from residents and provided them with the help they needed.

EAST BOSTON NATIVE PAUL LEWIS RETURNS TO NEIGHBORHOOD TO FIGHT "BAD'S" GOOD FIGHT

As a native of East Boston, Paul Lewis has a special interest in keeping the neighborhood drug free.

The 28-year-old Boston Against Drugs (BAD) East Boston Coordinator remembers growing up near Maverick Square, taking pride in the way residents cared about their neighbors and the well-being of their children.

"That's what makes working for BAD in East Boston so satisfying," Lewis says. "Working to prevent drugs from hurting the community gives me a chance to give something back to a place that was good to me."

A Boston University Football Hall-of-Famer and former New England Patriot, Lewis recently began working with BAD in East Boston, helping coordinate the city's ambitious anti-drug program with the help of community leaders.

With the assistance of MassPort — BAD's business partner in East Boston — BAD has joined forces with the East Boston Neighbors Against Substance Abuse (EBNASA) program.

"Right now, EBNASA is working to come up with new ways of combating drug abuse in East Boston, but we need the help of the community in bringing the program to its full potential," Lewis says.

Questionnaires are being handed out and mailed to residents across East Boston, asking for suggestions on how to use a five-year federal grant most effectively. Input from East Boston's many diverse cultural and ethnic groups will assure the money is well-spent, Lewis says.

Boston Mayor Raymond L. Flynn speaks at the Boston Park Plaza Hotel during Labor Day observances.

And the only way to make sure that happens, Lewis adds, is if people from all walks of life get involved.

EBNASA meets on the second Monday of each month at the East Boston Health Center, and Lewis urges residents who want to stamp out drug abuse to attend. "It's an open forum," he says, "and everybody is welcome."

"We're trying to empower the people of East Boston," Lewis says of BAD's involvement with the EBNASA program. "Their involvement will allow them to take the lead in preserving all that's good about East Boston."

Growing up in the Maverick Housing Development, Lewis got involved in local athletic programs, later attending Boston University and making it into the B.U. Football Hall of Fame. He worked at Bank of Boston for several years and at the Juvenile Court in Boston as a probation officer. After spending almost a year in Italy, Lewis returned to Boston and heard the call to public service.

"We are all proud of the work being done by Paul Lewis in East Boston," says John Riordan, director of the Mayor's Office of Neighborhood Service, which works in conjunction with BAD. "Along with the efforts of the other coordinators working in the city — Pedro Rodriguez and Kay Walsh — the program promises to be a great success and has already helped thousands learn more about the dangers of drugs."

BAD Executive Director Howard Hughes praised the role of EBNASA as a positive influence in the community and also called on residents to join the fight against drugs.

"The grant from the federal Office of Substance Abuse Prevention is there to aid residents," Hughes said. "But we need their help in plotting a strategy that will work."

"It's a great way to work for the good of East Boston," adds Lewis, "and a great way to meet your neighbors."

And a great way to meet former neighbors, like Paul Lewis.

TWO MORE ORANGE LINE STATIONS TO BECOME ACCESSIBLE

*Improvements for Passengers
With Disabilities Slated
for Sullivan, Wellington Stations*

Continuing its ongoing commitment to provide access to citizens with disabilities, the MBTA Board of Directors today awarded contracts for improvements which will make Sullivan Square and Wellington stations on the Orange Line barrier-free. The work at the two stations brings to 15 the number of Orange Line stations which are accessible.

"Providing access at two of our busier Orange Line stations is a real plus for passengers north of Boston," said MBTA Acting General Manager James J. Rooney. "These projects will not only make these two stations fully accessible for the first time, but they also will make some important improvements for the safety and convenience of all passengers."

Rooney added that while these improvements will bring the transit system into greater compliance with the federal Americans with Disabilities Act, the T's ongoing commitment began long before the Act was passed.

"For years, the T has been a leader among transit systems in enabling people with disabilities to travel," he said. "Whether it's the innovative door-to-door van service — The RIDE — our long-standing policy of purchasing only lift-equipped buses, or improvements like these on the Orange Line, the T has been responsive to the needs of our passengers."

The projects slated to begin this fall will include:

- modification of the parking lot, and construction of a covered access ramp;
- installation of a touch sensitive warning strip on the edge of the platform;
- installation of two elevators and addition of a passenger bridge;
- renovation of the existing stations' structure, including improvements to signage, lighting, emergency alarms;
- at Wellington station, replacement of existing collection booths and equipment, and installation of a new bus canopy;
- at Sullivan Square station, installation of an awning along the platform.

The Wellington Station work will be done by Modern Continental Construction Co., Inc. of Cambridge; the Sullivan Station work will be done by a joint venture — Reynolds Bros., Inc./Reynolds Equipment Corp. of Canton. Both projects will take about a year and a half to complete.

In addition to the work at Wellington and Sullivan Square, other T services accessible to passengers with disabilities include:

- 63 stations (26 stations on the Red, Orange and Blue lines and 37 stations on the commuter rail system)
- 120 lift-equipped vans for The RIDE program, serving 44 communities
- 473 lift-equipped buses
- 32 bus routes served exclusively by lift-equipped buses
- 125 remaining bus routes operate lift-equipped buses upon request as part of the T's Call-A-Lift Bus program
- Design work is under way to make all Blue Line stations accessible
- Design work is under way to make all remaining Red and Orange Line stations accessible
- Design of a low-floor streetcar for use on the Green Line.

For more information on T accessible transportation services, please call the T's Office of Transportation Access

at 722-5123 or TDD 722-5415. For information on routes and schedules please call the T's Customer Service Center at 722-3200 or TDD 722-5146.

NEW MBTA GENERAL MANAGER APPOINTED

*Boston Native
In Top Transit Slot*

John J. Haley, Jr. today became the General Manager of the MBTA. In July, Haley was nominated by Governor William F. Weld and approved by the MBTA Board of Directors. This afternoon, Haley completed the final step of the process when he was unanimously approved by the MBTA Advisory Board — representative of the 78 cities and towns which comprise the T's district.

Secretary of Transportation and MBTA Board Chairman Richard L. Taylor said, "We are delighted that a transit professional of John's caliber is taking the helm of the MBTA. Under his leadership, I'm confident that the T will remain one of the top systems in the country."

In accepting the position, Haley said, "I'm excited to be returning to my hometown in a job that gives me the chance to provide the best possible service for passengers in a time of tight budgets and fiscal challenges. As a daily system user, I see a number of areas where we can take some steps to make the T experience better for riders."

Haley is a native of Jamaica Plain who was most recently the Deputy General Manager of the Bay Area Rapid Transit System in San Francisco. Prior to that, Haley worked in key management positions for public transportation systems in New Jersey, Chicago and Philadelphia. He was also the General Manager of Charter Bus, Inc. in Fitchburg, Massachusetts. Haley holds a B.S. in Government from Northeastern University.

Naming the key priorities of his administration, Haley indicated that rehabilitation of the system's infrastructure and a review of the financing of the

(Continued on next page)

MBTA are at the top of his agenda. The new General Manager included methods of fare collection, updated signage and an expansion of the bus shelter program as areas which will be receiving his attention.

Haley said, "The major challenge is to build on the progress that has taken place by maintaining and rehabilitating the stations and equipment, and providing good, reliable service. It is very important to maximize the significant investment in the system that has been made in the last decade."

Haley noted that he looks forward to working together with the Governor, the Secretary and the Board of Directors, the Legislature and the Advisory Board to face the challenges of running a first class system in a tough fiscal environment. In addition, Haley indicated that he plans to spend time with T employees at all levels to learn the intricacies of operating the system.

Haley will begin running the MBTA in mid to late September.

T LAUNCHES MASSACHUSETTS BUSINESS CAMPAIGN TO ATTRACT LOCAL VENDORS

*"Get the Home Field Advantage" Program Starts
With Printing Industry
Workshop, September 26*

The T is rolling out the start of a "Get the Home Field Advantage" campaign with a September 26 workshop for Massachusetts-based printers on the details of doing business with the MBTA.

The session will be held from 9:00 a.m. to 11:00 a.m., Thursday, September 26, at the State Transportation Building, 10 Park Plaza, Boston.

The workshop is part of a MBTA program to encourage Massachusetts businesses to bid on the T's 14,000 purchasing orders made each year. In 1990, these purchases included the full range of supplies and services needed to run the transit system . . . everything from paper clips and schedule cards to spare parts for buses and trains.

T General Manager James E. Rooney said, "We want to do business with Massachusetts companies. Given these economic times, it only makes sense for us to go the extra mile to give local companies the information they need to work with us."

Last year, 20 percent of the T's orders were won by out-of-state firms competing against Massachusetts-based companies. An additional 25 percent of the T's business went to out-of-state firms for specialized products, such as specific bus parts, which were unavailable in Massachusetts.

Rooney added, "This outreach effort does not change our standard procurement process. The T continues to seek high-quality products at the lowest possible cost."

The T's business outreach program includes the workshop for printers, direct mail advertising to companies in specific industries, and advertisements in trade publications and on T buses and trains. Additional workshops for vendors of other items needed by the T may be held in the future.

Printing companies interested in registering for the T's free September 26th workshop should contact Ed Thurman, in the MBTA Materials Department, (617) 722-4521.

ANDRE DUBUS IN HARVARD AUTHOR SERIES READING AT BPL

Andre Dubus, a MacArthur Fellow in 1988 and the winner of the Pen/Malamud Prize for Short Fiction in 1991, will present the initial program of the Fall Harvard Book Store Cafe Author Series at the Boston Public Library in Copley Square on September 10th at 6 p.m.

Mr. Dubus will read from his first collection of essays, **Broken Vessels**, which has received praise from reviewers including **Publishers' Weekly**, which wrote: "Dubus writes with searing candor, grace and tenderness in these autobiographical essays. He celebrates the small daily sacraments of love, recalls growing up in Cajun-Creole Louisiana, gauges the sadness

of America while riding a Boston-San Francisco train, and describes an encounter with a ghost in a house in Provincetown. The powerful closing section focuses on the 1986 car accident that crippled Dubus, leading to the breakup of his marriage and the enforced separation from his two small daughters. A soul-baring self-portrait, this magical volume contains some of the finest personal essays in recent memory."

An autographing session and reception will take place at the Harvard Book Store Cafe on Newbury Street following the reading.

The Tuesday evening program will be held in the Rabb Lecture Hall and is free and open to the public. For more information, please call 536-5400 Ext. 336.

MAYOR FLYNN SIGNS "BOOMBOX" LEGISLATION

Mayor Raymond L. Flynn today signed a City Council ordinance and home-rule petition limiting excessive noise from portable radio-tape players and car stereos.

"I would first like to commend Councillor Maura Hennigan Casey for putting forward an initiative which will allow the police department the discretion to prevent noise intrusion," said Flynn during the signing ceremony.

"Many residents of the City of Boston have been adversely affected by these so-called boomboxes. In certain areas of the city, residents are being denied the quiet enjoyment of their homes by a few uncaring individuals who are intent upon disrupting the lives of their neighbors," the Mayor added.

Flynn said he is also looking forward to working with the Legislature to pass the home-rule petition and he thanked the citizens of Boston for their valuable input into the passage of the ordinance.

"This is indeed a quality of life issue that clearly demonstrates that government can work with the community to improve the lives of its residents," said Flynn.

NEWSPAPER RECYCLING TO BEGIN SEPTEMBER 1

The Mayor has approved the amending of contracts, based on the following information:

PUBLIC FACILITIES DEPARTMENT Design of Renovations

C3280-90
December 24, 1990

Dear Mr. Mayor:

Pursuant to a vote of the Public Facilities Commission on December 13, 1990, I respectfully request your Honor's written permission to dispense with further public advertising and amend a contract executed on March 24, 1990 with Rothman, Rothman, Heineman, Architects, Inc., a Massachusetts corporation with offices at 711 Atlantic Avenue, Boston, MA 02111, for the design of the renovations to the Ambulatory Care Center Building at Boston City Hospital. The scope of the work included preliminary design, design development, working drawings, and construction supervision. This contract is exempt from the provisions of G.L. C. 30B and is awarded under the authority of C. 7, 38A-1/2-0 et seq.

Rothman, Rothman, Heineman, Architects, Inc. was awarded this contract based on a publicly advertised request for proposals in the Boston Globe and City Record on December 11, 1989 and the Central Register on December 13, 1989.

This amendment is necessary to include roof replacement. The original scope of work did not include roof replacement, but subsequent site visits have proven it necessary.

The cost of these additional design services shall not exceed \$13,456.71 resulting in an amended contract cost that shall not exceed \$86,993.71 (including \$15,000 for supplementary services), which is a fixed fee of 12.96% based on an increased estimated cost of construction from \$375,000 to \$555,507. The term of this contract shall be extended to March 24, 1992.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the City Record under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

C3335-91
January 4, 1991

Dear Mr. Mayor:

Pursuant to a vote of the Public Facilities Commission on December 27, 1990, I respectfully re-

quest your Honor's written permission to dispense with further public advertising and amend a contract executed on September 5, 1990 with Powers & Company, Inc., a Massachusetts corporation with offices at 368 Congress Street, Boston, MA 02110, for the design of the renovations to Curtis Hall recreation building in Jamaica Plain, Phase II. The scope of work included preliminary design, design development, working drawings, and construction supervision. This contract is exempt from the provisions of G.L. C. 30B and is awarded under the authority of C. 7, 38A-1/2-0 et seq.

Powers & Company, Inc. was awarded this contract based on a publicly advertised request for proposals in the Boston Globe and City Record on February 5, 1990 and the Central Register on February 7, 1990.

This amendment is necessary to include oil tank removal, gas fuel conversion of mechanical systems, demolition of oil storage room, new pool windows and structural roof repairs.

The cost of these additional design services shall not exceed \$18,395 resulting in an amended contract cost that shall not exceed \$84,695 (including \$14,430 for supplementary services), which is a fixed fee of 13.012% based on an increased estimated cost of construction from \$390,000 to \$540,000. The term of this contract shall remain from September 5, 1990 to March 5, 1993.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the City Record under authority granted in the City of Boston Code, St. 4, s. 5.

PUBLIC WORKS DEPARTMENT

Engineering Services

C 7360(89)
January 15, 1991

Dear Mr. Mayor:

On October 11, 1988, his Honor the Mayor approved the award of a contract to STV/Seelye Stevenson Value & Knecht, 230 Congress Street, Boston, Massachusetts for engineering services relative to the granite pier and fender system rehabilitation of the Chelsea Street Bridge, SC-7360(89), at a cost not to exceed fifty thousand dollars (\$50,000), for the period August 15, 1988 to June 30, 1989 and extended for time to December 31, 1991. This contract is exempt from the provisions of G.L. C. 30B and is awarded under the authority of the City Charter.

Your permission is respectfully requested to amend this contract, effective on February 1, 1991. This is necessary, as the consultants had been subject to a protracted review process by the Massachusetts Department of Public Works (MDPW), the Federal Highway Administration (FHWA), and the U.S. Coast Guard of plan revisions, necessary comments, and recently a directive to adjust their contract to reflect two contracts with the appropriate funding and design criteria.

The cost of this amendment shall not exceed thirty-two thousand eight hundred dollars (\$32,800), a fixed cost, which I have determined

(Continued on next page)

to be reasonable for the work. The contract, as amended, shall not exceed eighty-two thousand eight hundred dollars (\$82,800).

Inasmuch as this work is related directly to and in conjunction with an existing contract, I feel that public advertising would serve no useful purpose.

Very truly yours,
Joseph F. Casazza,
Commissioner.

The contractor shall commence work forthwith upon execution of this contract and shall be completed within 90 calendar days.

Snow Removal

Dear Mr. Mayor:

On July 23, 1990, his Honor the Mayor, approved the award of a contract based on public

advertising for bids to Browning-Ferris Industries, for Furnishing Mechanical Sweepers to Supplement the Department Forces and Equipment, SC-7326(91). In accordance with the specifications of the said sweeping contract, the Contractor is obligated to furnish one truck for every two mechanical sweepers being employed, to be used in spreading and/or plowing operations during the snow season. A contract for these services was prepared, but was not executed prior to the date of the first snowfall, December 28, 1990.

With reference to Chapter 30B (Uniform Procurement Act), particularly Section 8, it is necessary to utilize these services for the current snow season due to the emergency nature of the services and to reduce any potential threat to public safety.

This Contractor is qualified to do this work because it is in conjunction with the above mentioned existing Mechanical Sweeper Contract.

For the reasons stated above, I respectfully request your Honor approve award of a contract for the above services to B.F.I. Services Group, Inc., previously known as Browning-Ferris Industries, at 2 Southville Road, Southboro, Massachusetts, for FURNISHING TRUCKS FOR SPREADING AND/OR PLOWING OPERATIONS DURING THE SNOW SEASON IN VARIOUS DISTRICTS IN THE CITY OF BOSTON in the amount of \$17,950, to be paid at the rate of \$90 per hour for each truck to be utilized during snow operations, for the period December 28, 1990 to April 30, 1991.

Very truly yours,
Joseph F. Casazza,
Commissioner.

Equipment Repairs

Dear Sir:

I respectfully request your approval to dispense with public advertising and award an emergency contract pursuant to Chapter 30B, Section 8, to Greenwood Fire Apparatus, Inc., 530 John Dietsch Boulevard, North Attleboro, MA for the repair and replacement of parts for our 1985 Emergency One 95-foot Aerial Tower Unit, Fire Department I.D. Number 249-T.

On November 11, 1990 a U-Haul rental truck, while coming off an exit on the Southeast Expressway, struck our Tower Unit on the apron of Division I quarters at 125 Purchase Street, Boston, causing extensive damage.

It is the opinion of the City of Boston's Law Department that payment from the insurance company will be honored, but legal procedures and possible court time will cause delays that will prevent the Tower Unit from returning to service as soon as possible.

An emergency contract is required because the Tower Unit is vital to fire protection and safety for the residents of the City of Boston.

Compensation under this contract shall not exceed Sixty-nine thousand dollars (\$69,000); the

repairs will be completed in no less than fifteen days after your approval of this contract.

Greenwood Fire Apparatus, Inc. is the only apparatus company in the New England area that has the necessary replacement parts compatible to the Emergency One Tower Unit.

Respectfully,
Martin E. Pierce, Jr.,
Commissioner/Chief.

Primary Care Services

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Mattapan Community Health Center, a corporation, located at 1425 Blue Hill Avenue, Mattapan, Massachusetts 02126, to provide primary care services. This contract is exempt from the provisions of G.L. c. 30B.

Under the terms of the contract, Mattapan Community Health Center, will provide this grant to enable the aforementioned participants to meet the responsibility placed upon them by the City of Boston Primary Care Districting Plan. The grant is subject to two conditions: first, that the City's contribution be matched by the particular Grantee Corporation by either providing funds or services equal in value to the City's grant; and secondly, that the Department of Health and Hospitals is satisfied that the Health Center and the Grantee Corporation are agreed on the program of primary health care service for which these funds shall be spent and their respective roles relative to the management of the program. Mattapan Community Health Center, is uniquely qualified to do this work because the health center provides high quality health services in a neighborhood that has almost no private physicians or other acceptable primary care services. Boston's network of neighborhood health centers provides needed services and has had a significant impact on the health of people in Boston's neighborhoods.

Compensation under this contract shall not exceed one hundred seventy-three thousand eight hundred dollars (\$173,800) which I have determined to be reasonable for the work to be performed.

The term of this contract shall be July 1, 1991 through June 30, 1991.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Due to the fact that the budget for this contract was not finalized until October, the contract documents were not sent to the vendor until October 25, 1990. However, they were not returned to the Contract Office until November 14, 1990. The confusion over Chapter 30B has extended the delay.

Very truly yours,
Judith Kurland,
Commissioner.

Professional Services

Dear Mayor Flynn:

I respectfully request your premission to dispen-
se with inviting proposals and to amend a contract under the City Charter to the Jackson/Mann Community School Council, Inc., 500 Cambridge Street, Allston, MA 02134 — FIN No. 042 589717. This is a grant to a non-profit organization and this contract is exempt from the provisions of G. L. c30B.

Under the terms of the amended contract, Jackson/Mann Community School Council, Inc., will be granted an amount not to exceed \$125,760, an increase of \$30,000 from the original contract amount of \$95,760, for services relating to health, educational, recreational, social and developmental services for the Girls' Centers Program, for the period October 29, 1990 to June 30, 1991.

The amendment of this contract is necessitated by a federal research requirement that we had overlooked in the start-up of the Girls' Centers Program. However, we were notified by our federal contract monitor that failure to implement the research component, which is a pre-condition on this demonstration grant, will jeopardize federal funding for the Girls' Center Program grant. The Girls' Centers Program is a federally funded project and the City of Boston has been chosen as a model city for this pilot program. In order to be successful with this program, we must implement the amended contract immediately.

Whereas the Jackson/Mann Community School Council, Inc., one of the partners involved in this program, has demonstrated the ability to provide these services for no cost, no useful purpose would be served by public advertising.

Respectfully yours,
William P. Doherty,
Executive Director.

Transportation Improvement

Dear Mr. Mayor:

On October 31, 1989, the Mayor of Boston approved the Award of a Contract based on Public Advertising for bids, to Mario Susi & Son, Inc., 36 Westwood St., Dorchester, MA for Transportation Improvement in Day Square, Eagle Square, Prescott Street in East Boston, Contract No. C.I.P.48T at a cost not to exceed \$200,999.85.

In the course of the work, this amount proved to be insufficient for several reasons: additional work to improve traffic and public safety and increase the number of public parking places in Day Square etc.

All these extras added an additional \$35,000 to the original estimate.

Therefore, your approval is requested to Amend the Contract to provide additional funds to pay for this work. The Cost of the Amendment, which is effective February 20, 1991, for \$35,000, which I have determined to be sufficient to finalize the Contract.

The Contract, as amended, shall not exceed \$235,999.85 Dollars.

Commissioner of Public Works.

Re: **Design of Renovations** to the Amphitheater in the Dowling Building at Boston City Hospital - Amendment No. 2, Project No. 4703G

Dear Mr. Flynn:

Pursuant to a vote of the Public Facilities Commission on December 13, 1990, I respectfully request Your Honor's written permission to dispen-
se with further public advertisement and further amend a contract executed on April 26, 1990 with Cameron Roberts Architects, a Sole Proprietorship with offices at 11 Beacon Street, Boston, MA 02108, for the design of the renovations to the Amphitheater in the Dowling Building at Boston City Hospital. The scope of work of this contract, as amended, included preliminary design, design development, working drawings, and construction supervision. This contract is exempt from the provisions of G.L. C.30B and is awarded under the authority of MGL C. 7, 38A-1/2-0 et seq.

Cameron Roberts Architects was awarded this contract based on a publicly advertised request for proposals in the Boston Globe and City Record on January 16, 1989 and the Central Register on January 18, 1989.

This amendment is necessary for the following reasons. Upon completion of structural investigation, hidden conditions were revealed which need repair. Asbestos investigations showed additional asbestos removal will be required. Also, the construction cost will be increased to include audio visual equipment and furnishings.

The cost of these additional design services shall not exceed \$37,039 resulting in an amended contract cost that shall not exceed \$171,164 (including \$50,000 for supplementary services), which is a fixed fee of 12 percent based on an increased estimated cost of construction from \$750,000 to \$1,009,700. The term of this contract shall be extended to January 1, 1992.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispen-
se with inviting sealed bids in the City Record under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

Telecommunications System

Your Honor:

On June 28th 1990 your Honor approved an award of a employee contract, without Public Advertising for bids, to Timothy Downing for services as a Telecommunications Technician during the period July 1, 1990 to June 30, 1991 at a cost not to exceed \$25,000 dollars.

Your approval is requested to amend this contract to provide for additional hours of service. The cost of this amendment shall not exceed \$15,000. The contract as amended shall not exceed \$40,000. The period of performance shall remain the same.

The City of Boston is in the process of acquiring a new telecommunication system and a subsequent transition of responsibilities between Real Property and MIS. At the time the original contract sum was projected, Mr. Downing was to provide limited services to the Real Property Department and, predicated on the needs of the new system he was to negotiate an agreement for additional services with the MIS Department. However, the installation of the new system is behind schedule and the projected change in service will not be necessary until FY 1992.

This department must now provide the same level of Telecommunication Services, as in past years. This contract as amended will provide for that level of service with no increase in compensation (\$24 per hr.). Because of Mr. Downings unique knowledge of the existing system and the extremely reasonable rate of compensation (60 percent less than AT&T rates). I believe that public advertising would serve no useful purpose.

Mr. Downing has continued to provide service to Boston City Hall under contractual agreement since his retirement from AT&T. Mr. Downing has had four previous contracts with this department.

1.	11/1/86 — 6/30/87	\$19,000
2.	7/1/87 — 6/30/88	35,000
3.	7/1/88 — 6/30/89	35,000
4.	7/1/89 — 6/30/90	40,000

Respectfully yours,
Frank N. Jones,
Commissioner.

Laboratory Supplies

March 7, 1991

Dear Mr. Mayor:

In response to an advertisement published in the City Record on April 9, 1990, for Laboratory Supplies, the following bids were publicly opened and read on May 4, 1990:

Carpinteria, CA 93013
\$9,999.00 Net 30

The proposals submitted by the above vendors, the lowest bidders, for their items have been found to be legally defective because their proposals were filed late.

However, inasmuch as the above vendors, are otherwise responsible and qualified bidders and inasmuch as the above submitted the lowest bids which I have determined to be reasonable, your permission is requested to reject all bids for those items and award these contracts without advertising to the above for the period July 1, 1990 through June 30, 1991 at a cost not to exceed \$9,999.00 for each. These contracts are being processed under the City Charter.

This award is being processed late because we did not have the necessary documents from the vendors until after the start of the contract period. The Department was ready to process these contracts when Chapter 30B stopped all further processing. Originally these contracts were written for over ten thousand dollars (\$10,000.00) and thus could not be processed under Chapter 30B. The Purchasing Department investigated the possibility of lowering the amounts to under ten thousand dollars (\$10,000.00). The cost centers using these supplies informed the Purchasing Department that they would not spend ten thousand dollars (\$10,000.00) so the contract amounts were lowered.

Very truly yours,
Judith Kurland,
Commissioner.

Dear Mr. Mayor:

I request that your Honor's permission to award a contract pursuant to competitive procedures by the Department's Designer Selection Board to Barrientos & Associates, Inc., located at 48 Grove Street, No. 304, Somerville, MA 02144. This contract is exempt from the provisions of G.L.C. 30B and is awarded under the authority of Chapter 7, Section 38A 1/2.

In response to an advertisement published in the City Record on May 7-14, 1990, for request for designers for Arnold Arboretum Walkway Reconstruction, under the terms of the contract the design services will assist the Parks and Recreation Department "In Providing Design Services for Walkway Reconstruction at Arnold Arboretum, West Roxbury, MA."

Five firms submitted design proposals which were received and numerically rated by the Department's Designer Selection Board. (See attached sheet.) Barrientos & Associates, Inc. was the firm selected as the designer for the project. Under the terms of the contract, the firm will produce contract documents for the Walkway Reconstruction at Arnold Arboretum, West Roxbury, MA, during the period March 4, 1991, through December 31, 1991.

Barrientos & Associates, Inc. has extensive experience in high quality designs similar to the renovations required at the Arnold Arboretum.

Compensation for Walkway Reconstruction at Arnold Arboretum under the terms of the contract will be a fixed fee of eleven thousand, seven hundred forty-four dollars (\$11,744.00), with a supplemental service fee of seven thousand dollars (\$7,000.00). The fixed fee is based on a construction cost of eighty thousand dollars (\$80,000.00).

Therefore, the total compensation for this contract is not to exceed eighteen thousand, seven hundred forty-four dollars (\$18,744.00). Payment for the services will be made from appropriation code 6S3-300-6680-0725.

In consideration of the need to have the designers expertise and knowledge of the drawings during the construction, I respectfully request your Honor's permission to enter into this contract.

Sincerely,
Lawrence A. Dwyer,
Commissioner.

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on December 13, 1990, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Sterling Associates, Inc., a Massachusetts corporation with offices at 286 Congress Street, Boston, MA 02210, for design of renovations to the Blackstone and Harvard Kent Schools for abating sidewalk parapet and leaking skylight. The scope of work includes preliminary design, design development, working drawings, and construction supervision. This contract is exempt from the provisions of M.G.L. C. 30B and is awarded under the authority of M.G.L. C. 7, 38A-1/2-0.

Compensation under this contract shall not exceed \$14,208.00 (including \$5,000.00 for supplementary services), which is a fixed fee of 10.9 percent based on an estimated cost of construction of \$84,800.00, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be for 12 months from the date of execution.

Sterling Associates, Inc. was awarded this contract based on a publicly advertised request for proposals in the *Boston Globe* and *City Record* on October 10, 1990 and the *Central Register* on October 12, 1990. The Public Facilities Designer Selection Committee evaluated 23 proposals employing a numerical matrix system. The numerical matrix rating for the firm reflects the combined scope of each Committee member's ranking of this firm and the recommended firm has the lowest number. The numerical matrix rating summary of the four finalists, in order of rank, was as follows:

Sterling Associates, Inc., 286 Congress Street, Boston, MA 02210 — 10.

Caolo, Bieniek & Kluz Associates, 179 South Street, Boston, MA 02111 — 16.

Horne & Associates, 17 Spring Street, Watertown, MA 02172 — 16.

Bruner/Cott & Assoc., 130 Prospect Street, Cambridge, MA 02139 — 21.

In view of the technical and professional nature of the services required, the qualifications and expertise of the designer, and the selection process used, it is my view that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the City Record under authority granted in the City of Boston Code, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

The cost of these additional design services shall not exceed \$26,063.00 resulting in an amended contract cost that shall not exceed \$415,209.00 (including \$187,500.00 for supplementary services), which is a fixed fee of 10.68 percent based on an increased estimated cost of construction of \$1,826,500.00 to \$2,132,313.00. The term of this contract shall remain from June 4, 1990 to May 12, 1992.

In view of the technical and professional nature of the services required, the qualifications and expertise of the designer, and the selection process used, it is my view that further public advertising would serve no useful purpose. CONTRACTS AWARDED WITHOUT ADVERTISING

Professional Services

January 28, 1991

Dear Mr. Mayor:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the Trustees of Boston University, acting by the Boston University School of Medicine, a Corporation, located at 80 East Concord Street, Boston, Massachusetts 02118, for provision of a professional staff of qualified anesthesiologists. This contract is exempt from the provision of G.L. c. 30B and is awarded under the authority of the City Charter.

Under the terms of the contract, the University shall provide the City with a physician who will be known as the Director of Anesthesiology of the Boston City Hospital and a professional staff of qualified anesthesiologists with appropriate staff privileges to train/supervise residents and medical students and to provide direct clinical services required and medical students required in the care of hospital patients. The University is uniquely qualified to do this work because it maintains a high quality post-graduate training program for physicians, partakes in medical research and is capable of transmitting medical knowledge that will provide and maintain health care programs for the treatment of the sick and injured of the City of Boston.

Each said qualified physician or other practitioner shall provide such administrative, supervisory and clinical services as his/her position description calls for in such manner as to assure continuous and timely delivery of high quality and cost-effective patient care and compliance with administrative and regulatory requirements.

Compensation under this contract shall not exceed two million five hundred sixty-three thousand forty-four dollars (\$2,563,044), which I have determined to be reasonable for the work to be performed.

The term of this contract shall be July 1, 1990 to June 30, 1991.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

This award is being processed late because exact budget figures for physician services for the Anesthesiology Department were not determined until after the start of the contract year. The confusion over Chapter 30B has extended the delay.

Very truly yours,

Judith Kurland,
Commissioner.
